COMMON IMPROVEMENTS.

Tunnel No.7 Last Chance L de was run as a deep level tunnel for the developement of the entire group of claims. It is located in the bottom of a gulch in an advantageous position for the handling of ores with relation to the moroad below. It was planned to run this tunnel so as to sross cut all ledges exposed on the surfaces of the Axtel Golden West, Indiana, Prosperity, and Last Chance lodes and at the same time tap ore bodies of the Triangle Lode at its south end. The tunnel level is about one thousand feet lower than the Cor.No.1 Golden West Lode, (the highest point of this group) and about nine hundred feet lower

than the discovery shaft and cut respectively of the Golden West and Axtel lodes. The only way these claims can be worked to advantage is by deep level tunnels, as the ruggedness of the country would not permit of any other method that would/the same economic results. I consider Tunnel No.7 to be an improvement of such character as to redound to the benefit of all the claims embraced in this group.

Total Value \$2000.00

One sixth equal undivided interest

Value \$ 333.00

Tunnel No.8 Last Chance Lode is still at a lower level than Tunnel No.7 just mentioned and has the same mining conditions and advantages for development of the group as the above mentioned tunnel ,with the additional depth in its favor for deeper development of the claims. Its position and course cannot be taken to develop the Triangle lode as said claim is across the gulch, and the position of the tunnel where it is nearest the Triangle lode, would not permit of economic develop pent at that depth. I consider this tunnel to be an improvement of such character as to redound to the benefit of the Axtel Golden West, Indiana, Prosperity and Last Chance Lodes embraced in this survey, and have proportioned the value accordingly.

Total value

\$900.00

One fifth equal undivide interest

Value

VDIVING CIVING

INSTRUMENT

This survey was made with a Leitz Light Mountain transit—theodolite No.13. The courses were deflected from the true meridian as determined by direct solar observation and checked by use of the solar attachment. The distances were measured with 150-ft.and 300-ft.tapes.

REPORT

U.S.L.M.No.1365 V.D. is a flat stone in place

3-3-.5 ft.exposed and chiseled + U.S.L.M. = 1365-V.D.

with a conical mound of stone 5 ft. high and £ 5 ft. base.

Survey. 1365.

All corners are stones properly set and marked with number of the corner and survey as approved.

I find line 1-4 Reservation to be. N.19-26'W.1161.90 ft. instead of N.19-45'W.1215.0 ft. Also. said line intersects line 3-4 Columbian Lode S.57-15'W.43.05 ft.from Cor. 3 and 501.72 ft from Cor. No.2 Reservation instead of S.57-15'W 87.0 ft. and 529.0 ft. from Cor. No.2 Reservation

I find line 3-4 Columbian Lode to be S.57-15'W. 1238.71 ft. instead of 1319.0 ft.

I find line 2-3 Bellvue to be N.77-04'E 516.28 ft. instead of N.76-15'E. 600.0 ft.

I find the tie of Reservation to U.S.L.M.No.1365 to be 3.11-58'W. 2750.99 ft. instead of S.13-04'W.2843.3 ft.

I find line 2-3 Bellvue to intersect line 4-1 Columbian S.25-15'E.278.85 ft. from Cor.No.4 instead of 294.6 ft. at a point 329.62 ft. from Cor.No.2 of Bellvue instead of 361.8 ft. from Cor. No.2.

Survey No. 1375

I find line East center end Monmont to Cor. No.1 to be S.39-59'W. 298.58 instead of S.40-15'W.300.0 ft. Survey No. 2205

I find line 3-4 Back Bone lode to be N.68-00 E. 1463.39

feet instead of N.68-51'E. 1489.7 ft.

I find the tie of Back Bone Sur.No.2205 to U.S.L.M. No./365 to S. 32-31'E. 2613.67 ft. instead of S. 32-12'E. 2671.8 ft.

Survey No.1413

I find line 3-4,103 Lode to intersect Cor.2 Juniper Lode Lode N.45-06'W.195.55 ft from Cor. No.3 instead of N.45-00'W.

