day of _____, 190 _____

Subdivision of Township 19 North Range 19 West.

Chains.

Survey commenced June 6, 1910, and was executed with a Young and Sons' Light Mountain Transit No. 7520, with a Smith Solar Attachment. The horizontal limb is provided with two double verniers placed opposite to each other, reading to single minutes of arc, which is also the least count of the latitude and decl. arc verniers.

The instrument was examined, tested on the true meridian at Phoenix, Arizona, found correct, and approved by the Surveyor General for Arizona June 25, 1904. I examine the adjustments of the transit, and correct the level and collimation errors; then, test the a.m. and p.m. solar meridians by comparing them with an observation on Polaris, as follows:

June 6, 1910; at the cor. of secs., 1, 2, 35 and 36, on the south boundary of T.19 N R 19 W, previously established and described by me, I set off $34^{\circ}59'N.$ on the lat. arc; $22^{\circ}37\frac{1}{2}'N.$ on the decl. arc, and at 9h.30m. a.m., 1. m.t., I determine a meridian with the solar, and mark the line thus secured by a tack driven in a stake set 5 chains N.of my station.

June 6, 1910.

June 7, 1910. At 2h. 28m. a.m., 1.m.t., I observe Polaris at eastern elongation in accordance with instructions in the Manual, and mark the line thus determined by a tack driven in a stake set about 5 chains N.of my station.

At 5h.00m., a.m., 1.m.t., I set off $1^{\circ}26'W.$, and find that the true meridian thus determined intersects the tack set yesterday afternoon by solar observation.

At 7h.00m.a.m., 1.m.t., I set off $34^{\circ}59'N.$ on the lat.arc; $22^{\circ}44'N.$ on the decl. arc, and determine a meridian with the solar. This meridian falls 0.1 inch E.of the true meridian. From these results I conclude the solar is in satisfactory adjustment.

Thence I run,

$N.6^{\circ}04'W.$, on a true line, bet. secs. 35 and 36.

Descend over dense undergrowth of greasewood, cactus, and catclaw.

Sharply rolling land.

2350 Wash, 20 lks.wide, course NE.

40.00 Set a malpais stone 8x10x14 ins., 10 ins. in the ground for the $\frac{1}{4}$ sec.cor., marked $\frac{1}{4}$ on the W.face, and raise a mound of stones 3 ft.base, $1\frac{1}{2}$ ft. high, W.of cor. Pits impracticable.

45.70 Wash, 20 lks.wide, course N.70°E.

48.50 Wash, 30 lks.wide, course S.75° E.

61.00 Draw, course SE.

80.00 Set a malpais stone 8x12x15 ins., 10 ins. in the ground for the cor.of secs. 28, 26, 35 and 36, marked with 1 notch on the S. and 1 notch on the E.edges; and raise a mound of stones 3 ft.base, $1\frac{1}{2}$ ft. high, W.of cor. Pits impracticable.

Land, sharply rolling.

Soil, 4th and 3rd rate, stony.

Dense undergrowth of greasewood, cactus and catclaw.

No timber or grass.

Rolling land, covered with dense undergrowth and exceptionally difficult to survey, 80.00 chs.

East, on a random line, bet. secs. 25 and 36.

40.00 Set temp. $\frac{1}{4}$ sec.cor.

80.04 Intersect the Fifth Guide Meridian West, at a point 7 lks. S.of the cor. of secs. 28, 30, 31 and 36, a lava stone 7 ins. above ground, marked and witnessed as described by the Surveyor General.

Thence I run,

$8.89^{\circ}57'W.$, on a true line, bet. secs. 25 and 36.

Chains.

- Over rolling land, covered with dense undergrowth of greasewood, cactus and catclaw.
- 38.80 Draw, course SE.
- 40.02 Set a malpais stone 6x10x18 ins., 12 ins. in the ground for the $\frac{1}{2}$ sec.cor., marked $\frac{1}{2}$ on the N.face, and raise a mound of stones 3 ft. base, 1 $\frac{1}{2}$ ft. high, N.of cor. Pits impracticable.
- 66.50 Wash, 40 lks.wide, course SE.
- 75.00 Gulch, course S.70° E.
- 80.04 The cor.of secs. 25, 26, 35 and 36, hereinbefore described. Land, rolling. Soil, 3rd rate. Dense undergrowth of greasewood, cactus and catclaw. No timber or grass. Rolling land, covered with dense undergrowth, 80.04 chs.
-
- At noon, at the above cor., I set off 35° N. on the lat. arc; 22°44' N on the decl.arc, and observe the sun on the meridian. The latitude reading remains unchanged. Thence I run, N.0°07' W., bet. secs.25 and 26.
- Over rolling land, covered with dense undergrowth of greasewood, cactus and catclaw.
- Descending.
- 14.00 Wash, 40 lks.wide, course SE.
- 40.00 Set a malpais stone 6x8x16 ins., 11 ins. in the ground for the $\frac{1}{2}$ sec.cor., marked $\frac{1}{2}$ on the W.face, and raise a mound of stones 3 ft. base, 1 $\frac{1}{2}$ ft. high, W.of cor. Pits impracticable.
- 74.00 Wash, 40 lks.wide, course SE.
- 80.00 Set a malpais stone 6x6x18 ins., 12 ins. in the ground for the cor.of secs. 23, 24, 25 and 26, marked with 1 notch on the E. and 2 notches on the S.edges; and raise a mound of stones 3 ft. base, 1 $\frac{1}{2}$ ft. high, W.of cor. Pits impracticable.
- Land, rolling, covered with dense undergrowth of greasewood, cactus and catclaw.
- Soil, 3rd class, rocky, covered with malpais boulders.
- No timber or grass.
- Rolling land, covered with dense undergrowth and malpais boulders, and exceptionally difficult to survey, 80.00 chains.
-
- Thence I run, N.89°57'E., on a random line, bet. secs.24 and 25.
- Set my temp. $\frac{1}{2}$ sec.cor.
- 40.00 Intersect the Fifth Guide Meridian West at a point 16 lks. S.of the cor.of secs.19, 24, 25 and 30, a lavastone 5 ins. above ground, marked and witnessed as described by the Surveyor General.
- Thence I run, S.89°50'W., on a true line, bet. secs.24 and 25.
- Over rolling land, covered with dense undergrowth of greasewood, cactus, and catclaw.
- 39.96 $\frac{1}{2}$ Set a malpais stone 8x9x15 ins., 10 ins. in the ground for the $\frac{1}{2}$ sec.cor., marked $\frac{1}{2}$ on the N.face, and raise a mound of stones 3 ft. base, 1 $\frac{1}{2}$ ft. high, N.of cor. Pits impracticable.
- Ascend.
- 60.00 Descend.
- 70.50 Wash, 60 lks.wide, course SE.
- 79.93 The cor.of secs.23, 24, 25 and 26, hereinbefore described. Land rolling. Soil, 3rd rate, stony. Dense undergrowth of greasewood, cactus and catclaw. No timber or grass.
- Rolling land covered with dense undergrowth and difficult to survey, 79.93 chs.
-

Subdivision of Township 19 North, Range 12 West.

3.

Chains.

