Scattering giant cactus.

Land, covered with dense
undergrowth 65chs.

June 6. 1895

General Description

This township is level
and rolling; the soil
is mostly loam, capable
of producing abundant
crops, with an artificial
irrigation, a great many
portions of this township

Subdivision of

are covered with an abundant growth of rich and nutritious grasses.

Scattering, palo verde and mesquite timber is found all over this township, besides there is considerable greasewood undergrowth and different kinds of caeti.

Water is to be found in Bakers Reservoir in Sec. 20, during the rainy season.

The Southern Pacific Railroad runs through this township, diagonally;

T. 15 S. R. 15 E.

Edmond Station is
situated in sec. 25.

There are no settlers in
this township.

Philip Contzen
U. S. Deputy Surveyor

No. 833

BOOK 833 194

U. S. Surveyor-General's Office.

Tucson, A. T. November 28, 1896.

The foregoing field notes of the Surveys of the Re-survey 3rd Standard Parallel South through Range 15 East, and West and North Boundaries of Township 15 South, Range 15 East, and Survey of the Subdivision Township 15 South, Range 15 East, Gila and Salt River Meridian, in Arizona, executed by-----

-----Philip Contzen-----

U.S. Deputy Surveyor, under his Contract No. 36, dated February 5, 1895, having been critically examined, the necessary corrections and explanations made, the said field notes and the surveys they describe are hereby approved.

George J. Roskrug
U. S. Surveyor-General,
for the Territory of Arizona.
