PRELIMINARY OATHS OF ASSISTANTS.

WE, W. W. Oliver

and E. O. Hemenway

do solemnly swear that we will well and faithfully execute the duties of chainmen; that we will level the chain over even and uneven ground, and plumb the tally pins, either by sticking or dropping the same; that we will report the true distances to all notable objects, and the true lengths of all lines that we assist in measuring, to the best of our skill and ability, and in accordance with instructions given us, in the survey of

The Subdivision lines of N.Y. & N.H. R.R. 10 E.

C. C. C. Oliver, Chainman.

E. O. Hemenway, Chainman.

Subscribed and sworn to before me this 1
day of December 1904, 189

My commission expires

May 17, 1908

J. J. Fisher
Notary Public

WE, _____ and _____

do solemnly swear that we will well and truly perform the duties of moundmen in the establishment of corners, according to the instructions given us, to the best of our skill and ability, in the survey of

, Moundman.

, Moundman.

Subscribed and sworn to before me this 1
day of December 1904, 189

WE, A. G. Snyder and W. H. Port

do solemnly swear that we will well and truly perform the duties of axmen in the establishment of corners and other duties, according to instructions given us, to the best of our skill and ability, in the survey of

The Subdivision lines of N.Y. & N.H. R.R. 10 E.

A. G. Snyder, Axman.
W. H. Port, Axman.

Subscribed and sworn to before me this 1
day of December 1904, 189

Notary Public

Chains

Survey commenced December 1st, 1904, and executed with a W and L.E. Gurley Light Mountain Transit with solar attachment. Transit not numbered. The horizontal limb is provided with two double verniers placed opposite to each other, reading to single minutes of arc, which is also the least count of the verniers of the lat. and decl. arcs. The instrument was examined, tested on the true meridian at Phoenix, found correct, and was approved by the Surveyor General for Arizona.

I examine the attachments of the transit and find them correct. Then, to test the solar apparatus by comparing its indications resulting from solar observations made during A.M. and P.M. hours, with the true meridian determined by observations on Polaris, I proceed as follows:

At the ^{w.c.} cor. of Secs. 35 and 36 on the S. bdy. of the Tp. lat. $33^{\circ} 59' 14''$ N. long. $111^{\circ} 15' 52''$ W. at 4 hrs. 0 min. P.M.l.m.t., I set off $33^{\circ} 59'$ N. on the lat. arc $21^{\circ} 48'$ S. on the decl. arc and determine a meridian with a solar and mark a point thereof, on a stone set firmly in the ground 5 chs. N. of the cor.

December 1, 1904.

December 2.

At 2 hrs. 35.17 min. A.M. l.m.t., by my watch which has correct l.m.t., I observe Polaris at western elongation in accordance with Manual of Instructions, and mark a point in the line thus determined, on a plug driven in the ground 5 chs. N. of my station.

At 7 hrs. 0' A.M. l.m.t., I lay off the azimuth of Polaris $1^{\circ} 27'$ to the E. and mark the meridian thus determined, by cutting a small groove in the stone set Dec. 1st, on which the true meridian coincides with the meridian established with the solar.

Subdivision of Tp. 8 N R 10 E.

Chains

At 8 hrs. 0' A.M. I set off $33^{\circ} 59' N.$ on the lat. arc $21^{\circ} 53-1/2' S.$ on the decl. arc and mark a point in the meridian determined with the solar, by a cross (+) on a stone already set 5 chs. N. of my station. This mark coincides with the meridian established by the Polaris observation. The solar apparatus by P.M. and A.M. observations, defines positions for meridian which coincides with the meridian established by the Polaris observation; therefore I conclude that the adjustments of the instrument are satisfactory. The mag. brg. of the true meridian at 8 hrs. 0 min. A.M. is N. $14^{\circ} W.$ The angle thus determined gives the mean mag. decl. $14^{\circ} E.$

From the witness cor. of Secs. 1, 2, 35 and 36 on the S. bdy. of the Tp., I run N. $0^{\circ} 1' W.$ along bed of Tonto Creek

1.00 I run E. 336 lks. to true line and set a Schist stone 24 x 8 x 5 ins., ^{18 in. in the ground} for witness cor. Secs. 1, 2, 35 and 36, marked W.C. on N.E. and 1 groove on E. and 5 grooves on W. face; from which

An oak 3 ins. diam. brs. N. $59-1/4^{\circ} E.$ 96 lks. dist. marked W.C. T 8 N R 10 E S 36 B T .

A hackberry brs. S. $88^{\circ} W.$ 134 lks. dist. marked W.C. T 8 N R 10 E S 2 B T ., and raised a mound of stone 2 ft. base, 1-1/2 ft. high W. of cor. Pits impracticable.

No other trees available.

Thence I run

N. $0^{\circ} 1' W.$ bet. Secs. 35 and 36, over creek bottom.

2.85 Cross Tonto Creek, running stream 70 lks. wide, course S.W., and ascend.

30.00 Top of ridge, brs. E. and W. and descend.

39.00 Set a granite stone 20 x 14 x 8 ins. 15 ins. in

Subdivision of Tp. 8 N R 10 E.

