vein of the location embraced in this claim extends as

follows from its discovery ^{cut} point;

Pay Day lode,480.30 ft.running N.42°06'E.and 1019.70 ft.

running S.42°06'W.

Area.

Total area Pay Day lode, 20.661 acres. ✓

LOCATION.

As near as can be determined from the present condition

of the Public Survey,this survey is located in section

~~20~~ ³⁶ T.14 N.R. ⁸ W.Navajo Base ^{& Mer.} Line, upon the Navajo Indian

Reservation,on the northwesterly slope of the Carriso

mountains. The approximate latitude is 36°56'N.and the

the approximate longitude is 109°12'W.

INSTRUMENT.

The instrument used in making this survey was a C.L.Berger and Sons Mining Transit.

The courses were deflected from the true meridian as determined by direct solar observations.

The distances were measured with a five hundred foot steel tape.

REPORT.

The lode line of the location embraced in this survey was run directly upon the ground, and the several corners established by means of offsets from the lode line.

U.S.M.M.No.1.

U.S.M.M.No.1 was found to be a sandstone 8 ins.by 20 ins. square, projecting 1 foot above the ground, chiseled with a + on top and U.S.M.M.No.1-PRESTON on the east face.

Diligent search and extensive inquiry was made for corners of the Public Survey within a radius of several miles of said claim, but there are apparently none to be found. As these corners are purported to have been set some fifty years ago, it is quite probable that if any remain standing they have been buried by the shifting sands of this region.

ADJOINING CLAIMS.

None.

FINAL OATH OF U. S. MINERAL SURVEYOR.