Survey No.1566

I find line 2-3 Juniper lode to be S.39-03'W.582.77 ft. instead of S.39-15'W. 600.0 ft.

I find line from Cor.3 Juniper lode to Cor.No.2

Socrates lode to be N.45-59'W. 516.93 instead of N.45-00'W

521.0 ft.

I find line 2-3 Socrates lode to be 3.21-30'W.540.95 ft. instead of 3.22-00'W. 530.0 ft.and distance Cor.2 to S.C.E. 312.0 instead of 300.0ft.

These discrepancies are due to errors in the returns of the prior surveys.

The discrepancies found existing between the claims as marked by location monuments and as described in the location notices

An error of 44 minutes was made in making out the amended location notices, by applying a correction of 22 minutes in the wrong direction to the assumed course or meridian of the preliminary survey.

Motice of Location

Monument Mon

This diagram is to give locator a general idea of plan of location under the new law. The Discovery Shaft can be in the center of claim or any distance from either end desired. In the diagram it is placed 500 feet from one end and 1000 feet from the other. Commence description of claim at a center end monument, giving its distance and direction from center of Discovery Shaft; thence bound the claim in either direction. In description be careful to state locality of claim with reference to some natural object, or permanent monument, as will identify the claim.

Sec. 8. Location notices may be amended at any time and the monuments changed to correspond with the amended location; Provided, That no change shall be made that will interfere with the rights of others.

Sec. 6. Such surface boundaries shall be marked by six substantial posts projecting at least four feet above the surface of the ground, or by substantial stone monuments at least three feet high, to-wit: One at each corner of said claim and one at the center of each end-line thereof.

tion of a mining claim, as above specified, the locator shall be allowed ninety days within which to do or cause to be done the following things:

* * * * * * * * * *

2. To sink a discovery shaft in the claim to a depth of at least eight feet from the lowest part of the rim of the shaft at the surface, and deeper, if necessary, until there is disclosed in said shaft mineral in place.

of 1901, and Amendments Thereto. Sec. 2. Such location shall be made by erecting at or contiguous to the point of discovery a conspicuous monument of stones not less than three feet in height, or an upright post, securely fixed, projecting at least four feet above the ground, in which monument of stones or on which post there shall be posted a location notice which shall be signed by the name or names of the locators.

Sec. 4. From the time of the loca-

Corner Monument Corner Discovery Monument End Monument End Discovery Shaft 1991 000I 300 ft. Corner Corner Monument

Commence description of claim at a center end monument, giving its distance and direction from center of Discovery Shaft; thence bound the claim in either direction. In description be careful to state locality of claim with reference to some natural object, or permanent monument, as will identify the claim. This diagram is to give locator a general idea of plan of location under the new law. The Discovery Shaft can be in the center of claim or any distance from either end desired. In the diagram it is placed 500 feet from one end and 1000 feet from the other.

TERRITORY OF ARIZONA,)

County of Yavapai.) ss.

I, J.C.Bradbury, County Recorder in and for the aforesaid County of Yavapai, and Custodian of the Records of such office, do hereby certify that I have compared the foregoing within and that the same are true and correct copies, as the same appear of record in my said office, of the following notices of location of the therein named mining claims, situate in the Verde Mining District, Yavapai County, Arizona, viz:

TRIANGLE, the original notice of location whereof is of record in Book 89 of Mines, page 683, Records of Yavapai County, Arizona.

AXTEL, the amended notice of location whereof is of record in Book 86 of Mines, page 234, said records.

INDIANA, the amended notice of location whereof is of record in Book 86 of Mines, page 235, said records.

PROSPERITY, the amended notice of location whereof is of record in Book 86 of Mines, page 236, said records;

LAST CHANCE, the amended notice of location whereof is of record in Book 86 of Mines, page 237, said records.

GOLDEN WEST, the amended notice of location whereof is of record in Book 86 of Mines, page 238, said records.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed my official seal, this 3d day of June, A.D.1911.
