General Description

BOOK 1177

This township lies in the Gila valley, the river running through the N. W. portion of it. There is a large amount of rich bottom land in the northern and northwestern portions of the township. Water for irrigating can be obtained from the river in abundance.

There are cottonwood, willow and mesquite trees and brush on the bottom lands, and scattering pale verde and pale ficaria trees and brush on the higher lands, to the south. On the latter land grows geyste grass. In section 8 is situated Stanwix Station, on the Southern Pacific Mail route.
