OF THE SURVEY OF THE

~~Surveys in New Mexico, parts of the  
Gila, exterior of the Gila River, and the  
San Javie and San Pedro Rivers, and parts of the  
Mogollon Plateau.~~

of the Gila & Salt River Base Meridian,

AS SURVEYED BY

*Philip Custer*, United States Deputy Surveyor,

Under his Contract No. 185, dated November 17, 1891, 1891905.

Survey commenced December 5, 1891905.

Survey completed December 23, 1891905.

WE, Walter Percival and John W. Tracy

do solemnly swear that we will well and faithfully execute the duties of chainmen; that we will level the chain over even and uneven ground, and plumb the tally pins, either by sticking or dropping the same; that we will report the true distances to all notable objects, and the true lengths of all lines that we assist in measuring, to the best of our skill and ability, and in accordance with instructions given us, in the survey of The Boundary Line between the State of Maine and the Province of Quebec, extending from the International Boundary at the St. John River to the Northwood Line, and thence along the said line to the International Boundary.

Walter Percival, Chainman.

John W. Tracy, Chainman.

Subscribed and sworn to before me this

day of November, 1891905

W. G. Power

WE, H. B. Milliken and William C. Mallory

do solemnly swear that we will well and truly perform the duties of moundmen in the establishment of corners, according to the instructions given us, to the best of our skill and ability, in the survey of The Boundary Line between the State of Maine and the Province of Quebec, extending from the International Boundary at the St. John River to the Northwood Line, and thence along the said line to the International Boundary.

H. B. Milliken, Moundman.

William C. Mallory, Moundman.

Subscribed and sworn to before me this

day of November, 1891905

W. G. Power

WE, James Horowin and Frank K. Blair

do solemnly swear that we will well and truly perform the duties of axmen in the establishment of corners and other duties, according to instructions given us, to the best of our skill and ability, in the survey of The Boundary Line between the State of Maine and the Province of Quebec, extending from the International Boundary at the St. John River to the Northwood Line, and thence along the said line to the International Boundary.

James Horowin, Axman.

Frank K. Blair, Axman.

Subscribed and sworn to before me this

day of November, 1891905

W. G. Power

I, W. H. Pogue, do solemnly swear that I will well and truly perform the duties of flagman according to instructions given me, to the best of my skill and ability, in the survey of The Boundary Line between the State of Maine and the Province of Quebec, extending from the International Boundary at the St. John River to the Northwood Line, and thence along the said line to the International Boundary.

W. H. Pogue, Flagman.

Subscribed and sworn to before me this

day of November, 1891905

W. G. Power

215  
748

On November 3, 1905, I proceeded to the N. E. Cor. of the Baca Float No. 3. which was pointed out to me by Jose Maria Peralta, an old settler, who assisted in establishing the same in the month of May, 1863.

I find said monument to be a scattered mound of stone covered with earth and oak brush. In order to satisfy myself with the correctness of this monument I measured to the base of Salero Hill and find the same to be practically 120 chs. dist., also the bearing to the base and top of said hill to be practically S.  $45^{\circ}$  W. from the old monument.

After having verified the N. E. cor. established in 1863, I return to the same and in compliance with my instructions establish the N. E. cor. of the Baca Float No. 3. as follows: In the center of the space occupied or covered by the mound, I

Set a granite stone, 28x12x12x ins., 21 ins. in the ground, for the N. E. cor. and initial monument of the Float, marked N E COR. B F No. 3 I M on the S W and P L on the N. E. face, with a triangle ( $\Delta$ ) and arrow pointing west on top of the stone: and raised a mound of stone 4 ft. base, 3 ft. high, S. W. of cor. Pits impracticable.

From this cor. Mt. Hopkins, Santa Rita Range, brs. N.  $27^{\circ} 30'$  W.

A rocky point brs. N.  $14^{\circ} 15'$  W.

I then proceed to survey the boundaries of the Float. Survey commence Nov. 3. 1905, and executed with a W. & L. E. Gurley light mountain transit, No. 4607, with solar attachment. The horizontal limb is provided with two double verniers placed opposite to each other, reading to single minutes of arc, which is also the least count of the verniers of the latitude and declinations arcs.

The instrument was examined, tested on the true meridian at Phoenix, found correct, and was approved by the Surveyor General for Arizona.

I examine the adjustments of the transit, and correct the level and collimation errors: than to test the solar apparatus, by comparing its indications, resulting from solar observations made during a. m. and p. m. hours, with a meridian determined by observations on Polaris, I proceed as follows:

At the N. E. Cor. of the Baca Float No. 3. just established lat.  $31^{\circ} 37'$  N. long.  $110^{\circ} 51'$  W. I set off  $31^{\circ} 37'$  N. on the lat. arc.  $15^{\circ} 04'$  S. on the decl. arc. and at 3 h 3 m p. m. l. m. t. determine with the solar a meridian and mark a point thereof on a stone firmly set in the ground, 5 chs. N. of the cor. Nov. 3.

At 4 h 30 m p. m. l. m. t. by my watch, which is correct, I observe polaris at western elongation, in accordance with Manual of Instructions, and mark a point in the line thus determined, on a peg driven in the ground, 5 chs. N. of my station. November 4, 1905.

November 4, 1905. At 9 h 00m. l. m. t. I lay off the azimuth of Polaris,  $1^{\circ} 25'$  to the east, and mark the meridian thus determined by cutting a small groove in the stone set Nov. 3, on which the meridian falls 2 ins. east of the mark determined by the solar.

At 9 h 20 m. a. m. l. m. t. I set off  $31^{\circ} 37'$  N. on the lat. arc.  $15^{\circ} 18'$  S. on the decl. arc. and mark a point in the meridian determined with the solar, by a cross on the stone already set 5 chs. N. of my station: this mark falls  $1\frac{1}{2}$  ins. east of the meridian established by the polaris observation.

The solar apparatus by p. m. and a. m. observations, defines positions for the meridians, respectively about  $11^{\circ}$  est and  $11^{\circ}$  west of the meridian established by the Polaris observations: therefore I concluded that the adjustments of the instrument are satisfactory.

The magnetic bearing of the true meridian at 9h. 40m. a.m., is N.13°15' W., the angle thus determined gives the magnetic declination  $13\frac{1}{4}^{\circ}$  E.

Thence I run  
West, on the first mile.  
Over mountainous land, ascending through dense oak brush.  
3.60 Spur, extending N.; descend.  
7.10 Gulch, 15 lks. wide, course N.; begin steep ascent,  
Through scattering oak timber.  
20.00 Top of high conical hill; descend steep over stony ground through scattering oak timber.  
22.00 Leave dense brush, bears N. and S.  
36.00 Gulch, 400 ft. below top of mountain, 30 lks. wide, course S.; ascend.  
38.00 Tunnel, bears S., about 14 chs. dist.  
40.00 Set a porphyrite stone, 24 X 10 X 6 ins., 18 ins. in the ground, for  $\frac{1}{2}$  mile corner, marked  
 $\frac{1}{2}$  M on E. face,  
B F NO 3 on S. face and  
P L on N. face, from which  
An oak, 14 ins. in diam., bears S.  $10\frac{1}{2}^{\circ}$  E. 139 lks. dist.; marked B F NO 3  $\frac{1}{2}$  M B T, and  
An oak, 12 ins. diam., brs. N.  $6\frac{1}{4}^{\circ}$  W., 120 lks. dist., marked B F NO 3  $\frac{1}{2}$  M B T, and raised a mound of stone 3 ft. base and 2 ft. high, S. of the cor.

November 4th, 1905.

Nov. 5th, at 8h 36m, a.m., l.m.t., I set off  $31^{\circ}37'N.$  on the Lat. acc; and  $15^{\circ}35'W.$ , on the decl. arc; and determine a true meridian with the solar at the  $\frac{1}{2}$  M. cor.

Thence I continue

West, on the 1st mile.  
Top of ridge, 400 ft. above gulch, bears N. and S., descend steep.  
66.00 Gulch, 500 ft. below top of ridge, 20 lks. wide, course S.W., ascend.  
69.00 Top of S. slope of rocky ridge; descend.  
74.30 Intersect bet. secs. 7 & 12, E. bdy. of Tp. 21 S., R. 14 E. at this point from which the  $\frac{1}{4}$  sec. cor., which I find as described by the Surveyor General, brs. N.  $1^{\circ}2'W.$ , 39.81 chs. dist.  
Set a granite stone, 24 X 12 X 10 ins., 18 ins. in the ground, for closing cor. of secs. 7 & 12 marked C.C. on the N.  
B F NO 3 on the S.  
7 on the E.  
12 on the W. face, from which  
An oak, 12 ins. in diam., brs. N.  $86\frac{1}{2}^{\circ}$  E., 38 lks. dist.; marked T 21 S R 15 E S 7 B.T and  
An oak, 8 ins. diam., brs. N.  $68^{\circ}W.$ , 140 lks. dist., marked T 21 S R 14 E S 12 B.T, and raise a mound of stone 3 ft. base, 2 ft. high, N. of the cor.  
80.00 Set a porphyrite stone, 24 X 8 X 8 ins., 18 ins. in the ground, for the 1 mile cor., marked 1 M on the E.  
B F NO 3 on the S.,  
P L on the N. face, from which  
An oak, 24 ins. diam., brs. S.  $11\frac{1}{4}^{\circ}$  E., 83 lks. dist.; marked B F NO 3 1 M B T.,  
An oak, 12 ins. diam., brs. N.  $6\frac{1}{4}^{\circ}$  E., 120 lks. dist. marked T 21 S R 14 E S 12 1 M B T. No other trees within limits. Raise a mound of stone 3 ft. base, 2 ft. high, S. of cor. Pits impracticable.  
Land, mountainous.  
Soil, gravelly, stony and rocky; 3rd and 4th rate.  
Timber, scattering oak. Undergrowth, oak and manzanita.  
Mountainous or land covered with dense undergrowth  
80.00 chs.

