FEET

SURVEY NO. 4525 AMD.

This survey was made with a Swiss Kern theodolite, model DKM1, No. 77769, having horizontal and vertical circles 50 mm. in diam. The circles are graduated in degrees and twenty-minute increments. An optical micrometer, adjust able to the vertical and horizontal circles, permits the reading of angles direct to 10 seconds accuracy and estimating to one second accuracy. The instrument is equipped with a colored eye-shade to be attached for making direct observations on the sun. The instrument was in good condition at the time of the survey and all adjustments were in good order.

All azimuths in this record were determined by the method of horizontal-angles-right referred to the meridian established by direct observation on the sun. At 09:50 AM on Mar. 25, 1964 at cor. No. 4 of the Fire Agate lode, latitude 33° 39' 46.6" North, longitude 112° 03' 02.5" West, turning from a reference pt. about 800 ft. north clockwise to the sun in an east direction.

> True bearing of reference pt. No. 00 061 W.

The lines were measured with a Lufkin "Highway" steel tape, 300 ft. in length graduated every ft. for 299 ft. and the remaining ft. graduated to tenths and hundredths. One additional ft. at the "O" end of the tape is also graduated in tenths and hundredths. The tape was compared to a standard and found to be correct. All lines and connections of this survey were run by direct methods.

The magnetic declination observed at each corner of the survey gave a uniform value of 14° East.

SURVEY NO. 4525 AMD.

At cor. No. 1 of the Fire Agate lode, on line 1-2, Sur. No. 4429, Scarlet Wedge lode.

Set a galvanized iron post, 3/4 in. diam., 30 ins. long, in a 25 pound concrete and rock base, 18 ins. in the ground, with a brass cap, 2 ins. diam., firmly secured to the iron post, mkd. MS 4525 F A 1 X; from which

> The cor. of secs. 21, 22, 27 & 28, T.4N., R.3E., G. & S.R.B. & M., bears S. 0006 E., 148.84 ft.; an iron post, 2 ins. diam., 12 ins. above ground, firmly set, properly mkd. and witnessed as described in the official record.

A mound of stones constructed adjacent to the iron post.

Thence N. 51° 59' 40" E.
