General Description.

This township contains considerable
good farming land in the central
and southeastern portion.

The balance of the land is well
adapted for grazing purposes.

Township 11 North Range 28 East

Gila and Salt River Meridian
Chs.

The Township contains considerable cedar of stunted growth suitable only for fuel.

The Little Colorado River flows in a northerly direction through the central portion of the Township.

A small creek enters the Sp. in Sec. 36. flows Northerly, thence westerly and empties into the Little Colorado River in Sec 34.

There are three settlers in the Sp. engaged in stock raising and farming; one in the S.W. $\frac{1}{4}$ of Sec 36; One in the N.W. $\frac{1}{4}$ of Sec 14, and one in the S.W. $\frac{1}{4}$ of Sec 10.

As this Sp. will support a large settlement it should soon be occupied.

W. D. Foster
Deputy Surveyor.