- N. Of C7¹ W., bet. secs. 23 and 24.
Over rolling land, covered with yucca plant, greasewood, and cactus; dense undergrowth.
Descend.
8.10 Wash, 40 lks.wide, course SE.; ascend.
40.00 Set a malpais stone 6x8x18 ins., 12 ins. in the ground for the $\frac{1}{4}$ sec.cor., marked $\frac{1}{4}$ on the W.face, and raise a mound of stones 3 ft.base, 1 $\frac{1}{2}$ ft. high,W.of cor.
Pits impracticable.
80.00 Set a malpais stone 6x10x15 ins., 10 ins. in the ground for the cor.of secs.13,14,23 and 24, marked with 1 notch on the E. and 3 notches on the S.edges, and raise a mound of stones 3 ft.base, 1 $\frac{1}{2}$ ft. high,W.of cor. Pits impracticable.
Land, rolling.
Soil, 3rd rate, stony.
Dense undergrowth of yucca, greasewood, cactus, and some catclaw.
No grass. No trees.
Rolling land, covered with dense undergrowth, and difficult to survey, 80.00 chs.
-

- Thence I run,
N.89°50'E., on a random line, bet. secs.13 and 24.
40.00 Set temp, $\frac{1}{4}$ sec.cor.
79.96 Intersect the Fifth Guide Meridian West at a point 5 lks. N.of cor.of secs. 13,18,19 and 24, a lava stone 5ins. above ground, marked and witnessed as described by the Surveyor General.
Thence I run,
S.89°52'W., on a true line, bet. secs.13 and 24.
37.00 Draw, course SE.; ascend.
39.98 Set a malpais stone 7x9x16 ins., 11 ins. in the ground for the $\frac{1}{4}$ sec.cor., marked $\frac{1}{4}$ on the N.face, and raise a mound of stones 3 ft.base, 1 $\frac{1}{2}$ ft. high,N.of cor.
Pits impracticable.
63.00 Ridge, brs.NW.and SW.; descend.
68.25 Wash, 60 lks.wide, course SE.; ascend.
79.96 The cor.of secs.13,14,23 and 24 hereinbefore described.
Land, sharply rolling.
Soil, 3rd class.
Dense undergrowth of yucca, cactus and greasewood.
No timber or grass.
Sharply rolling land, covered with dense undergrowth and difficult to survey, 79.96 chs.

June 7, 1910.

-
- June 8, 1910.
N.0°10'W., bet. secs. 14 and 13.
Over rolling land cut by many washes, and covered with dense undergrowth of yucca, greasewood, and cactus.
3.20 Wash, 50 lks.wide, course SE.; ascend.
10.00 Summit of ridge, brs. SE.and NW.; descend.
15.00 Wash, 30 lks.wide, course S.70°E.
21.00 Wash, 30 lks.wide, course S.70°E.
22.50 Ascend.
30.00 Summit ridge, brs.SE.and NW.; descend.
40.00 Set a malpais stone 6x8x16 ins., 11 ins. in the ground for the $\frac{1}{4}$ sec.cor., marked $\frac{1}{4}$ on the W.face, and raise a mound of stones 3 ft.base, 1 $\frac{1}{2}$ ft. high,W.of cor.
Pits impracticable.
80.00 Set a malpais stone 5x8x18 ins., 12 ins. in the ground, for the cor.of secs.11,12,13 and 14, marked with 1 notch on the E. and 4 notches on the S.edges, and raise a mound of stones 3 ft.base, 1 $\frac{1}{2}$ ft. high,W.of cor. Pits impracticable.
Land, rolling and cut by washes.
Soil, 3rd rate, sandy.

4. Subdivision of Tonopah 19 North Range 19 West.

Chains.

Dense undergrowth of yucca, greasewood and cactus.
No timber or grass.
Rolling land cut by washes, and covered with dense undergrowth, and exceptionally difficult to survey, 80.00 chains.

Thence I run,
N.89°52' E., on random line, bet. secs.12 and 13.

40.00 Set a temp. $\frac{1}{4}$ sec.cor.
80.00 Intersect the Fifth Guide Meridian West, 32 lks.N. of cor. of secs. 7,12,13 and 18, recently reestablished & described by me.

Thence I run,
N.89°54'W. on a true line, bet. secs.12 and 13.
Rolling land, covered with dense undergrowth of greasewood, cactus and yucca.

40.00 Set a malpais stone 7x8x15 ins., 10 ins. in the ground for the $\frac{1}{4}$ sec.cor., marked $\frac{1}{4}$ on the N.face, and raise a mound of stones 3 ft.base, 1 $\frac{1}{2}$ ft. high, W.of cor. Pits impracticable.
80.00 The cor.of secs.11,12,13 and 14, hereinbefore described.
Land, rolling, covered with dense undergrowth of greasewood, cactus and yucca.
Soil, 3rd rate, stony.
No timber or grass.
Rolling land, covered with dense undergrowth and difficult to survey, 80.00 chains.

At 9h.30m., a.m., l.m.t., I set off 35° 02' N. on the lat.arc; 22°49'N. on the dec.arc, and determine a meridian with the solar at the cor.of secs.11,12,13 and 14.

Thence I run,
N.0°14'W., bet. secs.11 and 12.
Descend over rolling land, covered with dense undergrowth of greasewood, catclaw, cactus, and some yucca.

2.55 Electric Power Transmission line from Kingman to Gold Roads brs. NE and SW.
29.80 Wagon road from Kingman to Gold Roads, brs. N.60°E. and S.60°W.
34.80 Wash, 40 lks.wide, course E.
40.00 Set a malpais stone 8x8x14 ins., 10 ins. in the ground for the $\frac{1}{4}$ sec.cor., bet.secs.11 and 12, marked $\frac{1}{4}$ on the W.face, and raise a mound of stones 3 ft.base, 1 $\frac{1}{2}$ ft. high, W.of cor. Pits impracticable.
48.70 Draw, course S.70°E.
56.30 Draw, course E.

68.00 Wash, 50 lks.wide, course SE.
80.00 Set a malpais stone 6x8x14 ins., 10 ins. in the ground for the cor.of secs.1,2,11 and 12, marked with 1 notch on the E.edg and 5 notches on the S.edges, and raise a mound of stones 3 ft.base, 1 $\frac{1}{2}$ ft. high, W.of cor. Pits impracticable.
Land, rolling.
Soil, 3rd rate, stony.
Dense undergrowth of greasewood, cactus, and catclaw.
No timber or grass.
Rolling land, covered with dense undergrowth, and exceptionally difficult to survey, 80.00 chs.

Thence I run,
S.89° 54' E., on a random line, bet. secs.1, and 12.

40.00 Intersect the Fifth Guide Meridian West at a point 10 lks. S.of cor.of secs. 1,6,7 and 12, recently reestablished and described by me. Thence I run,

Subdivision of Township 19 North Range 19 West.

5.

Chains.

	N. 89°58'W., on a true line, bet. secs. 1 and 12.... Over rolling land, covered with dense undergrowth of greasewood, cactus, and catclaw.
40.00	Set a malpais stone 8x8x16 ins., 11 ins. in the ground for the $\frac{1}{4}$ sec.cor., marked $\frac{1}{4}$ on the N.face, and raise a mound of stones 3 ft. base, 1 $\frac{1}{2}$ ft. high, N.of cor. Pits impracticable.
66.00	Wash, 40 lks.wide, course SE.
80.00	The cor.of secs. 1,2,11 and 12, hereinbefore described. Land, rolling. Soil, 3rd rate, stony. Dense undergrowth of greasewood, cactus, catclaw. No timber or grass. Rolling land covered with dense undergrowth and excep- tionally difficult to survey, 80.00 chains.

