✓ Preliminary Oaths of Assistants.

We, *J. O. Hays, Charles Clark
Martin Ramsey, & Frank Davis*
do solemnly swear that we will well and faithfully
execute the duties of Chain Carriers; that we will
level the chain upon even and uneven ground, and
plumb the tally pins, either by sticking or dropping
the same; that we will report the true distance to
all notable objects, and the true lengths of all lines
that we assist in measuring, to the best of our skill
and ability, and in accordance with instructions
given us, in the survey of the *exterior*
and subdivisional
lines of Tps. 21 S. R. 7 E
and fract. Tps 24 S. R.
13 and 14 E
of the Gila and Salt River Base and Meridian in
the Territory of Arizona.

J. O. Hays Chainman.
Charles Clark Chainman.
Martin Ramsey Chainman.
Frank Davis Chainman.

Subscribed and sworn before me, this *6th*
day of *October* 189*9*
M. W. Purcell
Notary Public.
my Com 24 2/27/1901

[SEAL.]

We, *Charles Bent and*
Manuel Salazar

do solemnly swear that we will well and truly per-
form the duties of *flagman*
and axeman

in the establishment of corners and other duties,
according to instructions given us, and to the best
of our skill and ability, in the survey of the *exterior*

and subdivisional lines
of *T. 21 S. R. 7 E* and
frac. Tps 24 S. Rs. 13
and 14 E.

of the Gila and Salt River Base and Meridian, in
the Territory of Arizona.

Charles Bent, flagman
Manuel Salazar, axeman

Subscribed and sworn to before me this *6th*

day of *October* 189*9*

J. W. Purcell
Notary Public.

my Com 54 3/27/1901

Subdivision of T. 21.0.

Survey commenced Oct. 13th
1899, and executed with
a Young & Sons light
mountain transit No. 5609
with Smiths solar attachment

The horizontal limb is
provided with two double
verniers placed opposite to
each other, reading to single
minutes of arc which is also
the least count of the verniers
of the latitude & declination
arcs.

The instrument was examined,
tested on the True meridian
at Tucson, A.Z. Oct 6th 1899.
found correct and was
approved by the Surveyor
General. further I
examined and tested the

R. 7. E. S. 4. R. Mer.

instrument this morning at 8 a.m. l.t. on the Meridian established by me by Polaris & Solar observations on Oct 8th & 9th 1899. at Cor. to Townships No 21 and 22 S. Ranges No 7 and 8. East. as heretofore described, and found the same to be correct.

Chains From the Cor. to Tps. 21 & 22 S. Rs. 7. & 8. E.
 I run North on the East bdy. of Sec. 36. and at
 40.02 intersect the $\frac{1}{4}$ Sec. Cor. and at
 80.03 I intersect the Cor. of Sec's 25, 30, 31 and 36. Therefore the line bears North

Subdivision of T. 21. ©
chains.

Therefore, the bearings are as stated by the surveyor general, and my chaining practically agrees with the field notes of the original survey.

I commence at the Cor. of secs. 1, 2, 35 and 36, on the S. bdy. of the Tp. which is a granite stone 5 x 8 x 3 ins. above ground, firmly set, as heretofore described.

Thence I run

N 0° 01' W, bet. secs. 35 and 36, ^{descend}
over mountainous land;

- | | |
|-------|---------------------------------------|
| 2.00 | Gulch, 10 lks. wide, bears E., ascend |
