PRELIMINARY OATHS OF ASSISTANTS.

We, J. M. Lockwood
 and A. G. Johnson
 do solemnly swear that we will well and faithfully execute the duties of
 chainmen; that we will level the chain upon even and uneven ground,
 and plumb the tally pins, either by sticking or dropping the same; that
 we will report the true distance to all notable objects, and the true length
 of all lines that we assist in measuring, to the best of our skill and ability,
 and in accordance with instructions given us, in the survey of the
Subdivisional lines of Sp. 20 N. R.
6 E.

Subdivisions of

Survey commenced Sept. 16th, 1902, and executed with a Buff and Berger engineer's transit with Seagmuller Solar attachment. The transit is No. 672, the horizal ^{int} limb having two double verniers, placed opposite to each other, and reading to 30" of arc.

The instrument was examined and approved by the Surveyor General of Arizona at Phoenix, Arizona.

At my camp which is near the cor. of secs. 34 and 35, on the D. Bay, I set off $2^{\circ}48'N.$ on the decl. arc; and at noon observed the sun on the meridian, the resulting

Sp. 20 N. R. 6 E.

latitude is $35^{\circ}05'N$.

At 3 p.m. ^{L.M.T.} I set off $2^{\circ}45'$
 N. on the decl. arc; $35^{\circ}05'N$
 on the lat arc, and determine
 a true meridian with the
 solar, and mark the line
 thus determined with a cross
 on a stone firmly set in the
 ground about 6.00 chs. N. of
 my station.

I allow my instrument
 to remain at this point, and
 at $7^{\text{h}}49^{\text{m}}$ P.M. L.M.T., I observe
 Polaris at Eastern elongation,
 according to instructions in
 the Manual.

I now lay off the
 azimuth of Polaris 129° to the
 N., The true meridian thus

Subdivisions & Retracements

determined falls 0.4 ins. west of the meridian established by the solar; the magnetic bearing of said true meridian is $N. 14^{\circ}05' W.$, which gives the magnetic decl. $14^{\circ}05' E.$

Sept. 16th 1902.

Sept. 17th: at 8 a.m., l.m.t., I lay off $2^{\circ}29' N.$ on the decl. arc; ~~$3^{\circ}05'$~~ ~~$3^{\circ}05'$~~ $3^{\circ}05'$ $N.$ on the lat. arc, and determine a true meridian with the solar, and mark the line thus determined, on the stone previously set by me 6.00 chs. $N.$ of my station.

This point agrees with the true meridian determined by the Polaris observation.

of Sp. 20 N. R. 6 E

The solar apparatus
by a.m. and p.m. observations
defines positions for meridians,
respectively 0.4 in. N. and
identical with the meridian
established by the Polaris
observation.

Therefore I conclude
that the adjustments of the
instrument are satisfactory.
as described by the Surveyor.

I begin at the cor. of
as described by the Surv. Genl.
secs. 35 and 36, on the S.
dry in lat. $35^{\circ}05' N.$ long.
 $111^{\circ}42' W.$

At 9 a.m. l.m.t. I set
off $2^{\circ}28' N.$ on the decl. arc,
 $35^{\circ}05' N.$ on the lat. arc,
and determine a true

General Description.

The portion of this town-
ship covered by this survey
is extremely rough and moun-
tainous.

It is generally covered
by a dense growth of pines
and oaks, and dense oak
brush.

Soil is very rocky,
unfit for cultivation.

There are no settlers;
neither is there any water.

Land is only fit for
grazing purposes.

W. Oscarlicor.
W. S. Deputy Surveyor.

FINAL OATH OF UNITED STATES DEPUTY SURVEYOR.

21

I, W Oscar Secor, United States

Deputy Surveyor, do solemnly swear that in pursuance of a contract
received from Hugh H. Price, United States

Surveyor-General for Arizona, bearing date of the 30

day of June, 1902, I have well, faithfully, and

truly, in my own proper person, and in strict conformity with the

instructions furnished by the United States Surveyor-General for Ari-

zona, the Manual of Surveying Instructions, and the laws of the United

States, surveyed all those parts or portions of the subdivisional

lines of T₂₀ N. R. 6 E.

BOOK 367

of the Gila and Salt River Base and Meridian, in the Territory of Ari-
zona, as are represented in the foregoing field notes as having been sur-
veyed by me and under my direction; and I do further solemnly swear
that all the corners of said survey have been established and perpetu-

22

ated in strict accordance with the Manual of Surveying Instructions, the special instructions of the United States Surveyor-General for Arizona, and in the specific manner described in the field notes, and that the foregoing are the TRUE field notes of such survey; and should any fraud be detected I will suffer the penalty of perjury, under the provisions of an act of Congress approved August 8, 1846.

W. Searles

U. S. Deputy Surveyor.

office of the U. S. Sur-General.

Phoenix, Arizona.

The foregoing field notes of the survey
of the Retractions & subdivisional
lines of T_p-20 N. R_y 6 E
of the Gila and Salt River Base and Mer-
dian, in the Territory of Arizona,
executed by W. Oscar Secor
U. S. Dep. Surveyor, under his contract
No. 102 dated 6/30 1904 having
been critically examined, and the
necessary corrections and explanations
made, the said field notes, and the
surveys they describe, are hereby approved.

Frank S. Ingalls
U. S. Surveyor General.