40.00	Thence I run, N. 0°10' W., on a random line, bet. secs. 1 and 2. Set temp. $\frac{1}{4}$ sec.cor.
81.17	Intersect the N.bdy.of the Tp. at the cor.of secs 1,2,35 and 36, recently established and described by me. Thence I run, S. 0°10'E., on a true line, bet. secs. 1 and 2. Over sharply rolling ground, covered with dense under- growth of greasewood, yucca, cactus and catclaw. Wash, 15 lks.wide, course SE.
3.80	Draw, course E.
23.10	Wash, 15 lks.wide, course E.
31.60	Set a tufa stone 8x10x14, ins. 10 ins. in the ground for the $\frac{1}{4}$ sec.cor., marked $\frac{1}{4}$ on the W.face, and raise a mound of stones 3 ft. base, 1 $\frac{1}{2}$ ft. high, W.of cor. Pits im- practicable.
41.17	Draw, course E.
57.10	Wash, 20 lks.wide, course E.
65.10	The cor.of secs. 1,2,11 and 12, hereinbefore described.
81.17	Land rolling sharply. Soil, 3rd rate, stony. Dense undergrowth of greasewood, cactus, catclaw. No timber or grass. Sharply rolling land, covered with dense undergrowth, and exceptionally difficult to survey, 81.17 chains.

	At noon, the sun obscured with a cloud, and a latitude observation is impracticable.
	I commence at the cor.of secs. 2,3,34 and 35 on the S. bdy.of the township recently established and described by me, and run
	N. 0°04' W., bet. secs. 34 and 35.
	Over extremely mountainous land, covered with a scatter- ing undergrowth of greasewood and cactus.
11.00	Ascend.
22.00	Rocky ridge, brs.NE.and SW. Descend.
24.20	Rocky gulch, course N, 70°E.; ascend.
28.00	Descend.
33.00	Draw, 60 lks.wide, course NE. Ascend bluff.
34.50	Top; descend.
40.00	Gulch, course SE. Ascend over large boulders. Set a malpais 8x10x18 ins., 12 ins. in the ground for the $\frac{1}{4}$ sec.cor., marked $\frac{1}{4}$ on the W.face, and raise a mound of stones 3 ft. base, 1 $\frac{1}{2}$ ft. high, W.of cor. Pits impracticable.
55.50	Ascend steep rocky slope.
57.00	Ridge brs.E.; descend abruptly.
60.00	Gulch, course E. Ascend.
65.00	Ridge brs.E.and W.; descend.
67.00	Rocky gulch, course SE. Ascend abruptly.
	Ridge, brs.E.and W.; descend.

6. Subdivision of Township 19 North, Range 19 West.

Chains.	
73.00	Gulch, course NE. Ascend abruptly.
75.00	Summit of ridge, brs E. and W.; Descend abruptly.
80.00	Tufa rock in place 4 ft. x 5ft x 5ft. above ground, marked cross (X) at the exact cor. point for cor. of secs. 26, 27, 34 and 35, marked with 1 notch on S. and 2 notches on the E. side of the cross, and raise a mound of stones 3 ft. base, 1 $\frac{1}{2}$ ft. high, W. of cor. Pits impracticable. Land, extremely mountainous, and covered with large boulders.
	Soil, 4th rate. Scattering undergrowth of greasewood, cactus, and cat's claw.
	No timber or grass.
	Mountainous land, covered with boulders and exceptionally difficult to survey, 80.00 chains.
<hr/>	
	Thence I run,
	East, on a random line, bet. secs. 26 and 35.
40.00	Set temp. $\frac{1}{4}$ sec.cor.
80.00	Intersect the N. and S. line at the cor. of secs. 25, 26, 35 and 36, hereinbefore described.
	Thence I run,
	West, on a true line, between secs. 26 and 35.
	Over mountainous land, covered with cactus, greasewood, and cat's claw.
31.50	Wash 20 lks. wide, course SE.; ascend.
40.00	Set a malpais stone 8x10x16 ins., 11 ins. in the ground for the $\frac{1}{4}$ sec.cor., marked $\frac{1}{4}$ on the N. face, and raise a mound of stones 3 ft. base, 1 $\frac{1}{2}$ ft. high, N. of cor. Pits impracticable.
	Descend.
45.00	Gulch, 30 lks. wide, course S., 70° E.; ascend.
53.00	Top of rocky point, brs. N.; descend.
58.50	Gulch, course NE.; ascend.
70.00	Rocky ridge, brs. N. and S.; descend.
71.50	Draw, course NE.; ascend steep rocky slope.
80.00	Cor. of secs. 26, 27, 34 and 35, hereinbefore described.
	Land, mountainous.
	Soil, 4th rate, rocky; scattering undergrowth of greasewood, cactus, and cat's claw.
	No timber or grass.
	Mountainous land, covered with boulders, and exceptionally difficult to survey, 80.00 chains.
<hr/>	
	June 8, 1910.
<hr/>	
	June 9, 1910.
	Thence I run,
	N. 0° 07' W., bet. secs. 26 and 27.
	Over mountainous land, covered with greasewood, cactus, and cat's claw undergrowth (dense).
	Descend into deep rocky gorge.
14.50	Rocky gorge, course E.; ascend.
18.50	Ridge, brs. E. and W.
	Descend steep slope.
29.00	Draw, course S. 35° E. Ascend abruptly.
36.00	Hidge brs. NW. and SE.
	Ascend.
40.00	Set a granite stone 7x9x18 ins., 12 ins. in the ground for the $\frac{1}{4}$ sec.cor., marked $\frac{1}{4}$ on the W. face; and raise a mound of stones 3 ft. base, 1 $\frac{1}{2}$ ft. high, W. of cor. Pits impracticable.
58.00	Draw, course E. Ascend.
60.00	Descend.
61.50	Draw, course N. 75° E.
66.50	Wash, 70 lks. wide, course SE.; ascend.
77.00	Top of slope slanting westerly; descend.
79.00	Set a malpais stone 6x7x24 ins., 18 ins. in the ground for witness corner to cor. of secs. 22, 23, 26 and 27,

Subdivision of Township 19 North, Range 19 West.

7.