44

BOOK 2503

November 5. At this point set off  $15^{\circ} 39' S.$  on the decl. arc; and at 11 h. 44 m. M.l.m.t., observe the sun on the meridian. The resulting lat. is  $31^{\circ} 37' N$  or within 1' of the proper lat.

West on the 2nd mile.

Over mountainous land, descending through scattering oak timber.

- 8.00 Road brs. N. and S.  
8.70 Gulch, 40 lks. wide course S.W.; ascend over ledges.  
18.77 Shaft and tunnel br. S. 250 lks. dist.  
22.30 Shaft and tunnel bear S 200 lks. dist.  
28.30 Ridge, 400 ft. above gulch, brs. N.W. and S.E.; descend.  
29.70 Foot, brs. N. and S., ascend gradually.  
37.40 Road brs. N.E. and S.W.  
38.60 Frame house brs. 4 chs. S.  
40.00 Set a porphyrite stone, 28 X 10 X 8 ins., 21 ins. in the ground, for the  $\frac{1}{2}$  mile cor., marked  
 $1\frac{1}{2}$  M on E.,  
B F NO 3 on S., and  
P L on N face, from which  
An oak, 14 ins. diam., brs. S.  $76\frac{1}{2}' E.$ , 87 lks. dist., marked B F NO 3  $1\frac{1}{2}$  M B.T., and  
An oak, 20 ins. diam., brs. N.  $67\frac{1}{2}' E.$ , 27 lks. dist., marked T. 21 S R 14 E S 12  $1\frac{1}{2}$  M B.T., and raise a mound of stone 2 ft. base, 2 ft. high to the S. of the cor.

November 5, 1995.

November 6. At 8 h. 40 m. M.l.m.t., I set off  $31^{\circ} 37' N$  on the lat. arc and  $16^{\circ} 54' S.$  on the decl. arc, and determine a true meridian with the solar at the  $1\frac{1}{2}$  mile cor. Thence I continue

West on the 2nd mile.

- 40.10 Shaft brs. S. 120 lks. dist.  
40.30 Tunnel brs. S. 120 lks. dist.; ascend steeply.  
43.50 Shaft brs. S. 8 lks. dist.; ascend steeper.  
48.10 Top of Alto Mountain, brs. N. and S.; begin steep descent.  
50.10 Shaft and tunnel br. S. 80 lks. dist.  
51.10 Shaft and tunnel br. S. 15 lks. dist.  
55.90 Tunnel brs. S., 6 chs. dist.  
57.90 Trail brs. N. and S.  
58.00 Mound of stone on line.  
63.20 Same trail, brs. N.W. and S.E.; descend over rocky ledges.  
71.62 Intersect line bet. secs. 11 & 12 of T. 21. S., R. 14 E., at a point from which the  $\frac{1}{4}$  sec. cor. brs. N.  $0^{\circ} 35' W.$ , 20.58 chs. dist.  
Cor. point falls on a granite rock in place, 6 X 3 ft., 6 ins. above ground on which I cut a cross (x) at the exact cor. point for closing cor. of secs. 11 & 12, marked  
CC on the N.,  
B F NO 3 on the S.,  
12 on the E.,  
11 on the W. face, from which  
An oak, 8 ins. diam., brs. N.  $34\frac{1}{2}' W.$ , 158 lks. dist., marked T 21 S R 14 E S 11 B T. No other tree within limits. Raised a mound of stone 3 ft. base,  $2\frac{1}{2}$  ft. high, N. of the cor.  
From this cor. mill brs. S  $23^{\circ} W.$ , about 60 chs. dist. N.E. cor. of Alto store brs. S.  $53^{\circ} 45' W.$ ; foot of steep descent.  
73.10 Same trail brs. N. and S.  
73.50 House about 11 chs. south.  
74.50 Three houses br. S. 9 chs.  
75.20 House brs. S. 8 chs.  
77.10 House brs. S. 8 chs. dist. These buildings comprise the Alto Mining Camp.  
80.00 Set a granite stone, 24 X 12 X 8 ins., 18 ins. in the ground for the 2nd mile cor., marked

2 M on E.,  
 B F No 3 on S., and  
 P L on N. face, from which  $\langle T 21 N R 14 E S 11 B T,$   
 An oak, 16 ins. diam., brs. N.  $84^{\circ} 15' E.$ , 352 lks. dist.  
 An oak, 10 ins. diam., brs. S.  $56^{\circ} 45' E.$ , 268 lks. dist.,  
 both marked B F NO 3 2 M B T ., and raise a mound of stone  
 3 ft. base, 2 ft. high, S. of cor. Pits impracticable.  
 This cor. stands about 1000 ft. below the top of the  
 Alto Mountain.  
 Land, mountainous.  
 Soil, stony and rocky; 4th rate.  
 Timber, scattering oak.  
 Mountainous land, 80.00 chs.

November 6, 1905.

November 7th; At 8h., 35m., l.m.t., I set off  $31^{\circ} 37' N$   
 on the lat. arc; and  $16^{\circ} 14' S.$ , on the decl. arc; and  
 determine a true meridian with the solar at the 2 mile  
 cor.

Thence I run  
 West on the 3rd mile.  
 Over mountainous land, descending.  
 Foot, brs. N. and S., thence over gently rolling ground.  
 Road brs. N.W. and S.E.  
 Gulch 40 lks. wide course S.W.  
 Set a sandstone 24 X 14 X 10 ins., 18 ins. in the ground,  
 for the  $2\frac{1}{2}$  mile cor., marked

2 M on the E.,  
 B F NO 3 on S.,  
 P L on N face, from which  
 A mesquite, 8 ins. diam, brs. S.  $19\frac{1}{2}^{\circ} W.$ , 347 lks. dist.,  
 marked B F NO 3  $2\frac{1}{2}$  M B T . No other trees available,  
 and raise a mound of stone, 3 ft. base, 2 ft. high,  
 S. of cor. Pits impracticable.

Gulch 80 lks. wide course S.W.  
 Gulch 80 lks. wide, course S.W. Begin steep ascent.  
 Set a granite stone, 24 X 14 X 8 ins., 18 ins. in the  
 ground for the 3rd mile cor., marked

3 M on E.,  
 B F NO 3 on S., P L on N. face, and raise a mound of  
 stone, 3 ft. base, 2 ft. high, S. of cor. Pits impracti-  
 cable.  
 Land, rolling and mountainous.  
 Soil, gravelly, stony and rocky; 3rd and 4th rate.  
 Timber, a few oak and mesquite.  
 Mountainous land, 15.60 chs.

November 7th; At this cor. I set off  $16^{\circ} 14' S.$ , on the  
 decl. arc; and at 11 h. 44 m. 27 s. l.m.t., observe the sun on  
 the meridian; the resulting lat. is  $31^{\circ} 37' N$  or within one  
 minute of the proper lat.

Thence I continue  
 West on the 4th mile.  
 Over mountainous land, ascending.  
 Intersect line bet. secs. 10 and 11, T. 21 S. R. 14 E.,  
 at a point from which the  $\frac{1}{4}$  sec. cor. brs. N.  $0^{\circ} 15' E.$ ,  
 35.07 chs. dist.  
 Set a granite stone, 24 X 8 X 6 ins., 18 ins. in the ground,  
 for the closing cor. of secs. 10 and 11, marked

CC on N.,  
 B F NO 3 on S.,  
 S 11 on E.,  
 S 10 on W. face, and raise a mound of stones, 2 ft. base,  
 $1\frac{1}{2}$  ft. high, N. of cor. Pits impracticable.  
 Top of ridge brs. N. and S.; descend.  
 Gulch 20 lks. wide course S.; ascend.  
 Top of S. slope of ridge brs. E. and W.  
 Descend.  
 Gulch 20 lks. wide course S.; ascend.  
 Set a granite stone, 24 X 12 X 8 ins., 18 ins. in the  
 ground, for the  $3\frac{1}{2}$  mile cor., marked

3 M on E.,  
 B F NO 3 on S.,

46

BOOK 2503

P L on N. face, and raise a mound of stone, 3 ft. base,  
2 ft high, S. of cor. Pits impracticable.  
Head of gulch course S.E.  
Top of conical mountain; descend.  
Set a granite stone, 28 X 12 X 8 ins., 21 ins. in the  
ground, for the 4th mile cor., marked

4 M on E.,  
B F NO 3 on S.,  
P L on N. face, and raise a mound of stone, 3 ft. base,  
2 ft. high, S. of cor. Pits impracticable.  
Land, mountainous.  
Soil, stony and rocky; 4th rate.  
Timber, a few oak and mesquite.  
Mountainous land, 80 chs.

November 7, 1905.

November 8: At 8 h., a.m., l.m.t., I set off  $31^{\circ} 37'$  N.  
on the lat. arc; and  $16^{\circ} 28'$  S., on the decl. arc; and  
determine a true meridian with the solar at the 4th mile  
cor.

