INSTRUMENT.

This survey was made with a Gurley mountain transit. The courses were deflected from the true meridian as determined by direct solar observations. The distances were measured with a 500 ft. steel tape.

REPORT.

The lode line of the location of this claim was run directly upon the ground, and the corners were established by running around the claim. All ties were run directly upon the ground. The N.W. Cor. Sec. 21, T.11 S., R. 16 E., G & S. R. B.M. is a porphyry stone 10 X 10 X 6 ins. above ground, chiseled with four notches on the east face and three notches on the south face, near it are two witness trees blazed and scribed. This is the nearest corner of the public survey.

Sur. No. 3017, Eagle, Copper Peak, Golden Peak No.2 and Eagle No.2 lodes:

All of the corners are pine posts, properly set and scribed with the number of the corner and the survey. Line 1-2 and 3-4 Eagle No. 2 lode fail to furnish the distances (570.8 ft and 596.6 ft. respectively) and the same are properly given in these field notes. Also line 2-3 fails to furnish the course and distance as approved (N.62-05'W.,1475.5 ft) and the same is properly given in these field notes.

Line 1-2 Eagle lode fails to furnish the course as approved (N.61-13 W.) and the same is properly given in these field notes. Sur. No. 3054, Grand Central lode.

All corners are pine posts, properly set and scribed with the number of the corner and the survey. Line 1-2 fails to furnish the course and distance as approved (N.69-28 W., 1237.9 ft.) and the same is properly given in these field notes.

Sur. No. 2871, Hidden Treasure lode.

All corners are pine posts, properly set and scribed with the number of the corner and the survey. Line 4-5 fails to furnish the distance as approved (600.0 ft.) and the same is properly given in these field notes.

Sur. No. 3504 Cont'd.

Sur. No. 3499, Sphinx, Daily No.5 and Daily No.3 lodes. All of the corners are stones properly set and chiseled with the number of the corner and the survey, except Corner Mo.3, Daily Mo.3 lode which is a pine post, properly set and scribed with the number of the corner and the survey. I find all courses and distances to be correct.
