Addining Claims.

This claim is joined on the south by the Peabody Lode, \$1.00 \$37-A, and so far as known the rest of the ground surrounding the Bellmont is Public Domain and subject to entry.

Location.

This claim is located on unsurveyed land, approximately Township 13 North, Range 13 W., of the Gila and Salt River Base and Meridian, Owens Mining District, Mohave County, Arizona.

Instrument.

This survey was made with a C. L. Berger & Sons transit, No. 1 C., and courses were deflected from the true meridian as determined by direct solar observation, checked on Polaris. The distances were measured with a 600 and a 100 ft. steel tape.

The disagreements between these field notes and the field notes of the Peabody lode, 1.0 + 10.37 A, are due to errors in the latter.

Note:

I do not agree with the courses and mineral monument ties of the Peabody Lode, \$20+37-A, and the courses shown by these notes and accompanying preliminary plat were determined by me in the

field from the actual corners on the ground, which still stand in good condition and properly marked according to the notes on file in your office.

U. S. Deputy Mineral Surveyor.