Chains.

	marked W.C. on the NE face, 2 notches on the S. and 2 notches on the E.edges, and raise a mound of stones 3 ft. base, 1 $\frac{1}{2}$ ft. high,W.of cor. Pits impracticable. True point for the cor.of secs.22,23,26 and 27 falls in wash 60 lks.wide, course SE. Land, mountainous. Soil, 4th rate, rocky. Dense undergrowth of greasewood, cactus and catclaw, with scattering yucca. No timber or grass. Mountainous land, covered with dense undergrowth, and exceptionally difficult to survey, 80.00 chains.
-----	-----
40.00	From true point for cor.of secs. 22,23,26 and 27, I run East on a random line, bet. secs.23 and 26. Set temp.± sec.cor.
80.00	Intersect the N.and S. line at the cor.of secs.23,24,25, and 26 hereinbefore described. Thence I run, West, on a true line, bet: secs. 23 and 26. Over mountainous land, covered with dense undergrowth of greasewood, yucca, cactus, and catclaw.
15.00	Ascend.
16.50	Descend.
40.00	Wash, 20 lks.wide, course S.7°E. Ascend. Set a malpais stone 10x12x15 ins., 10 ins. in the ground for the ± sec.cor., marked ± on the N.face, and raise a mound of stones 3 ft.base, 1 $\frac{1}{2}$ ft. high,N.of cor. Pits impracticable.
76.50	Ascend.
80.00	Ridge, brs. NW.and SE.; descend. True point for cor.of secs. 22, 23, 26 and 27. Land, mountainous. Dense undergrowth of greasewood, cactus and catclaw;and yucca. Soil, 4th rate, stony. No timber or grass. Mountainous land, covered with dense undergrowth and exceptionally difficult to survey, 80.00 chs.
-----	-----
	At 9h.30m. a.m., 1.m.t., I set off 35° Ql'N.on the lat. arc; 22°54 $\frac{1}{2}$ 'N. on the decl.arc, and determine a meridian with the solar at the cor.of secs.22,23,26 and 27. Thence I run, N.O°07' W., bet. secs.22 and 23. Over sharply rolling land, covered with dense undergrowth of greasewood, cactus, cataclaw, and yucca.
26.00	Ridge, brs.NW.and SE. Descend.
29.60	Draw, course SE.; ascend.
40.00	Set a malpais stone 7x12x18 ins., 10 ins. in the ground for the ± sec.cor., marked ± on the W.face, and raise a mound of stones 3 ft.base, 1 $\frac{1}{2}$ ft. high,W.of cor. Pits impracticable.
50.00	Top ridge, brs.E.and W. Descend.
62.30	Gulch, course E.; ascend.
65.00	Ridge, brs.E.and W.; descend.
80.00	Set a malpais stone 6x12x14 ins., 10 ins. in the ground for the cor.of secs.14,15,22 and 23, marked with 2 notches on the E. and 3 notches on the S.edges, and raise a mound of stones 3 ft.base, 1 $\frac{1}{2}$ ft high,W.of cor. Pits impracticable. Land, mountainous. Soil, 3rd rate, rocky. Dense undergrowth of greasewood, yucca, cactus, and catclaw. No trees or grass.

8. Subdivision of Township 19 North, Range 20 West.

Chains.	Mountainous land, covered with dense undergrowth, and exceptionally difficult to survey, 80.00 chains.
40.00	East, on a random line, between secs. 14 and 23. Set a temp. & sec.cor.
80.00	Intersect the N. and S. line at the cor. of secs. 13, 14, 23 and 24, hereinbefore described. Thence I run, West, on a true line, bet. secs. 14 and 23. Over rolling land, covered with dense undergrowth of greasewood, cactus, catclaw, and yucca.
40.00	Set a malpais stone 8x8x15 ins., 10 ins. in the ground for the $\frac{1}{4}$ sec.cor., marked $\frac{1}{4}$ on the N.face, and raise a mound of stones 3 ft. base, 1 $\frac{1}{2}$ ft. high, N.of cor. Pits impracticable.
57.00	Ascend. Ridge, brs. NW. and SE. Descend.
68.30	Wash, 20 lks. wide, course SE.
77.00	Draw, course N. 30°E.
80.00	The cor. of secs. 14, 15, 22 and 23, hereinbefore described. Land rolling. Soil, 2nd and 3rd rate, stony. Dense undergrowth of greasewood, cactus, catclaw, and yucca. No timber or grass. Rolling land, covered with dense undergrowth, and exceptionally difficult to survey, 80.00 chains.
1.75	Thence I run, N. 0°10'W., bet. secs. 14 and 15. Over mountainous land, covered with dense undergrowth of yucca, catclaw, greasewood, and cactus.
9.00	Descend.
20.00	Draw, course E. Ascend.
24.00	Ridge, brs. E. and W.; descend.
29.35	Wash, 30 lks. wide, course E.
30.70	Wash, 40 lks. wide, course E.; ascend.
37.00	Wagon road from Kingman to Gold Roads, brs. E. and W.
39.00	Power transmission line from Kingman to Gold Roads, brs. E. and W.
40.00	Ascend abruptly.
53.00	Ridge, brs. E. and W.; descend.
55.00	Set a tufa stone 6x8x16 ins., 11 ins. in the ground for the $\frac{1}{4}$ sec.cor., marked $\frac{1}{4}$ on the W.face, and raise a mound of stones 3 ft. base, 1 $\frac{1}{2}$ ft. high, W.of cor. Pits impracticable.
60.00	Descend abruptly.
63.50	Draw, course E. Ascend steep slope.
69.50	Spur slopes from the W. to the E.; descend.
75.50	Draw, course E. Ascend steep slope.
80.00	Set a tufa stone 6x8x18 ins., 12 ins. in the ground for the cor. of secs. 10, 11, 14 and 15, marked with 2 notches on the E. and 4 notches on the S.edges, and raise a mound of stones 3 ft. base, 1 $\frac{1}{2}$ ft. high, W.of cor. Pits impracticable.
	Land, mountainous.
	Soil, 4th rate, rocky.
	Dense undergrowth of yucca, catclaw, greasewood, and cactus.
	No timber or grass.
	Mountainous land, covered with dense undergrowth, and exceptionally difficult to survey, 80.00 chains.
	At noon, I set off 35°03'N. on the lat.arc; 22°55'N.on the decl.arc, and observe the sun on the meridian;

Subdivision of Township 19 North, Range 19 West.

9.

Chains.	
	the latitude reading is changed under observation to $35^{\circ}02\frac{1}{2}'N.$ at the cor.of secs.10,11,14 and 15, hereinbefore described.

81.12	The cor.of secs.2,3,10 and 11, hereinbefore described. Land, mountainous. Soil, 3rd rate, stony. Dense undergrowth of greasewood, cactus, yucca, and catclaw. No timber or grass. Mountainous land, covered with dense undergrowth, and exceptionally difficult to survey, 81.12 chains.
	June 9, 1910.

	June 10, 1910.
	It being impracticable to subdivide this township in the usual way on account of the extremely mountainous character of the land of westerly portion as previously stated in the notes on the exterior lines thereof, I proceed to the corner of 22,23,26 and 27, heretofore described, and run, West, on a true line, bet. secs.22 and 27. Over mountainous land, covered with dense undergrowth of greasewood, cactus, and yucca.
	Note: This cor.is in a wash, course SE., 60 lks.wide, and is perpetuated by a witness cor. located S.0°07'E., 1.00 chain.
7.60	Wash, 40 lks.wide, course SE.; ascend.
17.00	Ridge, brs.SE.and NW.; descend.
22.00	Gulch, course S.70°E., 60 lks.wide.
30.00	Gulch, 10 lks.wide, course NE.
40.00	Set a malpais stone 12x14x24 ins., set 18 ins. in the ground for the $\frac{1}{4}$ sec.cor., marked $\frac{1}{4}$ on the N.face,

Subdivision of Township 19 North, Range 19 West.

11.

Chains.

and raise a mound of stones 3 ft. base, 1 $\frac{1}{2}$ ft. high, N. of cor. Pits impracticable.

Ascend.