Thence I run  
West on the 5th mile.  
Over mountainous land, descending.  
Intersect line bet. secs. 9 and 10, T. 21 S., R. 14 E.,  
at a point from which the  $\frac{1}{4}$  sec. cor. brs. N. 0° 15' E.,  
29.94 chs. dist.  
Set a granite stone, 24 X 12 X 10 ins., 18 ins. in the  
ground, for the closing corner of secs. 9 and 10, marked  
C C on N.,  
B F NO 3 on S.,  
S 10 on E.,  
S 9 on W. face, and raise a mound of stone, 3 ft. base,  
2 ft. high, N. of cor. Pits impracticable.  
Gulch 80 lks. wide course S.; ascend.  
Top brs. N. and S.; enter mesa.  
Set a sandstone, 24 X 14 X 6 ins., 18 ins. in the ground,  
for the  $4\frac{1}{2}$  mile cor., marked  
4 $\frac{1}{2}$  M on E.,  
B F No 3 on S.,  
P L on N. face, and raise a mound of stone, 3 ft. base,  
2 ft. high, E. of cor. Pits impracticable.  
Descend from mesa. brs. N.E. and S.W.  
Gulch 60 lks. wide course S.W.; ascend.  
Top, thence over level land.  
Descend, brs. N. and S.  
Josephine Canyon 140 lks. wide course S.; ascend.  
Set a sandstone, 28 X 8 X 8 ins., 21 ins. in the ground,  
for the 5 mile cor., marked  
5 M on E.,  
B F NO 3 on S.,  
P L on N. face, and raise a mound of stone, 3 ft. base,  
2 ft. high, E. of cor, from which  
A mesquite, 16 ins. diam., brs. S.  $4^{\circ} 45'$  W., 103 lks. dist.,  
marked B F NO 3 5 M B T. Pits impracticable. No other trees within  
U.S.L.M. No. 3 $\frac{1}{2}$ , Tyndall Mining District, brs. S.  $4^{\circ} 5'$  W.  
~~Cayetano Peak, Cayetano Mountains, brs. S. 22° W.~~  
Mt. Wrightson (Old Baldy) Santa Rita Range, brs. N.  $47^{\circ}$   
 $45'$  E.  
Mt. Allen, Grosvenor Hills, brs. S.  $52^{\circ} 03'$  E.  
Land, mountainous and level.  
Soil, gravelly, stony and rocky; 3rd and 4th rate.  
Timber, a few mesquite.  
Undergrowth, mesquite and ocotilla cacti.  
Mountainous land, 52.80 chs.  
Nov. 8th; at this cor. I set off  $16^{\circ} 32'$  S. on the decl.  
arc; at 11h44m A.M. l.m.t., observe the sun on the meridian,  
the resulting lat. is  $31^{\circ} 37'$  N, identical with the proper  
lat.  
Thence I run  
West on the 6th mile.  
Over mountainous land, ascending.

NORTH BOUNDARY OF BACA FLOAT NO. 3.

- 3.37 Intersect the line bet. secs. 8 and 9, T. 21 S. R. 14 E., at a point from which the  $\frac{1}{4}$  sec. cor. brs. N.  $0^{\circ} 10' W.$ , 30.65 chs. dist.  
Set a granite stone, 24 X 8 X 6 ins., 18 ins. in the ground, for the closing cor. of secs. 8 and 9, marked CC on N., B F NO 3 on S., S 9 on E., and S 8 on W. face, and raise a mound of stone, 2 ft base,  $1\frac{1}{2}$  ft. high, N. of cor. Pits impracticable.
- 7.50 Top of S. slope of ridge brs. E. and W.; descend.  
14.30 Gulch 30 lks. wide course S., ascend.  
25.60 S. slope of hill; descend.  
37.60 Descend steeper.  
40.00 Set a granite stone, 24 X 16 X 8 ins., 18 ins. in the ground for the  $5\frac{1}{2}$  mile cor., marked  
 $5\frac{1}{2}$  M on E.,  
B F NO 3 on S.,  
P L on N. face, and raise a mound of stone, 3 ft. base,  $1\frac{1}{2}$  ft. high,  $E\frac{1}{2}S$  of cor. Pits impracticable.  
53.00 Gulch 40 lks. wide course S.E.; ascend.  
67.80 Top brs. N. E. and S.W. Enter level land.  
80.00 Set a sandstone, 20 X 12 X 12 ins., 15 ins. in the ground, for the 6th mile cor., marked  
6 M on E.,  
B F NO 3 on S.,  
P L on N face, and raise a mound of stone, 3 ft. base,  $1\frac{1}{2}$  ft. high,  $E\frac{1}{2}S$  of cor. Pits impracticable.  
From this cor.  
Thumb Butte, Atacosa Range, brs. S.  $37^{\circ} W.$   
Baboquivari Peak brs. N.  $73^{\circ} 45' W.$   
Land, mountainous and level.  
Soil, gravelly, stony and rocky; 3rd and 4th rate.  
Timber, scattering mesquite and oak.  
Mountainous land, 68'00 chs.
- November 8th, 1905.
- November 9th. At 8h 35m A.M. l.m.t., I set off  $31^{\circ} 37' N.$  on the lat. arc; and  $16^{\circ} 4' S.$  on the decl. arc; and determine a true meridian with the solar at the 6 mile cor. Thence I run
- West on the 7th mile.  
Over level land.
- 4.11 Intersect the line bet. secs. 7 & 8, T. 21 S. R. 14 E., at a point from which the  $\frac{1}{4}$  sec. cor. brs. N.  $0^{\circ} 10' W.$ , 30.59 chs. dist.  
Set a granite stone, 20 X 6 X 6 ins., 15 ins. in the ground, for the closing corner of secs. 7 and 8, marked C C on N.,  
B F NO 3 on S.,  
S 8 on E.,  
S. 7 on W. face, and raise a mound of stone, 2 ft. base,  $1\frac{1}{2}$  ft. high, N. of cor. Pits impracticable.  
10.00 Descend, brs. N.E. and S.W.  
33.50 Enter gulch course W.  
40.00 Set a granite stone, 24 X 10 X 8 ins., 18 ins. in the ground, for the  $6\frac{1}{2}$  mile cor., marked  
 $6\frac{1}{2}$  M on E.,  
B F NO 3 on S.,  
P L on N., and raise a mound of stone, 3 ft. base, 2 ft. high,  $E\frac{1}{2}S$  of cor. Pits impracticable.  
This cor. stands at foot of high ledge on S. side of gulch.  
42.20 Leave gulch course W.S.W.; ascend.  
46.00 Top; thence along N. side of gulch.  
66.00 Leave side of gulch; ascend.  
80.00 Set a sandstone, 24 X 12 X 10 ins., 18 ins. in the ground, for the 7th mile cor., marked  
7 M on E.,  
B F NO 3 on S.,  
P L on N. face, and raise a mound of stone, 3 ft. base, 2 ft. high,  $E\frac{1}{2}S$  of cor. Pits impracticable.

## NORTH BOUNDARY OF BACA FLOAT NO. 3.

- U.S.L.M. NO. 3<sup>rd</sup>, Tyndall Mining District Brs. S. 46° E.  
 Cayetano Peak, San Cayetano Mts., brs. S. 2° 37' W.  
 Thumb Butte, Atacosa Range brs. S. 34° 25' W.  
 Land, mountainous and gently rolling.  
 Soil, stony and rocky; 4th rate.  
 Timber, some mesquite in gulches.  
 Mountainous land, 50.30 chs.  
 November 9th. At this cor. I set off 16° 49' S. on the  
 decl. arc; and at 11h. 44m. AM l.m.t., I observe the sun on  
 the meridian, the resulting lat. is 31° 37' N, or within  
 1' of the proper lat.  
 Thence I run  
 West on the 8th mile.  
 Over mountainous land, ascending.  
 4.10 Intersect line bet. secs. 7 and 12, E. bdy. of T. 21 S.,  
 R. 13 E., at a point from which the  $\frac{1}{4}$  sec. cor. <sup>as described by the surveyor general</sup> brs.  
 N. 0° 11' W., 28.50 chs. dist.  
 Set a granite stone, 24 X 12 X 8 ins., 18 ins. in the  
 ground, for the closing cor. of secs. 7 and 12, marked  
 C C on N.,  
 B F NO 3 on S.,  
 S 7 on E.,  
 S 12 on W face, and raise a mound of stone, 3 ft. base,  
 2 ft. high, N. of cor. Pits impracticable.  
 14.00 Ridge bears N.E. and S.W.; descend.  
 40.00 Set a granite stone, 24 X 8 X 8 ins., 18 ins. in the  
 ground, for the  $7\frac{1}{2}$  mile cor., marked  
 $7\frac{1}{2}$  M on E.,  
 B F NO 3 on S.,  
 P L on N. face; and raise a mound of stone 3 ft. base,  
 2 ft. high, ~~S~~ of cor. Pits impracticable.  
 40.60 Enter dry wash course W.  
 48.20 Leave wash course S.W.; ascend.  
 78.00 Top of S. slope of mesa, descend over rolling land.  
 80.00 Set a granite stone, 24 X 8 X 6 ins., 18 ins. in the  
 ground, for the 8th mile cor., marked  
 8 M on E.,  
 B F NO 3 on S.,  
 P L on N. face, from which  
 A Palo Verde, 8 ins. diam., bears N. 1° 45' E., 76 lks.  
 dist., marked T 21 S R 13 E S 12 8 M B T, No other trees  
 within limits. Raise a mound of stone, 3 ft. base, 2  
 ft. high, ~~B~~ of cor. Pits impracticable.  
 Land, mountainous and rolling.  
 Soil, gravelly and stony; 3rd and 4th rate.  
 Timber; scattering mesquite and palo verde.  
 Undergrowth; mesquite and cacti.  
 Mountainous land, 40.60 chs.
- November 9, 1905.
- November 10: At 8 h. 40m. AM l.m.t., I set off 31° 37' N on  
 the lat. arc; and 17° 04' S., on the decl. arc; and  
 determine a true meridian with the solar at the 8 mile cor.  
 Thence I run
- West, on the 9th mile.  
 Over rolling land, descending.  
 3.78 Intersect line bet. secs. 11 and 12, T. 21 S., R. 13 E.  
 at a point from which the  $\frac{1}{4}$  sec. cor. <sup>as described by the surveyor general</sup> brs. N. 05° 05' W.,  
 29.32 chs. dist.  
 Set a limestone, 24 X 14 X 10 ins., 18 ins. in the ground,  
 for the closing cor. of secs. 11 and 12, marked  
 C C on N.,  
 B F NO 3 on S.,  
 S 12 on E.,  
 S 11 on W. face, from which  
 A palo verde, 4 ins. diam., brs. N. 4 $\frac{1}{2}$ ° W., 55 lks. dist.  
 marked T 21 S R 13 E S 11 B T. No other trees within  
 limits. Raise a mound of stone, 3 ft. base, 2 ft. high,  
 N. of cor.  
 19.50 Small dry wash course S.W.  
 40.00 Set a sandstone, 24 X 10 X 8 ins., 18 ins. in the ground,  
 for the  $8\frac{1}{2}$  mile cor., marked