Chains	<p>the ground for 1/4 sec. cor. marked 1/4 on W. face. And raise a mound of stone 2 ft. base 1-1/2 ft. high W. of cor. Pits impracticable.</p> <p>Thence the line runs N. along over the break of Tonto Creek Canyon, too rough to chain accurately. Therefore I offset 5 chs. west, thence N.^{0° 1' W} 40 chs. thence E. 5 chs. to true point for cor. of Secs. 25, 26, 35 and 36, which falls in bed of Tonto Creek; running stream 30 lks. wide, course S. As creek runs due N. and S. here, it is impossible to set a witness point N. or S. of true point for cor.</p> <p>I run E. 50 lks. from true point for cor. and mark a cross (+) on a schist rock in place, 30 x 10 x 8 ft. above ground for witness cor. to cor. of Secs. 25, 26, 35 and 36, with 1 groove S. and 1 groove and W.C. E. of cross., and raise a mound of stone 2 ft. base 1-1/2 ft. high W. of cor. Pits impracticable.</p> <p>Land, rough, broken mountains.</p> <p>Soil, rocky, 4th rate;</p> <p>No timber;</p> <p>Mountainous land, 80 chs.</p> <hr/> <p>East on a random line bet. Secs. 25 and 36, from true point for cor.</p> <p>Set temp .1/4 sec. cor.</p> <p>Intersect E. bdy. of Tp. 19 lks. N. of the cor. of Secs. 25, 30, 31 and 36.</p> <p>Thence I run N.^{89° 52' W.} on a true line bet. Secs. 25 and 36. over rough top of mountains.</p> <p>Cross dry creek 35 lks. wide, course S.W., and ascend.</p> <p>Top of rocky ridge, brs. N.E. and S.W. and over rolling tops of mountains.</p> <p>Cross gully 10 lks. wide, course N.W.</p> <p>Cross gully 15 lks. wide, course S.W. and ascend.</p>

Chains

December 3d.

At 8 hrs. 0 min. AM. l.m.t. I set off $34^{\circ} 1' N.$
on the lat. arc $22^{\circ} 2-1/2' S.$ on the decl. arc,
and determine a meridian with the solar at the cor
of Secs. 23, 24, 25 and 26.

Thence I run

$N 0^{\circ} 1' W.$ bet. Secs. 23 and 24, over rough
mountains, ascending along S. slope.

40.00 Point for $1/4$ sec. cor. falls on steep, sliding
South slope of mountain, where it is impossible to
establish it in a permanent manner; therefore I con-
tinue my line, and at

50.49 Set a sand stone $20 \times 12 \times 8$ ins. 15 ins. in the
ground for a witness cor. to $1/4$ sec. cor., marked
W.C. $1/4$ on W. face, and raise a mound of stone 2
ft. base $1-1/2$ ft. high W. of cor. Pits impracti-
cable.

Thence over top of mountains

Cross road brs. N.E. and S.W.

Descend over rolling mountains.

Cross wash 10 lks. wide, course N.E.

Set a sand stone $20 \times 12 \times 4$ ins. ^{set 15 ins in ground} for cor. of
Secs. 13, 14, 23 and 24, marked with 3 notches on S
and 1 notch on E. edges; from which

A cedar 6 ins. diam. brs. N. $77-1/2^{\circ}$ E. 165 lks.
dist. marked T. 8 N R 10 E S 13 B T.

A cedar 8 ins. diam. brs. S 52° E. 78 lks. dist
marked T 8 N R 10 E S 24 B T.

A cedar 12 ins. diam. brs. N. $17-1/2^{\circ}$ W. 63 lks.
dist. marked T 8 N R 10 E S 14 B T.

No other tree available.

Raised a mound of stone 2 ft. base $1-1/2$ ft.
high W. of cor. Pits impracticable.

Land mountainous;

Soil, rocky, 4th rate;

Subdivision of Tp 8 N R 10 E.

Chains

No timber;

Mountainous land, 80 chs.

NOTE: Clouds prevented an observation for lat.

South $89^{\circ} 42'$ E. on a random line bet. Secs.

FINAL OATH OF UNITED STATES DEPUTY SURVEYOR.

I, John J. Fisher, United States Deputy Surveyor, do solemnly swear that, in pursuance of a contract received from Frank S. Ingalls, United States Surveyor General for Arizona, bearing date of the 17 day of June 1904, I have well, faithfully, and truly, in my own proper person, and in strict conformity with the instructions furnished by the United States Surveyor General for Arizona, the Manual of Surveying Instructions, and the laws of the United States, surveyed all those parts or portions of the Subdivision lines of P. & N. Rg. 10 G.

Salt River meridian, in the Territory of Arizona, which are represented in the foregoing field notes as having been surveyed by me, and under my direction; and I do further solemnly swear that all the corners of said survey have been established and perpetuated in strict accordance with the Manual of Surveying Instructions, and the special written instructions of the United States Surveyor General for Arizona, and in the specific manner described in the field notes, and that the foregoing are the original field notes of such survey; and should any fraud be detected, I will suffer the penalty of perjury under the provisions of an Act of Congress approved August 8, 1846.

John J. Fisher
United States Deputy Surveyor.