73.00 Ridge, brs. N. and S. Descend abruptly.

75.60 Gulch, course N.; ascend.

80.00 Set a malpais stone 5x8x18 ins., 12 ins. in the ground, for the cor. of secs. 21, 22, 27 and 28, marked with 3 notches on the E. and 2 notches on the S.edges; and raise a mound of stones 3 ft. base, 1 $\frac{1}{2}$ ft. high, W. of cor. Pits impracticable.

Land, mountainous.

Soil, 4th rate, rocky.

Dense undergrowth of cactus, catclaw, yucca, and greasewood.

No timber or grass.

Very mountainous land to west; unsurveyable.

Mountainous land covered with dense undergrowth, and exceptionally difficult to survey, 80.00 chains.

Thence I run,

N. 0° 08' W., bet. secs. 21 and 22.

Over mountainous land, covered with dense undergrowth of yucca, catclaw, greasewood, and cactus.

Descend.

1.00 Gulch, 10 lks. wide, course N. 30° E.

10.00 Descend abruptly.

11.50 Rocky gulch, course E.

23.00 Draw, course E.

Ascend steep slope.

26.00 Ridge, brs. E. and W.; descend.

36.00 Wash, 30 lks. wide, course E.; ascend.

40.00 Set a malpais stone 7x8x15 ins., 10 ins. in the ground, for the $\frac{1}{4}$ sec.cor., marked $\frac{1}{4}$ on the W.face, and raise a mound of stones 3 ft. base, 1 $\frac{1}{2}$ ft. high, W. of cor.

Pits impracticable.

Descend.

40.20 Draw, course E.; ascend.

42.00 Summit, brs. E. and W.; descend.

44.00 Wash, 50 lks. wide, course E.; ascend.

50.00 Ridge, brs. E. and W.; descend.

52.50 Wash, 30 lks. wide, course E.; ascend.

57.00 Ridge, brs. E. and W.; descend.

66.00 Draw, course SE.; ascend.

80.00 Set a malpais stone 8x10x18 ins., 12 ins. in the ground, for the cor. of secs. 15, 16, 21 and 22, marked $\frac{1}{4}9$ N on the NE.face; 19 W on the SE.face, 3 notches on the E. and 3 notches on the S.edges; and raise a mound of stones 3 ft. base, 1 $\frac{1}{2}$ ft. high, W. of cor. Pits impracticable.

Land, mountainous.

Soil, 4th class, rocky.

Dense undergrowth of greasewood, cactus, catclaw, and yucca.

No trees or grass.

Mountainous land, covered with dense undergrowth, and exceptionally difficult to survey, 80.00 chains.

Land to the west is extremely mountainous, and is impracticable to survey.

At 9h.30m., a.m., l.m.t., I set off 22° 59 $\frac{1}{2}$ ' N. on the decl.arc; 35° 02' N. on the lat.arc, and determine a meridian with the solar at the cor. of secs. 15, 16, 21 and 22, above described.

Thence I run,

East, on a random line, bet. secs. 15 and 22.

40.00 Set a temp. $\frac{1}{4}$ sec.cor.

12. Subdivision of Township 19 North, Range 19 West.

Chains. 80.00	Intersect the N. and S. line at the cor. of secs. 14, 15, 22 and 23, hereinbefore described. Thence I run, West, on a true line, bet. secs. 15 and 22. Over mountainous land, covered with dense undergrowth of yucca, greasewood, and cactus.. Draw, course N. Ascend abruptly. Rocky spur brs. N. Descend. Draw, course NE. Ascend steep slope. Set a malpais stone 8x14x18 ins., 12 ins. in the ground, for the $\frac{1}{4}$ sec.cor.; marked $\frac{1}{4}$ on the N.face, and raise a mound of stones 3 ft. base, $1\frac{1}{2}$ ft. high, N.of cor. Pits impracticable. Continue steep ascent.
7.00	
9.00	
11.00	
40.00	
80.00	The cor. of secs. 15, 16, 21 and 22, hereinbefore described. Land, very mountainous. Soil, 4th rate, rocky. Dense undergrowth of yucca, greasewood, and cactus. No trees or grass. Mountainous land, covered with dense undergrowth, and exceptionally difficult to survey, 80.00 chains.

Thence I run, N. $0^{\circ}11'W$., bet. secs. 15 and 16. Over mountainous land, covered with dense undergrowth of catclaw, yucca, cactus, and greasewood. Descend. Descend abruptly. Wash, 70 lks.wide, course E.; ascend. Wagon road from Kingman to Gold Roads, brs. S. $75^{\circ}E.$ and M. $75^{\circ}W.$, Power transmission line from Kingman to Gold Roads, brs. S. $80^{\circ}E.$, and N. $80^{\circ}W.$ in draw, course SE. Set a malpais stone 7x8x18 ins., 12 ine. in the ground for the $\frac{1}{4}$ sec.cor., marked $\frac{1}{4}$ on the W.face, and raise a mound of stones 3 ft. base, $1\frac{1}{2}$ ft. high W.of cor. Pits impracticable.

40.20 Draw, course E.; ascend. 58.00 Ascend steep rocky bluff; the line enters land impractical to survey, and I therefore discontinue the same at 15 See Page *this point* *Supplemental Notes hereto attached for completion of this mile*. Land, extremely mountainous. Soil, 4th rate, rocky. No timber or grass. Mountainous land, covered with dense undergrowth of catclaw, yucca, greasewood, and cactus, and exceptionally difficult to survey, 58.00 chains.

It being impracticable to subdivide this township in the usual way as previously explained, I proceed to the cor. of secs. 10, 11, 14 and 15, hereinbefore described. Thence I run, West, on a true line, bet. secs. 10 and 15. Ascend along S.slope of spur, over mountainous land, covered with some undergrowth of cactus, and greasewood rather scattering. Spur, brs SW. Descend abruptly. 17.30 Rocky gulch, course SE. Ascend. 25.00 Gulch, course NE. Ascend precipitous side of mountain. 40.00 Set a granite stone 6x8x18 ins., 12 ins. in the ground for the $\frac{1}{4}$ sec.cor., marked $\frac{1}{4}$ on the N.face; and raise a mound of stones 3 ft. base, $1\frac{1}{2}$ ft. high, N.of cor. Pits impracticable. Land, to the west extremely mountainous, and impracticable to survey. I therefore discontinue my line at this point. *line completed Jan. 5, 1912, see page 16 Supplemental Notes* Land, extremely mountainous. Soil, 4th rate, rocky. *hereto attached*.

Subdivision of Township 19 North, Range 19 West. 13.
Chains.

Scattering undergrowth of greasewood, cactus, and some yucca.
No trees or grass.
Mountainous land, covered with loose rock, and scattering undergrowth, and exceptionally difficult to survey,
40.00 chains.

At the $\frac{1}{2}$ sec.cor., betsecs.10 and 15 at noon, I set off $23^{\circ} 0' N.$ on the decl.arc, and observe the sun on the meridian. The resulting latitude reading is $35^{\circ} 02\frac{1}{2}'$ N.

June 10, 1910.

GENERAL DESCRIPTION.

For general description and report, see page 19 of field notes of the North boundary of T.19 N., R. 19 W., page 17 Exterior Book "A", also page 31 Supplemental Subdivisions attached.

July 1, 1910.

William P. Alexander
U.S. Deputy Surveyor.

14. Supplemental Subdivision of Township 19 North, Range 19 W.

Chains.

