T15.N.R 28 E G & S R M

A description of instrument
and preliminary work
see Book No. 1

Survey commenced Dec. 1st 1852
Survey completed Dec. 4th 1852

Before proceeding to outside
this township we
made a change of 16 minutes
in the latitude base of
our Solar Compasses.

By adding 2 to the
reading previously
given and at noon
verified and corrected
same by observation on
the Sun. I also
further tested instrument
by reversing.