## NORTH BOUNDARY OF BACA FLOAT NO. 3.

	8½ M on E., B F NO 3 on S., P L on N. face, and raise a mound of stone 3 ft. base, 2 ft. high, S. of cor. Pits impracticable.
62.20	Dry wash 30 lks. wide course S.W. Set a sandstone, 24 X 10 X 7 ins., 18 ins. in the ground, for the 9th mile cor., marked
80.00	9 M on E., B F NO 3 on S., P L on N. face, and raise a mound of stone, 3 ft. base, 2½ ft. high, S. of cor. Pits impracticable. From this cor. Bull Water Knob, Tumacacori Range, brs. N. 80° 30' W. Land, rolling, Soil, stony; 4th rate. Timber; scattering mesquite and palo verde. Undergrowth; mesquite, palo verde and cacti. November 10:- At this cor. I set off 17° 06' S., on the decl. arc; and at 10h.44m.A.M. 1.m.t., I observe the sun on the meridian; the resulting lat. is 31° 37' N which is identical with the proper lat.
	Thence west on the 10th mile line. Over rolling land; descending. Enter draw course S.W.
2.80	Intersect line bet. secs. 10 and 11 T. 21 S. R. 13 E. at a point from which the $\frac{1}{4}$ sec. cor. <sup>as determined by the general</sup> first N. 06° 02' W. 28.90 chs. dist. Set a granite stone, 24 X 6 X 6 ins., 18 ins. in the ground, for the closing cor. of secs. 10 and 11, marked
3.79	C C on N., B F NO 3 on S., S 11 on E., S 10 on W face, from which A mesquite, 15 ins. diam., brs. N. 57½° W., 130 lks. dist., marked T 21 S R 13 E S 10 B T, A mesquite 10 ins. diam., brs. N. 53° E., 33 lks. dist., marked T 21 S R 13 E S 11 B T. And raise a mound of stone 2 ft. base, 1½ ft. high, N. of cor. Road brs. N.E. and S.W.
7.55	Leave draw; ascend.
9.50	Top, thence over gently rolling land, through dense brush.
11.00	Set a sandstone, 24 X 10 X 6 ins., 18 ins. in the ground, for the 9½ mile cor., marked
40.00	9½ M on E., B F NO 3 on S., P L on N. face, from which A mesquite, 8 ins. diam., brs. S. 88½° W., 184 lks. dist. marked B F NO 3 9½ M B T. No other trees within limits. Raise a mound of stone, 3 ft. base, 1½ ft. high, S. of cor. Pits impracticable.
47.30	Dry wash 30 lks. wide course S.W.
50.00	Enter mesa.
62.00	Leave mesa; begin gradual descent. Set a sandstone, 24 X 10 X 10 ins., 18 ins. in the ground, for the 10th mile cor., marked
80.00	10 M on E., B F NO 3 on S., P L on N. face and raise a mound of stone 3 ft. base, 2 ft. high, S. of cor. Pits impracticable. From this cor. Mt. Wrightson, Santa Rita Range, brs. N. 35° E. Sopori Knob brs. N. 54° 50' W. Land, rolling and level. Soil, gravelly and stony; 4th rate. Timber; scattering mesquite and palo verde. Undergrowth; tesotillo, mesquite, palo verde and cacti. Dense undergrowth; 69.00 chs.
	November 10, 1905.
	November 11: At 8 h 35m.A.M. 1.m.t., I set off 31° 37' N on the lat. arc; and 17° 20' S on the decl. arc; and determine

NORTH BOUNDARY OF BAVA FLOAT NO. 3.

a true meridian with the solar at the 10 th mile cor.  
Thence I run  
West, on the 11th mile.  
Descending gradually through dense brush.

From this cor

Mt. Hopkins, Santa Rita Range, brs. N.  $28^{\circ} 35'$  E.

Thumb Butte, Atacosa Range, brs. S.  $65^{\circ}$  W.

At this cor. of the Baca Float No 3, lat.  $31^{\circ} 26'$  N., long.  $111^{\circ} 42'$  W., I set off  $20^{\circ} 56'$  S., on the decl. arc; and at 2 h. 45 m., l.m.t., I determine with the solar a meridian and mark a point thereof on a stone firmly set in the ground about 5 chs. N. of the cor.

November 26, 1905.

November 27: At 03 ha. m., l.m.t., by my watch which is identical with the local mean time, I observe Polaris at its Western elongation in accordance with the Manual of Instructions and mark a point in the line thus determined on a peg driven in the ground about 5 chs. N. of my station.

November 27: At 8 h. 30 m., a.m., l.m.t., I lay off the azimuth of Polaris  $1^{\circ} 24'$  to the W. and mark the meridian thus determined by cutting a small groove on the stone set Nov. 27th., on which the meridian falls .2 ins. west of the mark determined by the solar on Nov. 26th.

At 9 h., a.m., l.m.t., I set off  $31^{\circ} 26'$  N. on the lat. arc; and  $21^{\circ} 04'$  on the decl. arc; and determine a true meridian with the solar at same cor. On the meridian thus determined I mark a cross on the rock already set 5 chs. N. of my station. This cross falls 1 inch west of the meridian established by the Polaris observation.

The solar attachment by p.m. and a.m. observations defines the positions for the meridian respectively  $11^{\circ}$  E. and  $6^{\circ}$  W. of the meridian established by Polaris obser vation. therefore I conclude that the adjustments of the instru ments are satisfactory.

The magnetic bearing of the true meridian at 9 h. 10 m.a.m. is N.  $13^{\circ} 05'$  W. The angle thus determined gives the magnetic declination  $13^{\circ} 05'$  E.

Thence East SOUTH BOUNDARY OF BACA FLOAT NO. 3.

Thence East on the 25th mile.

Over level land, through oak timber.

1.15 Dry wash 60 lks. wide course N.E.

SOUTH BOUNDARY MINERAL SEGREGATION OF BACA FLOAT NO. 3.

On December 16th. 1905 I proceed to the 46 mile corner on the East boundary of the Baca Float No.3., and after marking on the stone heretofore set for the corner the additional

M S SE COR. on the N.W. face

I proceed to survey the boundaries of the Mineral Segregation of the Baca Float No.3.

Survey commenced Dec. 16th. 1905 and executed with a W. & L.E. Gurley, light mountain transit No. 4607 with a solar attachment, the horizontal limb of which is provided with two double verniers, placed opposite to each other and reading to single minutes, which is also the least count of the latitude and declination arcs.

The instrument was examined, tested on the true meridian at Phoenix, found correct and was approved by the Surveyor General for Arizona.

I examine the adjustments of the instrument and correct the level and collimation errors, then to test the solar apparatus by comparing its indications ~~by~~ resulting from solar observations made during a.m. and p.m. hours. I proceed as follows;

At the 46 mile corner of the Baca Float No.3 which is also the S.E. corner of the Mineral Segregation, latitude  $31^{\circ}34'N.$  longitude  $10^{\circ}51'W.$ , I set off  $23^{\circ}18'S.$  on the decl. arc and at 3 h., p.m., l.m.t., determine a meridian with the solar and mark a point thereof on a stone firmly set in the ground about 5 chains N. of my station.

Dec. 16th, 1905.

~~11 41 M~~  
Dec. 17th. At ~~11 33 M~~, a.m.l.m.t., by my watch, I observe Polaris at its western elongation, in accordance with the Manual of Instructions, and mark a point in the line thus determined on a peg firmly driven in the ground about 5 chs. N. of my station.

At 9 h., a.m., l.m.t., I lay off the ~~south~~ of Polaris,  $1^{\circ}-24'$  to the ~~EAST~~ and mark a point in the meridian thus determined by cutting a small groove in the stone set on Dec. 16th., on which the meridian falls  $\frac{1}{2}$  ins. east of the mark determined with the solar.

At 9 h. 30 m., A.M., L.M.T., I set off  $31^{\circ}34'N.$  on the lat. arc and  $23^{\circ}20'S.$  on the decl. arc and mark a point in the meridian thus determined with the solar by a cross on the stone already set 5 chs. N. of my station. This mark falls  $\frac{1}{2}$  ins. east of the meridian established by Polaris observation,

The solar apparatus by p.m. and a.m. observations defines positions for the meridian respectively about  $11^{\circ}W.$  and  $11^{\circ}E.$  of the meridian established by Polaris observation. Therefore I conclude that the adjustments of the instrument are satisfactory.

The magnetic bearing of the true meridian at 9 h. 50 m.a.m., is  $N.13^{\circ}-10'W.$ , the angle thus determined gives the magnetic declination  $13^{\circ}-10'E.$

Thence I run  
West on the 1st. mile  
Over rolling land, descending through scattering oak and mesquite timber.