S

Final survey commenced January 4, 1912, and was executed with a Young and Sons' light mountain transit No. 7520; the horizontal limb having two double verniers placed opposite to each other, and reading to single minutes of arc, which is also the least reading of the latitude and declination arcs of the Smith Solar Attachment, which is fitted to this instrument.

The instrument was examined, tested on the true meridian at Phoenix, Arizona, found correct, and was approved by the United States Surveyor General for Arizona.

June 25, 1904, I begin at the cor. of secs. 3, 4, 33 and 34 on the S.bdy. of the township, which is a granite stone, as previously established and described by me.

At 12h.33m.a.m., 1.m.t., I observe Polaris at its western elongation in accordance with the instructions in the Manual, and mark the line thus determined by a tack driven in a stake set about 5 chs. northerly of station.

At 8h.0m., a.m., 1.m.t., I turn off the azimuth of Polaris $1^{\circ}25'$ to the east, and mark the true meridian thus obtained by a tack driven in a stake set about 5 chs. N. of my station.

At 9h.0m., a.m., 1.m.t., I set off $34^{\circ} 59'N$. on the lat.arc, $22^{\circ}48'S$. on the decl.arc, and determine a meridian with the solar. This line falls $\frac{1}{2}$ of an inch east of the true meridian determined by Polaris observation this a.m., I examine all the various standard and bubble adjustments of the instrument and find them correct.

Magnetic variation of the needle is $15^{\circ} 15'$ E. of the true meridian.

Thence I run,

N. $0^{\circ}05'$ W., between secs. 33 and 34.

Over extremely mountainous land, covered with boulders and loose rock; scattering greasewood and cactus brush. Ascending.

9.70 High rocky ridge, bears NEE. and SWW; descend.

25.50 Head of gorge, course E. Small spring 300 lks.E.

Ascend.

37.00 High rocky ridge, bears E. and W.; descend.

40.00 Set a malpais stone 8x10x20 ins., 15 ins. in the ground for the $\frac{1}{2}$ sec.cor., marked $\frac{1}{2}$ on the W.face, and raise a mound of stones 3 ft. base, $1\frac{1}{2}$ ft. high, W.of cor. Pits impracticable.

44.00 Ascend.

47.00 High spur, bears E.; descend.

61.00 Prominent wash, 40 lks.wide, course SEE. Ascend steep slope.

80.00 Set a malpais stone 8x10x20 ins., 15 ins. in the ground for the cor. of secs. 27, 28, 33 and 34, marked with 1 notch on the S. and 3 notches on the E.edges, and raise a mound of stones 3 ft. base, $1\frac{1}{2}$ ft. high, W.of cor. Pits impracticable.

Land, extremely mountainous; covered with loose rock and boulders.

Soil, 4th rate, stony.

Scattering greasewood and cactus undergrowth.

No grass.

Mountainous land, covered with loose rock and boulders, and exceptionally difficult to survey, 80.00 chs.

At noon at the above cor., I set off $22^{\circ} 47'S$. on the decl.arc, and observe the sun on the meridian; the resulting latitude reading is $35^{\circ} 00'N$.

Thence I run,

East on a random line, bet. secs. 27 and 34.

40.00 Set a temp. $\frac{1}{2}$ sec.cor.

80.04 Cor. of secs. 26, 27, 34 and 35, described in my original notes, \wedge brs.N.5 lks.

page 6, hereto attached

Supplemental Subdivisions in Township 19 North, Range 19 W. 15.

Chains.

Thence I run,
 S.69°58'W. on a true line, between secs.27 and 34.
 Over extremely mountainous land, covered with malpais
 boulders and scattering greasewood and cactus under-
 growth.
 Ascending.
 35.00 Spur brs. NE.; descend.
 40.00 Set a malpais stone 6x12x18 ins., 12 ins. in the ground
 for the $\frac{1}{4}$ sec.cor., marked $\frac{1}{4}$ on the N.face, and
 raise a mound of stones 3 ft. base, 1 $\frac{1}{2}$ ft. high, N.of
 cor. Pits impracticable.
 50.00 Gully, course NE.; ascend.
 73.00 Ascend cliffs, bear N. and S.
 73.50 Continue ascent over boulders.
 80.04 The cor.of secs.27,28,33 and 34, hereinbefore described.
 Land, extremely mountainous, and covered with boulders and
 loose rock.
 Scattering greasewood and cactus undergrowth.
 Soil, 4th rate, stony.
 No grass.
 Mountainous land, covered with loose rock and boulders,
 and exceptionally difficult to survey, 80.04 chs.

Thence I run,
 N.0°48'W., between secs.27 and 28.
 Over extremely mountainous land, covered with boulders.
 Descend; scattering greasewood and cactus brush.
 21.00 Gully, course E.; ascend.
 32.00 Ridge, brs. SE. and NW.; descend.
 40.00 Set a malpais stone 7x8x20 ins., 15 ins. in the ground
 for the $\frac{1}{4}$ sec.cor., marked $\frac{1}{4}$ on the W.face, and raise
 a mound of stones 3 ft. base, 1 $\frac{1}{2}$ ft. high, W.of cor.
 Pits impracticable. Needle shows a magnetic variation
 of N.20°30'E. from the true north.
 At 4h.0m., p.m., l.m.t., I set off 35° 00' N.on the lat.
 arc; 22°34' S. on the decl.arc, and determine a meri-
 dian with the solar at the $\frac{1}{4}$ cor. between secs.27
 and 28. This coincides with the stellar meridian
 from which I have deflected 8' to the W. in running this
 line.
 Continue descent.
 59.60 Wash 5 lks.wide, course NNE., in gulch; ascend.
 63.00 Descend; slope to the north covered with boulders.
 80.00 The cor.of secs.21,22, 27 and 28, previously established
 and described by me in my original notes.page 11, hereto attached
 Land, extremely mountainous, and covered with boulders
 and loose rock.
 Soil, 4th rate, stony.
 Scattering greasewood and cactus undergrowth.
 Mountainous land covered with boulders and loose rock,
 and exceptionally difficult to survey, 80.00 chs.

January 4, 1912.

January 5, 1912.
 I then proceed to the $\frac{1}{4}$ sec.cor. between secs.15 and 16,
 which is a malpais stone, marked and witnessed as pre-
 ciously described by me in my original notes .page 12, hereto
 attached
 Thence I run,
 N.0°11'W., bet. secs.15 and 16. Commencing with
 The $\frac{1}{4}$ sec.cor. just indicated.
 Over extremely mountainous land, covered with boulders
 and loose rock and covered with dense greasewood and
 cactus brush.
 Descend.
 40.20 Drew, course E. Ascend, steep slope covered with large
 boulders.
 58.00 Ascend bluffs.

See page 12 Original Notes hereto attached for 5 $\frac{1}{2}$ of this mile.

16. Supplemental Subdivision of Township 19 North Range 19 W.

Chains.	
72.90	Ridge brs. SEE. and NWW. Thence over NE.slope.
80.00	Set a porphyry stone 14x18x20 ins., 15 ins. in the ground for the cor.of secs. 9,10, 15 and 16, marked with 4 notches on the S. and 3 notches on the E.edges, and raise a mound of stones 3 ft.base, 1½ ft. high,W.of cor. Fits impracticable.
	Land, extremely mountainous, and covered with boulders and loose rock.
	Soil, 4th rate, stony.
	Dense undergrowth of greasewood and cactus. Some cat-claw.
	Mountainous land, covered with boulders and loose rock and considerable brush, and exceptionally difficult to survey, 40.00 chs.

