The true point of cor. to secs. 35 & 36, on S. boundary of the Tps. fall
 ing in the Gila river, and said corner not having been
 set, I begin at the fractional post on the N. end of
 the line between secs. 1 and 36, on the S. boundary of the
 Tps. and which post stands on the right bank of the river,
 and is 71.00 chs. N. of cor. to Tps. 7 and S. S. Rps. 15 & 16 N.
 From this post I run North

General Description.

Township 7 S. Range 16 W,
borders on the Gila river.

The Southern half of the
township is rich agricultural
land which can be easily
irrigated from the abundant
water in the Gila.

The Northern half contains
much good soil but covered
with stones. In this section
is found much grass.

There is considerable mes-
quite timber in places and
some scattering Palo verde
throughout the township.

There is but little cultura-
tion of the soil as yet, but as
in the other townships of these sur-
veys I observe numerous un-
marked stakes marking claims
awaiting the survey.