15.50 Road from Tubac to Patagonia, bears N.W. & S.E.  
40.00 Set a granite  $24 \times 8 \times 6$  ins.  $\frac{1}{2}$  ins. in the ground for the  $\frac{1}{2}$  mile corner, marked

$\frac{1}{2}$  M on the E. and

B F NO 3 M S on the N. face, from which

An oak 10 ins. in diam. bears  $N.33\frac{1}{4}^{\circ}W.$ .77 lks. dist. and

An oak 8 ins. in diam. bears  $S.47\frac{1}{2}^{\circ}E.$ .36 lks. dist. both marked B F NO 3 M S  $\frac{1}{2}$  M BT and raise a mound of stone 2 ft.

Chains.	base and $1\frac{1}{2}$ ft. high, $\frac{1}{2}$ of the corner. Dec. 17th. At this corner I set off $23^{\circ} 20'$ S. on the decl. arc and at 11 h, 56m <sup>51</sup> .l.m.t., observe the sun on the meridian, the resulting lat. is $31^{\circ} 34'$ N. or within one minute of the proper lat.
44.00	Draw, bears N.W.; ascend.
47.00	Ridge, bears N.W. & S.E.; descend.
52.00	Draw course N.W.; ascend.
56.00	Ridge, bears N.W. & S.E.; descend.
70.60	Gulch, 40 lks. wide, course S., ascend
80.00	Set a granite 24 x 8 x 6 ins. 18 ins. in the ground for the 1 mile corner, marked 1 M on the E. and B F NO 3 M S <del>is</del> <sup>on</sup> the N., from which An oak 6 ins. in diam. bears N. $65\frac{1}{2}$ E. 38 lks. dist. and An oak 6 ins. in diam. bears N. $42\frac{1}{2}$ E. 50 lks. dist. and An oak 8 ins. in diam. bears S. $65\frac{1}{2}$ E. 166 lks. dist. and An oak 4 ins. in diam. bears S. $26\frac{1}{4}$ E. 97 lks. dist. all marked B F NO 3-M S 1 M B T. and raise a mound of stone 2 ft. base and $1\frac{1}{2}$ ft. high, $\frac{1}{2}$ of the corner.

Land mountainous and rolling  
Soil, stony and gravelly, 4th. rate  
Timber, scattering oak.  
Undergrowth, oak.  
Mountainous land 65.00 chs.

December 17th. 1905.

Chains.	December 16th. At 8 h. 50 m., a.m., l.m.t., I set off $31^{\circ} 34'$ N. on the lat. arc and $23^{\circ} 21'$ S. on the decl. arc and determine a true meridian with the solar at the 1 mile corner of the mineral segregation. Thence I run West on the 2nd. mile. Over mountainous land, ascending
3.00	Ridge, bears N. & S., descend
5.00	Gulch, 20 lks. wide, course S., ascend
8.00	Ridge, bears N. & S., descend
14.00	Enter gulch, 40 lks. wide, course S.
24.00	Leave gulch, ascend
30.00	Spur extending S.E., descend
33.00	Gulch, 30 lks. wide, course S.E.
40.00	Set a granite stone 21 x 6 x 6 ins. 16 ins. in the ground for the $1\frac{1}{2}$ mile corner, marked $1\frac{1}{2}$ M on the E. and B F NO 3 M S on the N. face, from which

An oak 18 ins. in diam. bears  $D76^{\circ}E. 370$  chs. dist.  
An oak 104 ins. in diam. bears  $D55^{\circ}E. 509$  chs. dist.  
and raise a mound of stone 2 ft. base and  $1\frac{1}{2}$  ft. high  
of the corner.

Chains.	Dec. 16th. AT this corner I set off $23^{\circ} 22'$ S. on the decl. arc and at 11 h. 57m <sup>51</sup> .l.m.t., observe the sun on the meridian, the resulting latitude is $31^{\circ} 34'$ or within 1' of the proper lat. Spur, extends S. descend
51.00	Gulch, 20 lks. wide, course S., ascend <del>km</del>
58.00	Top, bears N. & S. thence level
70.00	Descend, bears N. & S.
80.00	Set a granite stone 21 x 8 x 6 ins. 16 ins. in the ground for the 2 mile cor. marked 2 M on the E. and

B F NO 3 M S on the N., from which  
An oak 10 ins. in diam. bears  $N.40^{\circ}E. 120$  lks. dist. ~~an oak 12 ins. in diam. brs 11.10W. 85 lks. dist.~~  
An oak 10 ins. in diam. bears  $S.86^{\circ}E. 138$  lks. dist. ~~an oak 14 ins. in diam. brs 51.8W. 310~~  
And raise a mound of stone 2 ft. base and  $1\frac{1}{2}$  ft. high  
of the corner.

Land, mountainous  
Soil, stony and rocky, 4th. rate.  
Timber, scattering oak.  
Mountainous land 80.00 chains.

December 18th. 1905

## SOUTH BOUNDARY OF MINERAL SEGREGATION BACA FLOAT NO.3.

Chains.	
	December 19th. 1905. At 8 h. 45 m., a.m., l.m.t., I set off $31^{\circ} 34'$ N. on the lat. arc and $23^{\circ} 23' S.$ on the decl. arc and determine a true meridian with the solar at the 2 mile corner. Thence I run West on the 3dr. mile. Over mountainous land, descending. Gulch, 20 lks. wide, course S. ascend Top of S. slope of ridge, descend Gulch, 40 lks. wide, Course S.E. ascend along N. slope of ridge Ridge, bears N.W. & S.E. Point for $2\frac{1}{2}$ mile corner falls on a granite boulder in place 5 x 4 x 2 ft. above the ground. Cut a cross (x) for exact cor point and marked $2\frac{1}{2}$ M to the E. and B F NO 3 M S to the N. of the cor., from which An oak 6 ins. in diam. bears $N.46\frac{1}{2}^{\circ}W.$ 98 lks. dist. and An oak 8 ins. in diam. bears $N.46^{\circ}E.67$ lks. dist. both marked B F NO 3 M S $2\frac{1}{2}$ M B T., and raise a mound of stone 2 ft. base and $1\frac{1}{2}$ ft. high N. of the corner. Dec. 19th. At this corner I set off $23^{\circ} 24'$ S. on the decl. arc and at 14 h. 57 m. l.m.t., observe the sun on the meridian, the resulting lat. is $31^{\circ} 34'$ N. or within one minute of the proper lat. Descending Gulch, 20 lks. wide, course S. ascend Head of draw, course S. Spur, extending S., descend Set a granite stone 30 x 12 x 8 ins. 24 ins. in the ground for the 3 mile corner, marked 3 M on the E. and B F NO 3 M S on the N. face, from which An oak 24 ins. in diam. bears S. 284 lks. dist. and A mesquite 8 ins. in diam. bears S. $54\frac{1}{4}^{\circ}W.$ 330 lks. dist. and An oak 20 ins. in diam. bears N. $86^{\circ}W.$ 137 lks. dist. all marked B F NO 3 M S 3 M B T., and raise a mound of stone 2 ft. base and $1\frac{1}{2}$ ft. high N. of the corner. Land, mountainous Soil, stony and rocky, 4th. rate Timber, scattering oak and mesquite Mountainous land 80.00 chs. December 19th., 1905.
4.20	Dec. 20th. At 8 h. 45 m., a.m., l.m.t., I set off $31^{\circ} 34'$ N. on the lat. arc and $23^{\circ} 24'$ S. on the decl. arc and determine a true meridian with the solar at the 3 mile corner. Thence I run West on the 4th. mile, Over mountainous land, descending through scattering oak and mesquite. Gulch, 30 lks. wide, course S.E., ascend Spur, extends S., descend Gulch, 30 lks. wide, course S.E., ascend Set a granite stone 24 x 12 x 10 ins. 18 ins. in the ground for the $3\frac{1}{2}$ mile corner marked $3\frac{1}{2}$ M on the E. and B F NO 3 M S on the N. face from which An oak 18 ins. in diam. bears S. $27\frac{1}{2}^{\circ}W.$ 67 lks. dist. and An oak 12 ins. in diam. bears N. $5\frac{1}{2}^{\circ}E.$ 21 lks. dist. both marked B F NO 3 M S $3\frac{1}{2}$ M B T. Set a granite stone 24 x 16 x 12 ins. 18 ins. in the ground for the S.W. corner of the Mineral Segregation of Baca Float No.3., marked B F NO 3 M S SW COR. on the N.E. face, from which An oak 6 ins. in diam. bears N. $66\frac{1}{2}^{\circ}E.$ 43 lks. dist. and An oak 12 ins. in diam. bears S. $43\frac{1}{4}^{\circ}E.$ 144 lks. dist. and An oak 24 ins. in diam. bears S. $23^{\circ}E.$ 38 lks. dist. and An oak 8 ins. in diam. bears N. $46^{\circ}W.$ 58 lks. dist. all marked B F NO 3 M S SW COR B T., and raise a mound of stone 3 ft. base and 2 ft. high N. of the corner.

## WEST BOUNDARY OF MINERAL SEGREGATION BACA FLOAT NO. 3.

Chains 80.00	Cut a cross (X) on a granite boulder in place 12x12x12 ins. above the ground at the exact point for the 7 mile cor. and mark 7 M on the S. and B F NO 3 M S on the E. face, from which An oak 16 ins. in diam. brs. N. 85° E., 207 lks. dist., and An oak 6 ins. in diam. brs. N. 83° E., 73 lks. dist., and An oak 12 ins. in diam. brs. N. 30° W., 93 lks. dist., and An oak 6 ins. in diam. brs. S. 44° W., 203 lks. dist., all marked B F NO 3 M S 7 M B T, and raise a mound of stone 2 ft. base and 1½ ft. high <del>edge</del> of corner. Land, mountainous Soil, stony and rocky, 4th rate. Timber, scattering oak and mesquite. Mountainous land 80 chs.
-----------------	---

December 23rd, 1905.

