## General Description.

Township 15 N. Range 11 E.  
has an undulating rolling  
and broken surface, it is on  
the E. slope of the Mogollon  
M<sup>t</sup>. The land is of little value  
for agricultural purposes, for  
the most part.

Water is scarce during the  
dry portion of the year, but  
is found in occasional tanks.  
There is good pine timber  
throughout the township, it  
being the heaviest in the  
southern part of the township.  
there is also scattering Oak  
through the pine.

Final Oath of Deputy Surveyor. 71

I, *Dudore L. White*

United States Deputy Surveyor, do solemnly swear that I have, in my own proper person and with the necessary assistants, well, truly and faithfully executed the survey of

*The subdivision lines of Town  
Ship 15 N. Range 11 E. of the  
Gila and Salt River Meridian  
and Base lines*

under my contract with John Wasson, United States Surveyor General for Arizona, bearing date the *27<sup>th</sup>* day of

*August* 1880; that in making the said Survey I have used only such instruments as were approved by the said Surveyor-General, exercising due care in the preservation of adjustments of the same; that in using the solar compass I have at no time projected established lines depending for alignment upon the magnetic needle; that I have in all respects complied with the laws of the United States governing public-land.

72  
 surveys, the surveying manual, and such additional instructions as have been furnished me by and through the said Surveyor-General relating to the aforesaid Survey; that I have thoroughly acquainted my assistants in the field with the nature of their duties under the laws and instructions above mentioned; that to the best of my knowledge and belief all assistants so employed have likewise obeyed the aforesaid laws and instructions, and that the annexed field-notes are the original, true, and correct returns of the said Surveys.
