Note: The Navajo, Meadow Lark, Deacon and Ibex lodes were purchased by the claimant in the latter part of the year 1910 from the common owner and locator. After the purchase 17 ft. were sunk in No. 3 working on the Navajo lode by claimant herein. With the exception of this 17 ft. all of No. 2. and No. 3 workings on the

Navajo lode were constructed at the expense of the original locator and common owner. By an inspection of the accompanying map entitled "Contour Map Sur. No. 2887" it will be seen that No. 2 working, continued in its present course will develop the Navajo, Meadow Lark and Deacon lodes at several hundred feet in depth, and by cross-cutting the Ibex lode can be developed to approximately the same depth. In connection with No. 3 working on the Navajo lode this working will enable the claimant to develop the Navajo, Deacon, Meadow Lark and Ibex lodes at considerable depth. No. 2 and No. 3 workings aforesaid are conveniently situated to develop the said four lodes economically by one system of workings.

The cross cut from No. 3 working on the Portland lode, a \frac{1}{5} interest in which is accredited to the Martha lode, if continued in its present course will develop the Martha lode several hundred feet in depth.

U. S. SURVEYOR GENERAL'S FINAL CERTIFICATE ON FIELD NOTES.

DEPARTMENT OF THE INTERIOR,

Office of U.S. Surveyor General,

Phoenix, Arizona, May 24, 1911.

I, U. S. SURVEYOR GENERAL FOR ARIZONA, do hereby certify that the foregoing transcript of the Field Notes, return and approval of the survey of the mining claim of The Arizona Copper Company, known as the OPOSURA, EAST BASSETT, LAMPASAS, REPUBLIC, NAVAJO, NATIONAL, MEADOW LARK, IBEX, DEACON, PORTLAND, AJAX, MARTHA, UTAH, situate in Greenlee Gold Mountain and Copper Mountain Mining Districts, Greenlee County, Arizona, in Secs. 15, 16, 21 & 22, Uns., T. 4 S., R. 29 E., and designated as Survey No. 2887, has been correctly copied from the originals on file in this office; that said Field Notes furnish such an accurate description of said mining claim as will, if incorporated into a patent, serve fully to identify the premises, and that such reference is made therein to natural objects or permanent monuments as will perpetuate and fix the locus thereof.

And I further certify that five hundred dollars' worth of labor has been expended or improvements made upon or for each the Oposura, East Bassett, Lampasas, Republic, National, Meadow Lark, Ibex, Deacon, Portland, Ajax, Martha and Utah lodes, and that less than five hundred dollars' worth of labor has been expended or improvements made upon or for the Navajo lode, by claimant or its grantors, and that said improvements, at time of survey, consist of 5 cuts, 11 tunnels, 1 crosscut, and 10 shafts, total value \$15840.00 The crosscut from tunnel No. 3 on the Portland lode being of common benefit to the Portland and Martha lodes, an undivided one-half interest therein, value \$310, is properly credited to each said Martha and Portland lodes. Tunnel No. 2 and shaft No. 3 on the Navajo lodes being common improvements for the benefit and development of the Navajo, Meadow Lark, Deacon and Ibex lodes

of this survey, and being so situated that it can not develop the other claims in this group, an undivided one-fourth interest therein, value \$202.50, and \$217.50, respectively, is properly credited to each of the said four claims.

And I further certify that no portion of said labor or improvements has been included in the estimate of expenditures upon any other claim, and that the plat thereof, filed in the U.S. Land Office, at Phoenix, Arizona, is correct and in conformity with the foregoing Field Notes.

Frank S. Ingalls, United States Surveyor-General for Arizona.

CERTIFICATE OF U. S. SURVEYOR GENERAL AS TO EXPENDITURES REPORTED AFTER RETURN OF SURVEY OF MINING CLAIM.

**经设计分价格保持保持保持保持保持保持保持** 

DEPARTMENT OF THE INTERIOR,
Office of U. S. Surveyor General,
Phoenix, Arizona, May 11, 1912.

I, U. S. Surveyor-General for the District of Arizona, do hereby certify that Seven hundred and fifty dollars and fifty cents, (\$757.50) worth of labor has been expended or improvements made, by claimant or its grantors, upon or for the benefit of the Navajo lode, embraced with others in Mineral Survey No. 2887, The Arizona Copper Company, claimant, and that said improvements, in addition to those reported at time of survey, value \$420, consist of a 15-foot extension in tunnel No. 2, and 30 ft. of drift, extending northwesterly from shaft No. 3, and that said work was done between May 15, 1911 and September 1, 1911.

I further certify that tunnel No. 2 on said Navajo lode, from the returns of survey thereof, and my certificate dated May 24, 1911, appears to be a common improvement for the benefit and development of the Navajo, Meadow Lark, Deacon and Ibex lodes, all included in Survey No. 2887, and therefore the value of the 15-foot extension, \$150, is properly distributed among said claims, \$37.50 being allotted to each of said claims, and that the 30-foot drift northwesterly from shaft
No. 3 extends away from the said Meadow Lark, Deacon and Ibex lodes and should not be considered with said shaft No. 3 as a common improvement for their benefit, but the entire value \$300, of said drift is properly allotted solely to the Navajo lode.

I further certify that no portion of said labor or improvements has been included in the estimate of expenditures upon any other claim. A copy of the report of Lamar Cobb, U. S. Mineral Surveyor, dated May 3, 1912, is hereto attached.

Jank Doigalls
U. S. Surveyor General for Arizona.

MAI.9- 1912

STATE OF ARIZONA, )
COUNTY OF GREENLEE.)

Lamar Cobb of the above county and State being first duly sworn according to law deposes on oath and states that he is the mineral surveyor who made Survey No. 2887 of the Oposura and twelve other lode mining claims, situate in the Greenlee Gold Mountain and Copper Mountain Mining Districts, County of Greenlee, State of Arizona; that the Navajo lode mining claim is one of the claims embraced in said survey; that between May 15, 1911, and September 1, 1911, the following work was done on said Navajo lode, towit, Tunnel No. 2 on said lode was extended fifteen (15) feet to a total length of ninety-four (94) feet also a drift was driven from the shaft, in said No. 2 Tunnel running in a northwesterly direction thirty (30) feet; that the value of the work so done on said lode is Four Hundred Fifty and no/100 Dollars (\$450,); that said work was done subsequent to the survey of said claim made by this deponent and was not included in the report made by him to the U.S. Surveyor General for Arizona.

Subscribed and sworn to before me this 3rd day

of May, A. D. 1912.

My Commission expires February 23, 1916.