December 24th, 1905. At 9h a.m.; l.m.t., I set off 31°37' N. on the lat.arc and 23°24' S. on the decl.arc and determine a true meridian with the solar at the 7 mile cor.

Thence I run  
North on the 8th mile.

Over rolling land, descending, through scattering timber.  
Gulch, 30 lks. wide, course S. W., ascend

Ascend gradually

Ridge, bears E. and W., descend

Gulch, 60 lks. wide, course S.S.W., ascend

Intersect the N. bdy. of the Baca Float No. 3 at a point from which the 3½ mile cor. bears E. 3.14 lks. dist. Set a granite stone 30 x 20 x 20. ins. in a mound of stone marked C C on the S. and ~~edge~~

B F NO 3 M S N W COR on the S.E. face, and raise a mound of stone 3 ft. base 2 ft. high S. of the corner.

December 24th, 1905.

N O T E:

In order to include the mineral lands lying adjacent to the Hacienda de Santa Rita, I found it necessary to extend the mineral segregation one-half mile further W.

## GENERAL DESCRIPTION.

The Baca Float No. 3, embraces portions of Tps. 21, 22 and 23 S. R's. 13, 14 and 15 E. of the Gila & Salt River Base and Meridian, also portions of the Tumacacori and Calabazas Land Grants, (unconfirmed) and a portion of the San Jose de Sonoita Land Grant (confirmed) and is situated in Santa Cruz County, Arizona.

The Salero and Alto Mines, and other mining claims are situated in the northeastern portion of the grant. Most of these claims have been worked since 1860.

The land generally, is suitable for grazing purposes while a great portion of the land along the Santa Cruz Valley, and within this grant, is suitable for agricultural purposes. Many settlers have located within this grant, and are cultivating the land. The grant is well watered by a number of springs, and also by the Santa Cruz River and Sonoita Creek. There is oak timber in the northeastern portion and cottonwood, mesquite and ash is along the Santa Cruz River and Sonoita Creek. The New Mexico & Arizona Railroad runs through the southeastern portion of the grant.

*Philip Conroy*  
U. S. Deputy Surveyor.

## RETRACEMENT OF BOUNDARIES OF TUMACACORI AND CALABAGAS GRANTS.

48

Chains	In order to enable me to close the N.E.& S.W. portions of the Baca Float No. 3, I discontinue the survey of the exteriors temporarily and proceed to retrace the boundaries of the Calabagas and Tumacacori Land Grants. ----- Survey commenced November 14th, 1905. Proceed to the Post No. 1 of the Tumacacori Private Land Grant (Fundo Legal) heretofore described in these notes. November 14th. At this corner I set off 31° 36' N.on the lat.arc and 18° 12' S.on the decl.arc and at 9h., a.m., l.m.t. determine a true meridian with the solar. Thence I run East on a random line. Across the Santa Cruz Valley through scat. mesquite. 8.80 Santa Cruz River 1 ch. wide, course N. 47.20 Road, bears N. and S. 90.60 Begin steep ascent, leaving valley 93.50 Top of mesa, bears N. & S. Thence over level & rolling land 160.15 Fall 21 lks.S.of the remains of Post No. 3 of the Fundo Legal which is a mound of stone 4 ft. base and 2 ft. high, with the decayed remains of a 4 x 4 post in the center. From this I determine the true course and distance of this portion of the North Boundary of the Fundo Legal to be N. 89° 55' E., 160.15 chs.  Nov. 14th. At this corner I set off 18° 12' S.on the decl. arc and at 11h 45m. l.m.t., observe the sun on the meridian, the resulting lat. is 31° 36' N.or within one minute of the proper lat. Thence I run South on a random line from Post No. 3 of the Fundo Legal. Over rolling land, ascending, through scattering mesquite timber and underbrush 102.90 Fall 35 lks.W.of a 4x4 mesquite post in a mound of stone marked T C-P L CF L A, being the angle corner of the East boundary of the Fundo Legal. From this I determine the true course of this line to be S. 0° 12' E. 102.90 chs. November 14th, 1905. ----- November 15th. I return to Post No. 1 of the Fundo Legal and at 9h. a.m., l.m.t., I set off 31° 36' N.on the lat.arc and 18° 25' S.on the decl.arc and determine a true meridian with the solar at Post No. 1. Thence I run S. 89° 55' W. on a random line over level land through dense mesquite timber. Leave Santa Cruz Valley, begin ascent, bears N. & S. Top of mesa, bears N. & S., thence over rolling land Fall 10 lks. S. of Post No. 2 of the Fundo Legal. From this I determine the true course and distance of this line to be S. 89° 59' W. 77.59 chs. Nov. 15th. At this corner I set off 18° 25' S.on the decl. arc and at 11h 45m. l.m.t., observe the sun on the meridian the resulting lat. is 31° 34' N.or within one minute of the proper lat. Thence I run South on a random line from Post No. 2 of the Fundo Legal. Over rolling land, through scattering mesquite timber. Fall 17 lks.E.of a mesquite post 4x4 ins.in mound of stone marked T C P L C F L A, being the angle corner on the West boundary of the Fundo Legal. From this I determine the true course of this line to be S. 0° 06' W. 103.89 chs. November 15th, 1905. ----- November 16th, 1905. At 8h 45m., a.m., l.m.t., I set off 31° 34' N.on the lat.arc and 18° 40' S.on the decl.arc and determine a true meridian with the solar at the Post
--------	---

## RETRACEMENT OF BOUNDARIES OF TUMACACORI AND CALABASAS GRANTS.

Chains marking the angle corner in the west boundary of the Tumacacori Grant (Fundo Legal)

Thence I run

S.  $25^{\circ} 37'$  E. on a random line.

Over rolling land.

80.00 Raise mound of stone on N.slope of hill to mark 1 mile.  
At this point I set off  $18^{\circ}43'S.$  on the decl.arc and at 12h $48'm.$ , l.m.t., observe the sun on the meridian, the resulting lat.is  $31^{\circ}35'N.$  or within one minute of the proper lat.

Thence I continue S.  $25^{\circ} 37'$  E.

160.00 Raise a mound of stone on top of spur extending N.E. to mark the 2 mile point

182.00 Raise a mound of stone to mark line. From this point the dome of the Tumacacori Missions bears due N.about 3 miles distant.

November 16th, 1905.

-----  
November 17th.

At 9h., a.m., l.m.t., I set off  $31^{\circ}35'N.$  on the lat.arc and  $18^{\circ}54'S.$  on the decl.arc and determine a true meridian with the solar at the 182 chain point marked on the 16th.

Thence I continue S.  $25^{\circ} 37'$  E.

240.00 Raise mound of stone in canyon to mark 3 mile point

320.00 Raise mound of stone on S.slope of mesa to mark 4 mile point.

At this point I set off  $18^{\circ}54'S.$  on the decl.arc and at 12h., l.m.t., I observe the sun on the meridian, the resulting lat.is  $31^{\circ}31'N.$  or within one minute of the proper lat.

400.00 Raise a mound of stone to mark the 5 mile point.

November 17th, 1905.

-----  
November 18th, 1905.

At 8h 45m., a.m., l.m.t., I set off  $31^{\circ}31'N.$  on the lat.arc and  $19^{\circ}09'S.$  on the decl.arc and determine a true meridian with the solar at the 5 mile point marked on the 17th.

Thence I continue S.  $25^{\circ} 37'$  E. on a random line.

480.00 Raise mound of stone to mark 6 mile point.

560.00 Raise mound of stone to mark 7 mile point.

640.00 Raise mound of stone to mark 8 mile point.

At this point I set off  $19^{\circ}14'S.$  on the decl.arc and at 12h observe the sun on the meridian, the resulting lat.is  $31^{\circ}28'N.$  or within one minute of the proper lat.

722.10 Fall 112 lks.S.W.of Post V of the Fundo Legal.

From this I determine the true course of this line to be S.  $25^{\circ} 42'$  E. 722.10 chs.

Thence I run

S.  $43^{\circ}W.$  on a random line to determine the N.boundary of the Calabasas Grant.

Over rolling land ascending

40.00 Raise mound of stone to mark  $\frac{1}{2}$  mile point.

80.00 Raise mound of stone to mark 1 mile point.

111.08 Fall 16 lks.S.E.of the remains of Post N.W.Cor.of the Calabasas Grant (Estancia) which consists of the decayed remains of a 4 x 4 post in mound of stone.

From this I determine the true course of this line to be S.  $43^{\circ} 05' W.$  111.08 chs.

November 18th, 1905.

## RETRACEMENT OF THE BOUNDARIES OF THE TUMACACORI AND CALABASAS GRANTS

November 19th. 1905.

I return to Post V. of the Fundo Legal.  
At 9h, 25 m., a.m., l.m.t., I set off  $31^{\circ}27'$  N. on the lat. arc and  $19^{\circ}24'$  S. on the decl. arc and determine a true meridian with the solar at Post V of the Fundo Legal.