- Covered with dense cat-s Claw undergrowth, 4.00 chains.
Mountainous land, or land covered with dense undergrowth,
and covered with boulders and loose rock, and excep-
tionally difficult to survey, 80.00 chs.
-
- Thence I run,
S.89°59'W., on a random line, between secs.9 and 16.
Set a temp. 1 sec.cor.
The cor.of secs.9,10,15 and 16, hereinbefore described,
brs.N.5 lks.
- Thence I run,
S.89°59'W., on a true line, between secs.9 and 16.
Over extremely mountainous land, covered with boulders
and loose rocks; scattering greasewood and cactus
undergrowth; ascending.
Ridge, brs.N. and S. Descend.
Gully, course S.; ascend.
Top of ridge, slopes sharply to the south; descend.
Set a porphyry stone 6x8x20 ins., 15 ins. in the ground
for the $\frac{1}{4}$ sec.cor., marked $\frac{1}{4}$ on the N.face, and raise
a mound of stones 3 ft.base, 1 $\frac{1}{2}$ ft. high,N.of cor.
Pits impracticable.
Cor.on hill sloping sharply from Thimble Mountain to SSW.
Wash, 5 lks.wide, course S. in narrow gully; ascend.
Descend.
Prominent wash, 40 lks.wide, course SSW.. Ascend.
Ridge, brs.N. and S. Descend.
The cor.of secs.8,9,16 and 17, hereinbefore described.
Land, extremely mountainous; covered with boulders and
loose rock.
Soil, 4th rate, stone.
Scattering greasewood and cactus undergrowth.
No grass.
Mountainous land covered with boulders and loose rock, and
exceptionally difficult to survey, 79.96 chs.

January 7, 1912.

January 8, 1912.

- Thence I run,
N.C°16'W., between secs.8 and 9.
Over extremely mountainous land, covered with loose rock
and large malpais boulders.
Scattering greasewood and cactus brush.
Ascend.
Ridge, brs. SSW. and NNW.. Thence along rough, rocky gul-
lies easterly slope. Prominent winding wash approx-
imately parallels this line about 6 chains distant to
the east.
Set a malpais stone 8x14x24 ins., 18 ins. in the ground
for the $\frac{1}{4}$ sec.cor., marked $\frac{1}{4}$ on the W.face, and raise
a mound of stones 3 ft.base, 1 $\frac{1}{2}$ ft. high,W.of cor.
Pits impracticable.
Descend.
Cross prominent wash, 30 lks.wide, course SSW.. Ascend.
Descend.
Prominent wash, 40 lks.wide, course SSW.. Ascend along
west side, of canyon. The prominent wash branches
off to the NE.
Set a granite stone 11x13x12 ins., 12 ins. in the ground,
for the cor.of secs.4,5,8 and 9, marked with 4 notches
on the E. and 5 notches on the S.edges, and raise a
mound of stones 3 ft.base, 1 $\frac{1}{2}$ ft. high,W.of cor.
Pits impracticable.
Land extremely mountainous; covered with boulders and
loose rock.
Soil, 4th rate, stony.
Scattering greasewood and cactus brush.
No grass.

22. Supplemental Subdivision of Township 19 North Range 19 West.

Chains.	Mountainous land, covered with boulders and loose rock, and exceptionally difficult to survey, 80.00 chs.

	At 9h. G.m.a.m., l.m.t., I set off $35^{\circ}03\frac{1}{2}'N.$ on the lat.arc; $22^{\circ}19\frac{1}{2}'S.$ on the decl.arc, and determine a meridian at the cor.of secs. 4, 5, 8 and 9 above described.
	Thence,
	Thimble Mountain brs. 3.46° E.
	Pump House brs. $S.9^{\circ}42' E.$
	Very prominent rocky mountain brs. $N.3^{\circ}55' W.$
	Thence from cor.of secs. 4, 5, 8 and 9, I run, $N.89^{\circ}59'E.$ on a random line, between secs. 4 and 9.
40.00	Set a temp. † sec.cor.
80.00	The cor.of secs. 3, 4, 9 and 10, brs. 2 lks.S.
	Thence I run, West, on a true line, bet. secs. 4 and 9.
	Over extremely mountainous land, covered with boulders and loose rock.
	Scattering greasewood and cactus brush.
	Ascend abruptly.
9.80	Ridge, brs. N. and S. Descend.
30.00	Wash, 20 lks.wide, course N.; ascend; white cliffs.
40.00	Set a white sandstone rock $6x8x18$ ins., 12 ins. in the ground for the † sec.cor., marked † on the N.face, and raise a mound of stones 3 ft.base, $1\frac{1}{2}$ ft. high, N.of cor. Pits impracticable.
	Continue ascent.
45.00	Descend.
62.50	Wash, 10 lks.wide, course SW. Ascend.
70.00	Ridge, bears N. and S.; descend.
76.00	Gully, course S. Ascend.
80.00	The cor.of secs. 4, 5, 8 and 9, hereinbefore described. Land, extremely mountainous. Progress almost impossible. Soil, 4th rate, stony, covered with loose rock and boulders. Very scattering greasewood and cactus. No grass. Mountainous land, covered with loose rock, and exceptionally difficult to survey, 80.00 chs.

	At noon, at the above cor., I set off $22^{\circ}19\frac{1}{2}'S.$ on the decl.arc, and observe the sun on the meridian. The resulting lat.reading is $35^{\circ}03\frac{1}{2}'N.$
	Thence I run, $N.0^{\circ}04' W.$, bet. secs. 4 and 5.
	Ascending over extremely mountainous land, covered with loose sliding rock.
10.00	Further progress stopped by sliding rock. Line enters unsurveyable land. I therefore discontinue at this point.
	January 8, 1912.

	January 9, 1912.
	At the cor.of secs. 5, 6, 31 and 32 on the S.bdy.of the township, recently established and described by me.
	Thence I run, $N.0^{\circ}05' W.$, between secs. 31 and 32.
	Over extremely mountainous land, covered with malpais boulders, scattering greasewood and cactus undergrowth. Ascend.
15.00	Ridge, course E.and W.; descend.
27.50	Wash, 10 lks.wide, course W.in canyon. Ascend.
40.00	Set a malpais stone, $6x10x12$ ins., 8 ins. in the ground for the † sec.cor., marked † on the W.face, and raise a mound of stones 3 ft.base, $1\frac{1}{2}$ ft. high, W.of cor. Pits impracticable.

Supplemental Subdivision of Township 10 North, Range 10 West.

Rock ridge, bears N. and S. Descend. Wash, 15 lks. wide, course SSE. in canyon. Ascend. Rock ridge, bears N. and S. Descend. Rocky gulch, course S. Ascend. Set a malpais stone 10x18x24 ins., 18 ins. in the ground for the sec.cor., marked $\frac{1}{4}$ on the N. face, and raise a mound of stones 3 ft. base, 1 $\frac{1}{2}$ ft. high, N. of cor. Pits impracticable. Continue ascent, until .ascend to a high ridge, bears N. and S. Descend. Gorge, course SW. Ascend bluffs. Top of ridge, bears N. and S. Descend. Descend cliffs about 200 ft. high, bears N. and S. Thence cor. of secs. 5, 6, 7 and 8 hereinbefore described. Land extremely mountainous. Soil, 4th rate, stony. Surface covered with bare cliffs or loose rock, scattering greasewood and cactus brush. No grass. Mountainous land, covered with loose rock or bare cliffs, and exceptionally difficult to survey, 78.45 chs.

