At N. E. Cor. Copper Top lode the Pettet lode, unsurveyed, corners, the Kentucky-Arizona Copper Co., claimant.

To the east of Copper Top lode, the Copper Bottom lode, unsurveyed, the Kentucky-Arizona Copper Co., claimant.

At S. E. Cor. Copper Top lode, Trail lode, unsurveyed, corners, the Kentucky-Arizona Copper Co., claimant.

To the south of Copper Top lode, Little Mountain lode, unsurveyed, the Kentucky-Arizona Copper Co., claimant.

To the north of Copper Top Extension lode, Rattlesnake lode, unsurveyed, the Kentucky-Arizona Copper Co., claimant.

To the west of Copper Top Extension lode, Winona lode, unsurveyed, the Kentucky-Arizona Copper Co., claimant.

To the south of Copper Top Extension lode, Kentucky Colonel lode, unsurveyed, the Kentucky-Arizona Copper Co., claimant.

INSTRUMENT.

This survey was made with a Keuffel and Esser Company's Engineer's transit No. 13,402, with solar attachment. The courses were deflected from the true meridian as determined by solar observations. The distances were measured by 100 ft. steel tapes.

NOTE: The differences between these field notes and the location certificates of the respective lodes are due to errors in the latter.

Note: In the execution of this survey, the acknowledgment of the final oaths of my assistants by me, was due to the fact that upon completion of the work and my return to Phoenix, Arizona, the said assistants were determined upon leaving the territory immediately, having positions awaiting them at points outside of Arizona, and being unable to bring them before an officer duly qualified to administer said oaths, the witnessing of the same necessarily devolved upon me. Since the date of my assistant's signatures of said affidavits I have made diligent efforts to locate them in an effort to secure their signatures acknowledged by a Notary Public, but to date without success.

From : State Director, Arizona

Subject: Mineral Survey No. 2546

Please refer to my memorandum of June 23, 1971, cancelling the survey of the Copper Top and Copper Top Extension lode claims of Mineral Survey No. 2546. In the second paragraph of this memorandum there is a typographical error in the Mineral Survey number. Please correct this to read "The following notation should be made on the plat of Mineral Survey No. 2546", in lieu of Mineral Survey No. 2544 as shown.

Memorandum

To : Chief, Division of Management Services, ASO
 (Att'n. Br. of Records & Data Management)

From : ~~ASSOCIATE~~
 State Director, Arizona

Subject: Mineral Survey No. 2546

This memorandum cancels the survey of the Copper Top and Copper Top Extension lode claims of Mineral Survey No. 2546.

The following notation should be made on the plat of Mineral Survey No. 2544:

"Survey of the Copper Top and Copper Top Extension lode claims canceled by State Director's memorandum dated June 23, 1971."

The plat and field notes should remain in the files. This memorandum should be made a part of the original field notes of Mineral Survey No. 2546.

The Copper Top and Copper Top Extension lodes were located by the Kentucky-Arizona Copper Company on July 24, 1906, and surveyed under Mineral Survey No. 2546, approved February 16, 1909.

The cancellation of the survey of the Copper Top and Copper Top Extension lode claims is based on an opinion of the Field Solicitor's office that the claimant, Kentucky-Arizona Copper Company, has dissolved as a legal entity and can no longer hold mining claims.

Articles of Incorporation of the Kentucky-Arizona Copper Company, incorporated in Kentucky in 1905, were filed in Arizona on March 7, 1905, and recorded in the official records of Maricopa County, Arizona. Article IV of these Articles of Incorporation states in pertinent part "The time of commencement of this Corporation shall be the date of the filing of these Articles of Incorporation in the office of the Auditor of the Territory of Arizona, and the termination of said Corporation shall be 25 years thereafter, unless it be renewed in the manner now provided by law."

Since no renewal was requested from the Arizona Corporation Commission, the Company dissolved by operation of law on March 7, 1930. A check of assessment records reveals no assessment work was filed on these claims between 1930 and 1940. Further, these claims were relocated by other parties whose rights have subsequently been adjudicated and, therefore, there does not appear to be any assets in these claims which could pass to stockholders.

Mineral Survey No. 2546 does not appear on any subsisting plats. The land embraced by these lode claims has been classified for transfer to Maricopa County for Park Purposes under application AR-017961.