Thence I run

N.  $43^{\circ}5'$  E. on a random line.

- |        |  |
|--------|--|
| 6.00   | Enter Calabasas Canyon, course N.E.  |
| 40.00  | Raise mound of stone to mark $\frac{1}{2}$ mile point  |
| 54.70  | Leave canyon, ascend   |
| 58.00  | Ridge, bears N.E.  |
| 87.00  | Enter Santa Cruz Valley  |
| 120.00 | Falls in cultivated field. Search diligently for traces of the center post common to both the Tumacacori and Calabasas Grants but fail to find any,<br>At this point I set off $19^{\circ}26'$ S. on the decl. arc and at 18 h, 45 m., l.m.t., observe the sun on the meridian, the resulting lat. is $31^{\circ}28'$ N. or within one minute of the proper lat. |
| 138.00 | Thence I continue N. $43^{\circ}5'$ E. on random line  |
| 155.00 | Santa Cruz River, 1 ch. wide, course N.W.  |
| 161.58 | Road from Tucson to Nogales, bears N. & S.   |
| 240.00 | Calabasas Hotel on line.<br>Raise mound of stone to mark 3 mile cor.   |

November 19th. 1905

November 20th. 1905

At 9 H. 30 M., a.m., l.m.t., I set off  $31^{\circ}29'$  N. on the lat. arc and  $19^{\circ}38'$  S. on the decl. arc. and determine a true meridian with the solar at the 3 mile point set on the 19th.

Thence I con tinue  
N.  $43^{\circ}5'$  E. on random line.

- |        |   |
|--------|---|
| 320.00 | Raise mound of stone to mark the 4 mile point   |
| 355.40 | Fall 38 lks. N.W. of the Post N.E. cor. of the Calabasas Grant.<br>From this I determine the true course and distance of this line to be N. $43^{\circ}8'$ E. 355.40 chs. |
| 14.00  | Thence I run<br>S. $43^{\circ}8'$ W.<br>Find no traces of Post IV of the Fundo Legal.   |

Then I return to Post N.E. cor. of the Estancia or Calabasas Grant.

At this corner I set off  $19^{\circ}40'$  S. on the decl. arc and at 18 h, 46 M., l.m.t., observe the sun on the meridian, the resulting lat. is  $31^{\circ}30'$  N. or within one minutes of the proper lat.

Thence I run

S.  $47^{\circ}$  E. on a random line.

- |        |   |
|--------|---|
| 80.00  | Raise mound of stone for 1 mile point.        |
| 160.00 | Raise mound of stone to mark the 2 mile point |

November 20th. 1905

November 21st. 1905.

At 9 h., a.m., l.m.t., I set off  $31^{\circ}29'$  N. on the lat. arc and  $19^{\circ}51'$  S. on the decl. arc and determine a true meridian with the solar at the 2 mile point set on the 20th.

Thence I continue

S.  $47^{\circ}$  E. on a random line

- |        |   |
|--------|---|
| 240.00 | Raise mound of stone for the 3 mile point.  |
| 320.00 | Raise mound of stone to mark the 4 mile point.  |
| 400.00 | Raise mound of stone to mark the 5 mile point.  |
| 480.00 | Raise a mound of stone to mark the 6 mile point.<br>At this point I set off $19^{\circ}53'$ S. on the decl. arc and at 18 h. 46 M., a.m., l.m.t., observe the sun on the meridian, the resulting lat. is $31^{\circ}26'$ N. or identical with the proper lat.<br>At this point I cease measurement but continue line S. $47^{\circ}$ E. and fall 75 lks. N.E. of Post S.E. Cor of Calabasas Grant.<br>From this I determine true c ourse to be S. $46^{\circ}5'$ E. |

*Philip Conley*

U. S. Deputy Surveyor.

## RETRACEMENTS CONNECTED WITH BACA FLOAT NO.3.

52-1

## Tumacacori Grant

January 4th. 1906,

Finding it necessary to make further retracements of the lines of the Tumacacori Private Land Grant (Fundo Legal) and of the Preliminary Survey of the San Jose de Sonoita Private Land Claim as surveyed by J.L.Harris in the year 1880, in order to properly plat same and for the purpose of calculating the areas of the conflicts between those grants and the Baca Float No.3, I now proceed to the Northern angle corner of the Eastern Boundary of the Tumacacori Grant where I set off  $31^{\circ}34'N$  on the lat. arc, and  $22^{\circ}44'S$  on the decl. arc and determine a true meridian with the solar. AT  $9^{\circ}30' M.M.T.$

Thence I run S.  $26^{\circ}-12'E$ .

Chains.

44.00

62.00

300.00

Enter Josephine Canyon

Leave same, thence over broken land

Raise a mound of stone

At this point I set off  $22^{\circ}45'S$  on the decl. arc and at 10 h. 5 m. M.M.T., I observe the sun on the meridian, the resulting lat. is  $31^{\circ}32'N$  or withinn one minute of the proper lat.

551.20

Fall 290 lks. S.W. of an angle corner of said Eastern boundary of the Tumacacori Land Grant (Fundo Legal) which is an old pine post 4x4x24 ins. above the ground in a mound of stone, partially rotted away but with the letters L.C.F.L.A, still distinguishable.

From this measurement and falling I determine the true course of the line to be S.  $26^{\circ}-30'E$ . 551.20 chs.

From this corner

I run N.  $53^{\circ}E$ .

Over rolling and broken land ascending

94.75

Fall 12 lks. North of post 4 x 4 x 24 ins. above the ground in a mound of stone marked T C PL C F L A, which marks another angle point in said Eastern boundary.

From this measurement and falling I determine the true course and distance of this line to be N.  $53^{\circ}-04'E$ . 94.75

From this corner

I run S.  $26^{\circ}-12'E$ .

Over broken land descending

13.94

Traces of corner or Post. NO.4 of the Tumacacori Grant hereinbefore described.

January 4th. 1906

## San Jose de Sonoita Grant.

January 6th. 1906

I now proceed to the angle point of the Southern Boundary of the preliminary Survey of the San Jose de Sonoita Private Land Grant on the San Cayetano Mountain.

At this corner I set off  $31^{\circ}30'N$  on the lat. arc and  $22^{\circ}31'S$  on the decl. arc and at 9 h. A.M. M.M.T., I determine a true meridian with the solar

Thence I run S.  $73^{\circ}-55'W$ .

Over mountainous land, descending

Closing corner of the Baca Float No.3.

3.40

Post 4 x 4 x 24 ins. above the ground in a mound of stone marked S P L C A.

Thence I run from this corner

S.  $30^{\circ}-1'W$ .

151.20

Fall 28 lks. S.E. of the remains corner No.8 of said preliminary survey, which is a rotted stump of a post in a depapitated mound of stone. I proceed to rebuild mound. From this measurement and falling I determine the true course of this line to be S.  $30^{\circ}-16'W$ . 62.70 chs.

V

- 52.26 From this corner I run N. $49^{\circ}$ -30'W  
 104.78 Post No.6 of the preliminary survey on line  
 Post No.7 of said survey on line.  
 At this corner I set off 22  $31'$  S on the decl. arc and at  
~~10~~ h.6 m., 1.m.t., I observe the sun on the meridian, the  
 resulting latitude is  $31^{\circ}29'$  or identical with the proper lat.
- 101.20 Thence I run N. $38^{\circ}$ -03'E.  
 Fall 25 lks. NW. of remains of the post marking an angle  
 post in the Northern boundary of the grant. From this  
 measurement and falling I determine the true course and dis-  
 tance of this line to be N. $38^{\circ}$ -17'E. 101.20 chains.
- 183.73 From this corner I run  
 N. $73^{\circ}$ -45'E.  
 Fall 57 lks. S.E. of the remains of the post marking another  
 angle in the Northern Boundary of the grant.  
 From this measurement I determine the true course and dis-  
 tance of this line to be N. $73^{\circ}$ -34'E. 183.73 chs.
- 14.18 From this corner I run  
 N. $78^{\circ}$ -18'E.  
 151.98 Closing corner of the Baca Float. No.3.  
 Post marking another angle point in the Northern Boundary  
 of said preliminary survey.

January 6th. 1906.

FINAL OATHS OF DEPUTY SURVEYOR AND HIS ASSISTANTS.

BOOK 2503

LIST OF NAMES.

A list of the names of the individuals employed by *W. G. Powers*

, United States Deputy Surveyor, to assist in running, measuring, and

marking the lines and corners described in the foregoing field notes of the survey of *the Salt River Meridian, extending from the 110° W. Meridian, through the State of Arizona, to the 112° W. Meridian, and thence westward to the California State Line*.

showing the respective capacities in which they acted:

*Walter Percival*, Chainman.

*John M. Mayer*, Chainman.

*H. B. Milliken*, Moundman.

*William Mallory*, Moundman.

*James Mallory*, Axman.

*James A. Sibley*, Axman.

*Frank D. Sain*, Flagman.

FINAL OATH OF ASSISTANTS.

We hereby certify that we assisted *W. G. Powers*

, United States Deputy Surveyor, in surveying all

those parts or portions of the *Survey of the Salt River Meridian, extending from the 110° W. Meridian, through the State of Arizona, to the 112° W. Meridian, and thence westward to the California State Line*.

of the *Gila and Salt River Base of Meridian, Territory of Arizona*,

which are represented in the foregoing field notes as having been surveyed by him and under his direction; and that said survey has been in all respects, to the best of our knowledge and belief, well and faithfully surveyed, and the corner monuments established, according to the instructions furnished by the United States Surveyor

General for *W. G. Powers*.

*Walter Percival*, Chainman.

*John M. Mayer*, Chainman.

*H. B. Milliken*, Moundman.

*William Mallory*, Moundman.

*James D. Nason*, Axman.

*Frank D. Sain*, Axman.

*Arthur, Pogue*, Flagman.

Subscribed and sworn to before me this *51* }  
day of *April 11, 1895*. }

*W. G. Powers*

## FINAL OATH OF UNITED STATES DEPUTY SURVEYOR.

I, Philip Contzen, United States Deputy Surveyor, do solemnly swear that, in pursuance of a contract received from United States Surveyor General for Survey of the Gila and Salt River Base and Meridian, bearing date of the 17th day of July 1905, I have well, faithfully, and truly, in my own proper person, and in strict conformity with the instructions furnished by the United States Surveyor General for Survey of the Gila and Salt River Base and Meridian, the Manual of Surveying Instructions, and the laws of the United States, surveyed all those parts or portions of the boundaries of the Baca Grant, the exterior of the Tumacacori, Calabazas and San Jose de Senoita land grants, and survey of Mineral Location of the Gila and Salt River Base and Meridian, Territory of Arizona.

