#### Lode Lines.

The presumed courses of the several lodes are as follows:

On the KIT CARSON Lode:

S 63° 04' W. 418.7 ft. and N. 63° 04' E.  
1081.3 ft. from discovery shaft;

On the EVENING STAR Lode:

N 63° 04' E. 419 ft. and S 63° 04' W. 1081  
ft. from discovery shaft;

On the NORTH STAR Lode:

N 63° 04' E. 422 ft. and S 63° 04' W. 1078  
ft. from discovery shaft;

On the BUFFALO Lode:

N 63° 04' E. 481.6 ft. and S 63° 04' W. 1018.4  
ft. from discovery shaft:

On the GOLD REEDS Lode:

N 63° 04' E. 499.5 ft. and S 63° 04' W.  
1000.5 ft. from discovery shaft

On the BALD EAGLE Lode:  
 S 72° 05' W. 700 ft. and N 72° 05' E. 799.4  
 ft. from discovery shaft.

ADJOINING CLAIMS.

On the North West:  
 The Red Crow lode, survey No. 2130;  
 Claimant unknown.

On the East:  
 The Black Diamond and Morning Star lodes,  
 unsurveyed,  
 Claimed by this claimant.

... EXPENDITURE OF \$500.00:

I certify that the value of the labor and improve-  
 ments made upon or for the benefit of each of the loca-  
 tions embraced in said mining claim by the claimant or  
 his grantors, is not less than five hundred dollars,  
 and that <sup>said</sup> improvements consist of:

On the KIT CARSON Lode:

From <sup>West</sup> East Center End -

No. 1      Discovery shaft, the center of which bears N 63°  
 04' E. 418.7 ft;  
 Shaft 6 x 4 ft. 8 ft. deep in rock,  
 Value ..... \$75.00

No. 2.      Main shaft, the center of which bears N. 63°  
 04' E. 427 ft. Shaft 6 x 4 ft. 68 ft. to water.  
 Total depth 136 ft. (See affidavits of T. C. Hefner  
 and A. Hefner, a part of these notes).  
 Drifts at bottom 6 x 4 ft. 10 ft. northerly and  
 20 ft. easterly.

This work done since the era of high wages and  
 high cost of explosives.  
 Value of shaft at \$16 per ft. .... \$ 2176.  
 Value of drifts at \$15 " "      450.  
 Value of clearing and concrete work at  
 mouth of shaft for foundation of hoisting en-  
 gine and compressor, ..... 80.  
 Total      \$ 2706.

This shaft was sunk as a common improvement to  
 the group. The surface slopes upward to the north  
 and east, making it practical to prospect and devel-  
 op the whole group from this shaft.

Hence divide \$2706 by six, the number of claims,

INSTRUMENT.

This survey was made with a Young & Sons Mountain transit (No. 6855), provided with a Smith Solar Attachment. The courses were deflected from true meridian as determined by direct solar observations. The distances were measured by 500 ft. and 50 ft. steel tapes.

Tombstone, Arizona,  
March 12, 1921.

U. S. Mineral Surveyor.

## Report.

The corner of Sections 25-30-31-36 Township 20 South Range 22 East G and S.R.M., also the  $\frac{1}{4}$  section corners between Sections 31-36, Sections 30-31, and Sections 25-30 are stones set in the ground properly marked and witnessed by monuments of stone alongside.

Corners No.1 and No.2 of the Rad Crow lode Survey No.2130 are 4x4 pine posts set in mounds of stone and properly scribed. Insert \*

*Inspected by John A. Rockfellow  
Mar. 17 1924 U.S. Mineral Sur.*

\* At the time Sur.2130 was executed the Cor.of Secs. 25,30,31,36 was firmly set. I was at this corner again in December 1919 and found the stone lying loose on the ground. At the time of this survey I found the stone again firmly set in the ground but not in the exact spot where it had lain fourteen months previous. However there was no certainty that the stone while down was lying at exactly the correct point. The line between this corner as last found and the  $\frac{1}{4}$  Cor. bet. Secs. 31 & 36, and the line bet. this Cor. and  $\frac{1}{4}$  Cor. bet. Secs. 25 & 30 were carefully run by me. They did not agree with the recorded notes nor could they be made to. Hence I concluded it best to accept this section corner as I found it.

in the foregoing field notes, which accurately show the boundaries of said mining claim  
as distinctly marked by monuments on the ground, and described in the attached copy  
of the location certificate, which was received by me from the Surveyor General with  
said instructions, and that all the corners of said survey have been established and per-  
petuated in strict accordance with the law, official regulations and instructions there-  
under; and I do further solemnly swear that the foregoing are the true and original  
field notes of said survey and my report therein, and that the labor expended and  
improvements made upon said mining claim by claimant or his grantors  
are as therein fully stated, and that the character, extent, location, and itemized value  
thereof are specified therein with particularity and full detail, and that no portion of  
said labor or improvements so credited to this claim has been included in the estimate  
of expenditures upon any other claim.