	At 4h. 0m., p.m., 1.m.t., I set off $21^{\circ}41\frac{1}{2}'$ S. on the decl. arc; $35^{\circ}03\frac{1}{2}'$ N. on the lat. arc, and determine a meridian with the solar, at the cor. of secs. 5, 6, 7 and 8. Thence I run, N. 0°05' W. on a random line between secs. 5 and 6. Set a temp. & sec.cor.
40.00	Intersect the N. bdy. of the township 23 lks.W. of the cor. of secs. 5, 6, 31 and 32, recently established and described by me.
81.15	Thence I run, S. 0°05' W. on a true line, between secs. 5 and 6. Over extremely mountainous land. Descend over boulders, scattering greasewood and cactus brush.
5.00	Commence precipitous descent.
15.00	Draw, course SE.; ascend.
21.75	Rocky spur, bears SE. Descend precipitous malpais boulder strewn slope.
29.50	Bench; witness corner. Set a malpais stone 6x6x18 ins., 12 ins. in the ground for the witness corner to the sec.cor., marked $\frac{1}{4}$ on the W. face, W.C. on top, and raise a mound of stones 3 ft. base, 1 $\frac{1}{2}$ ft. high, W. of cor. Pits impracticable.
41.15	Point for $\frac{1}{4}$ sec.cor. falls on long steep rock slide, impracticable to perpetuate.
	Continue descent.
73.00	Wash, 40 lks. wide, course SSE. in prominent canyon; ascend.
81.15	The cor. of secs. 5, 6, 7 and 8, hereinbefore described. Land, extremely mountainous, covered with loose sliding rock; scattering greasewood and cactus brush.

Supplemental Subdivision of Township 19 North, Range 19 West. 31.
Chains.

Soil, 4th rate, stony.

No grass.

Mountainous land, covered with loose rock and exceptionally difficult to survey, 81.15 chains.

January 12, 1912.

GENERAL DESCRIPTION.

This township, the greater part of which is through mountainous surface of the Ute Mountains, and covered with loose rock and 4th rate soil, marks a transition from the black malpais capped mountains on the south to the intrusive granites and altered sediments on the north. The line of demarkation taking place at and near the center of the township from which the character of the surface becomes more and more broken towards the north boundary, at and north of which the land becomes unsurveyable by reason of the precipitous cliffs and extremely steep rock slides.

Unsuccessful attempts were made to project these surveys into the western half of Township 20 North but the efforts met with failure, and I declare that area unsurveyable.

There were three springs noted in the progress of this survey. One in the SW. $\frac{1}{4}$ of sec.34, - a small one. One in SE. $\frac{1}{4}$ of sec.20, which supplies water by gravity to an automatic motor-driven pump situated in the SW. $\frac{1}{4}$ of sec.16 through a pipe line, whence the said water is forced through a pipe line to another pumping station situated in the NE. $\frac{1}{4}$ of sec.18, where the third spring is situated. From this latter station the water is driven through a pipe line to the mining camp of Holdroads situated approximately two miles northwest from sec.18, in approximately sec.11 of T.19 N R 20 W., un-surveyed.

The whole area of this township drains to the east into Sacramento Wash, principally through the large wash passing easterly across nearly the center of the township.

Wild burros were seen in plenty, but no cattle, and it is presumed that the former have driven the latter out, although it may be that no cattle have ever subsisted on this range, the feed being insufficient, and the surface very rough.

A very good wagon road passes through this township, approximately in the center in an easterly and westerly direction, being the freighting road from Kingman to Goldromes, and is a very well built highway. There are no settlers within this township.

William B Alexander
U. S. Deputy Surveyor.

Gentlemen:

Thank you for your letter of April 1, 1968 (your reference 9180 E) regarding the position of U.S.L.M. No. 1699B in the NE $\frac{1}{4}$ Section 18, Township 19 North, Range 19 West, Gila and Salt River Meridian, Arizona, and for the two pages of field notes covering the Subdivision of that Township.

On the second page of the field notes (marked "Book 2374" "173" - this may be the page number) four ties are given from Corners Nos. 1 and 5, respectively, of the Line Road and Gold Road mill sites. The second tie reads as follows:

"(2) Cors. Nos. 4 and 6, respectively of the Line Road and Gold Road mill sites, brs. S. 3° 54' E., 333.7 ft., 4.75 chains."

I believe that this distance should be 313.7 feet, as shown on the patent plat of Survey No. 1699B which you sent me. Also, 333.7 feet would be 5.06 chains, whereas 313.7 feet are 4.75 chains, as given in the tie.

Apparently the field notes contain a minor typographical error.

Yours very truly,

B. J. Barber
C. J. Barber
Engineer of Mines

Mr. C. J. Barber
Engineer of Mines
United States Smelting Refining &
Mining Company
Newhouse Building
Salt Lake City, Utah 84110

Dear Mr. Barber:

U.S.L.M. 1699B is located in the NE $\frac{1}{4}$ Section 18, Township 19
North, Range 19 West, Gila and Salt River Meridian, Arizona.

Enclosed is a sketch showing the location and two pages of
the field notes covering the survey of the Subdivision of
this Township, which ties in U.S.L.M. 1699B.

If we can be of further help to you, please feel free to
contact us.

Sincerely,

KENNETH F. HANSEN

Chief, Division of Engineering

LIST OF NAMES.

A list of the names of the individuals employed by _____

_____, United States Deputy Surveyor, to assist in running, measuring, and marking the lines and corners described in the foregoing field notes of the survey of _____

showing the respective capacities in which they acted:

_____, Chainman.

_____, Chainman.

_____, Moundman.

_____, Moundman.

_____, Axman.

_____, Axman.

_____, Flagman.

FINAL OATH OF ASSISTANTS.

We hereby certify that we assisted _____

_____, United States Deputy Surveyor, in surveying all those parts or portions of the _____

of the _____

meridian, _____ of _____, which are represented in the foregoing field notes as having been surveyed by him and under his direction; and that said survey has been in all respects, to the best of our knowledge and belief, well and faithfully surveyed, and the corner monuments established, according to the instructions furnished by the United States Surveyor General for _____

_____, Chainman.

_____, Chainman.

_____, Moundman.

_____, Moundman.

_____, Axman.

_____, Axman.

_____, Flagman.

APPROVAL.

OFFICE OF THE UNITED STATES SURVEYOR GENERAL,

Phoenix, Arizona, Feb. 26, 1913, 1909

The foregoing field notes of the survey of the Subdivision Lines

in Tp. 19 North, Range 19 West, Gila and Salt River
Base and Meridian State of Arizona

executed by William B. Alexander, U.S. Deputy Surveyor
under his contract No. 156, dated May 26, 1909, having been
critically examined, and the necessary corrections and explanations made, the said field notes, and the surveys they describe, are hereby approved.

Daniel A. Driggs,
United States Surveyor General.

I certify that the foregoing transcript of the field notes of the above-described surveys in _____, has been correctly copied from the original notes on file in this office.

United States Surveyor General.
