COMMON IMPROVEMENT

Improvement No.1 Champion lode Sur.No.1354, designated as such for brevity in reporting, the center of which brs. N.37°-08' W 349.8 ft. from Cor.No.1 Ellinor lode, is the main shaft of the Sheldon Mining Company, claimants of this survey. It is situated centrally in a group of 30 patented and unpatented claims owned by it. The shaft is 850 feet deep 1½ compartment, and is now being enlarged to 2½ compartments, said enlargement having reached the 350 foot level at the present date. A winze extends down from the 850 level to the 1150 foot level. This shaft is so situated that drifts and cross-cut run from its lower levels will develop all of the claims embraced in this

survey as well as the patented claims upon which it is situated, and also will develop seven claims to the north west of the shaft and contiguous to the patented claims.

I consider the shaft a common improvement and of such a nature as to redound to the benefit of the following lode claims;

American Flag, Sur.No. 1355; Shelton, Sur.No.1355; Short Cut, Sur.No.1355; Champion, Sur.No. 1354; Link, Sur.No.1354; Fortune, Sur.No.1354; Eureka, Sur. <sup>No.</sup> 1173; Capital, Sur.No. 1359; First North Extension Capital Sur. No. 3237; Mid-Night Snap, Sur. No.3655, White House Sur. No.2369; Ninety Seven lode, Sur. No. 1631; New State, Luther Junior, Eagle, Monroe, The Penn, New Strike, Ellinor, Florence, Willetts, Lovekin, and Dyson of this survey; and M & S, M & S No.1, Copper lode, Copper Lode No.1, Copper Lode No.2, Copper lode No.3, Copper lode No.4 all unsurveyed, all contiguous claims owned by the claimant of this survey.

The old shaft is 4x9 and is being enlarged to 4x13 ft.

Total depth of enlarged shaft 350 ft.

Value	\$18000.00
-------	------------

To be accredited to each claim of this survey is an equal undivided 1/30th interest in the above mentioned improvement.

Value	\$600.00
