Field Notes  
of the Survey of  
Section 19  
of  
Township No. 15 North, Range  
No. 4 West  
of the  
Gila and Salt River Base  
and Meridian  
in the  
Territory of Arizona  
as surveyed by  
Philip Coulter  
U.S. Deputy Surveyor  
Under his Contract No  
Dated  
Survey commenced June 14<sup>th</sup> 1897  
Survey completed June 17<sup>th</sup> 1897.

## Section 19 T. 15 N. R. 4 W.

Note: Owing to the fact that Joshua Draper, a settler, who has been living on his land for 15 years, and who made application for the survey of T. 15 N. R. 5 W., is, as I find after survey of said T. 15 N. R. 5 W., outside of said township, on unsurveyed land in T. 15 N. R. 4 W., which township is only partly surveyed, and Sec. 19 being the only sec. of said township that has good spring water and agricultural land, and it being inconvenient for the General Land Office to issue a special contract for the survey of one section, and in justice to said settler, who is anxious to perfect his title, I surveyed said Sec. 19 of T. 15 N. R. 4 W., leaving the survey to

a favorable action of the Surveyor  
 General and the Commissioner  
 of the General Land Office.

June 14<sup>th</sup> 1897: At 7<sup>h</sup> 45<sup>m</sup> A.M. l. m.  
 t., I set off.  $34^{\circ}37'$  on the lat. arc;  
 $23^{\circ}18'N$ , on the decl. arc; and de-  
 termine a true meridian with  
 the solar, at the true cor. point  
 to Secs 19. 24. 25 and 30 T. 15  
 N. R. 5 W., already described by me.

The magnetic bearing of the true  
 meridian at 7<sup>h</sup> 45<sup>m</sup> a. m. is  
 $N. 13^{\circ}48'W.$ , the angle thus reduced  
 by the table of "Manual" page 100,  
 gives the mean magnetic decli-  
 nation  $13^{\circ}45'E.$

From true cor. <sup>point</sup> of Secs 19. 24. 25.