River Base of meridian, in the Territory of Arizona, which are represented in the foregoing field notes as having been surveyed by me, and under my direction; and I do further solemnly swear that all the corners of said survey have been established and perpetuated in strict accordance with the Manual of Surveying Instructions, and the special written instructions of the United States Surveyor General for Arizona and in the specific manner described in the field notes, and that the foregoing are the original field notes of such survey; and should any fraud be detected, I will suffer the penalty of perjury under the provisions of an Act of Congress approved August 8, 1846.

Philip Contzen  
United States Deputy Surveyor.

Subscribed by said Philip Contzen, and sworn to before me  
this 2nd day of July 1906

Pascor Dale  
Commissioner

## APPROVAL.

## OFFICE OF THE UNITED STATES SURVEYOR GENERAL,

Phoenix At Nov 23<sup>rd</sup> 1906

The foregoing field notes of the survey of the boundaries of the Baca Grant, exterior of the Tumacacori, Calabazas and San Jose de Senoita land grants, and survey of Mineral Location of the Gila and Salt River Base and Meridian, Territory of Arizona

executed by Philip Contzen

under his contract No. 136, dated June 17 1905, 189, having been critically examined, and the necessary corrections and explanations made, the said field notes, and the surveys they describe, are hereby approved.

Frank A. Sibley  
United States Surveyor General.

I certify that the foregoing transcript of the field notes of the above-described surveys in \_\_\_\_\_, has been correctly copied from the original notes on file in this office.

## PRELIMINARY OATHS OF ASSISTANTS.

WE, C.B. Neiswender and Will Allen

do solemnly swear that we will well and faithfully execute the duties of chainmen; that we will level the chain upon even and uneven ground, and plumb the tally pins, either by sticking or dropping the same; that we will report the true distances to all notable objects, and the true lengths of all lines that we assist in measuring, to the best of our skill and ability, and in accordance with instructions given us, in the survey of

re-establishment of correct position of certain corners on the W. bdy. of Baca float No. 3, and retracement of bds. of Subac 1st.  
C.B. Neiswender, Chainman.

Will Allen, Chainman.

OCT 18 1907

115

66

In order to equalize the long measurement on the South half of the 14th mile, which proved to be 1 chain long, and the North 1/2 of the 25th mile, which was 1 chain short, on the West boundary of the Baca Float No. 3, I proceed to the 14 mile corner.

June 3rd. At 7:30 a.m., I set off  $31^{\circ}36'N.$  on the lat. arc;  $88^{\circ}14'W.$  on the decl. arc; and determine a true meridian with the solar.

I commence at the above named 14 mile corner, which is described in my original field notes. Knowing that the distance from the  $13\frac{1}{2}$  mile corner to the 14 mile corner is 1 chain too long, I run,

1.00

Set a sandstone  $34 \times 12 \times 10$  ins., 18 ins. in the ground, for 14 mile cor., marked B P No. 3 on E. face, P L on W. face and 14 M on S face, from which,

A mesquite,  $18\frac{1}{2}$  ins. diam., brs. S.  $8^{\circ}30'W.$ , 166 lks. dist., marked B P No. 3 14 M B T. 445 174

A mesquite,  $18\frac{1}{2}$  ins. diam., brs. S.  $8^{\circ}30'W.$ , 166 lks. dist., marked B P No. 3 14 M B T. 445 174

A mesquite,  $18\frac{1}{2}$  ins. diam., brs. S.  $8^{\circ}30'W.$ , 166 lks. dist., marked B P No. 3 14 M B T. 445 174

A mesquite,  $18\frac{1}{2}$  ins. diam., brs. S.  $8^{\circ}30'W.$ , 166 lks. dist., marked T 21 S R 13 E S 19 14 M B T. 445 174

Thence I run,

S.  $0^{\circ}3'11''E.$ , on 15th mile.

Over level land, through scattering mesquite timber and dense undergrowth.

6.00

Adobe house, 160 lks. E.

6.85

Wire fence brs. E. and W.

6.95

Intersect the North Boundary of the Tumacacori Private Land Grant (Fundo Legal) at a point from which Post No. 1 of said Grant brs. N.  $89^{\circ}59'W.$ , 78 lks. dist.

Set a granite stone  $34 \times 12 \times 12$  ins., 18 ins. in the ground for closing corner of Baca Float No. 3, marked C C on the N, T G on the S, and B P No. 3 on the E. face, from which,

A mesquite, 16 ins. in diam., brs. S.  $5^{\circ}45'W.$ , 131 lks. dist., marked T 21 S, R 13 E, S 19 T G B T. 445 174

A mesquite, 18 ins. diam., brs. N.  $19\frac{1}{4}^{\circ}E.$ , 28 lks. dist., marked B P No. 3 B T. 445 174

## RETRACEMENT OF BOUNDARIES OF TUBAC TOWNSITE.

June 5th. At 7:30 a.m., l.m.t., I set off  $31^{\circ}30' N$  on the lat.arc; and  $22^{\circ} 29' W.$  on the decl.arc, and determine a true meridian with the Solar, at the NE. corner of Tubac Townsite, which is a pine post  $3 \times 3$  ins.,  $1\frac{1}{2}$  ft. above the ground, firmly set, marked N E COR T T, from which,

A mesquite, 4 ins. diam., brs. N.  $76^{\circ}W.$  10 lks.dist. marked N E COR T T B T.

A mesquite, 4 ins. diam., brs. S.  $4^{\circ}30'W.$ , 38.5 lks.dist., marked N E COR T T B T.

Thence I run South on a true line.

9.20 C C of Raga Float No.3, as described in my original field notes.

20.00 Intersect sec. line, bet. secs.8 and 17, T.21 S., R.13 E.

40.00 S.E. Cor., which is a mesquite post,  $3 \times 3$  ins.,  $1\frac{1}{2}$  ft. above ground, firmly set, but without marks. I scribe same S.E. Cor. T T on N W face and B F No.3 on S.E. face, from which,

A willow tree  $3\frac{1}{2}$  ft.diam., brs. S.  $49^{\circ}25'E.$ , 132 lks.dist., marked S E COR T T B T.

Thence West on a true line,

20.00 Intersect line bet. secs.17 and 18, T 21 S., R.13 E.

40.68 S.W. Cor., which is a decayed stak with marks obliterated. I re-establish same and set a granite stone  $15 \times 10 \times 8$  ins., 10 ins. in the ground; marked S W C T T on N.E. face; and raise a mound of stone 3 ft. base,  $2\frac{1}{2}$  ft. high, N. E. of cor.

Thence N.on a true line.

20.00 Intersect sec.line bet. secs.7 and 18, RT.21 S., R.13 E.

30.95 C C of Raga Float No.3, which is a stone described in my original field notes.

40.00 N.W. cor., which is a granite stone  $5 \times 7$  ins., 6 ins. above the ground, marked T T one face. I chisel stone N.W. cor., and raise a mound of stone 3 ft. base,  $2\frac{1}{2}$  ft. high, SE. of cor.

Thence East on a true line.

20.00 Intersect sec.line bet. secs.7 and 8, T.21 S., R.13 E.

49.89 To the place of beginning.

Arizona, First Surveyor General  
of the Arizona Territory

At Phoenix, Arizona, April 27th, 1908.

## FINAL OATH OF UNITED STATES DEPUTY SURVEYOR.

I, Philip Contzen, United States Deputy Surveyor, do solemnly swear that, in pursuance of a contract received from United States Surveyor General for Arizona, bearing date of the 12th day of June, 1905, I have well, faithfully, and truly, in my own proper person, and in strict conformity with the instructions furnished by the United States Surveyor General for Arizona, the Manual of Surveying Instructions, and the laws of the United States, surveyed all those parts or portions of re-establishment of correct position of certain corrs. on N. bdy. of Baca float No. 3. and retracement of bdy. of Tubac Townsite.

of the

meridian, in the \_\_\_\_\_ of \_\_\_\_\_, which are represented in the foregoing field notes as having been surveyed by me, and under my direction; and I do further solemnly swear that all the corners of said survey have been established and perpetuated in strict accordance with the Manual of Surveying Instructions, and the special written instructions of the United States Surveyor General for Arizona and in the specific manner described in the field notes, and that the foregoing are the original field notes of such survey.

Philip Contzen  
United States Deputy Surveyor.

Subscribed by said Philip Contzen, and sworn to before me  
this 21st day of June, 1907

  
U. S. Commissioner, First Judicial District,  
Territory of Arizona, residing at Tucson.

## APPROVAL.

OFFICE OF THE UNITED STATES SURVEYOR GENERAL,

Phoenix, A. T., Sept 7<sup>th</sup>, 1907.

The foregoing field notes of the survey of a portion of the West bdy. of the Baca float N. 3 and the retracement of the exterior boundaries of the Tubac Townsite situated in Santa Cruz County, Territory of Arizona

executed by Philip Contzen, U. S. deputy surveyor under his contract No. 136, dated June 12<sup>th</sup> 1905, 100, having been critically examined, and the necessary corrections and explanations made, the said field notes, and the surveys they describe, are hereby approved.

Frank D. Ingalls  
United States Surveyor General.

I certify that the foregoing transcript of the field notes of the above-described surveys in \_\_\_\_\_, has been correctly copied from the original notes on file in this office.

United States Surveyor General.
