INSTRUMENT.

This survey was made with an A. Lietz mining and solar tran-

Sur. No. 2768, Cornopia and Good Luck lodes, previously surveyed

ed by me. The distances were measured with 100 ft. and 500 ft. steel tapes.

REPORT.

The lode line of each location of this claim was run directly upon the ground, and the several corners established by means of offsets from the lode lines. All tie lines were run either directly upon the ground, or by traverses run upon the ground and submitted in a separate report herewith.

U. S. L. M. No. 1256 is a pine post, 6 ins. square, 14 ft. above ground, in mound of stone 6 ft. high, 6 ft. base, scribed on S. face U.S.L.M.1256 I.S.M.D. May 4, 1897, and on W. face U.S.L.M.No.1256. 4.6 ft. West is a rock in place, chiseled + U S L M.

Sur. No. 1255A., Monster and Chief of the Hill lodes:

All corners are pine posts, properly set and scribed with the numbers of the corners and survey. I find lines 2-3 and 3-4 of the Monster lode to be N.7° 18'W. 746.6 ft., and N.26° 52'W. 761.5 ft., instead of N.8° 00'W. 747 ft., and N.25° 40'W. 747 ft., respectively as returned in that survey, due to errors in the latter.

Sur. No. 1254, Hulda and Review lodes:

All corners are pine posts, properly set and scribed with the numbers of the corners and survey.

The adjoining claims to this claim are;-

On the north, Mohawk, Unsurveyed, Julia K. Edwards claimant.

On the south, Roosevelt, Unsurveyed, Julia K. Edwards claimant.

On the east, Monster, Sur. No. 1255A., claimant unknown.

NOTE. - The disagreements between the ties to U. S. L. M. No. 1256 as returned in these field notes and those of the

above prior surveys are due to errors in the latter.

NOTE. - The disagreements between these field notes and the location certificates with regard to the positions of the discovery points, and with reference to side center monuments on the Black Metal and Bonanza lodes, are due to errors in the latter. I failed to find any side center monuments on either of said lodes.
