The E & S.E. portions of this township are very mountainous, varying from an altitude of 2,000 to 6,000 or 7,000 ft. This portion of the township is not surveyed. Secs. 2, 3, 9, 10, 11, 15, 16, 20, 21, 27, 28, 29, 30, 31 & 32 and the E. half of 4, 17 & 19 lie on a sloping bench bet. the foot of Virgin Mountains & Virgin River. There are a great many loose granite and white quartz rocks scattered over this bench. This bench also affords good grazing for stock.

The Rio Virgin Irrigated Fruit Lands Co. of Salt Lake, Utah propose to divert the water of the Virgin River to water this land.

The Virgin River flows through secs. 4, 8, 9, 11, 18 & 19 of this Tp. The bed of this river is quicksand and the banks are very changeable. There are some large springs of warm mineral water flowing out of the left bank of the river in secs. 4 & 9.

SUBDIVISION OF T. 40 N. R. 15 W.

Practically every variety of fruit known to the temperate zone is raised along the river bottom in this township. The town of Littlefield is a small settlement of six families situated on the bank of Virgin River in secs. 8 & 9. Good clear water rises in the bed of Beaver Dam Creek and flows a good stream through sec. 5 and empties into the Virgin River in sec. 4. Secs. 5, 6, 7, 8 & 18 lie on a high level bench which consists of good sandy soil 2 to 3 ft. deep, underlaid with soft limestone. There is a grove of cottonwood trees in Secs. 4 & 5. There is 1 settler in Sec. 4, 1 in sec. 5, 5 in sec. 8, 1 in sec. 9, and 3 in sec. 17.
