FIELD NOTES

OF THE SURVEY OF THE

West & North bdrs. and part of East bdy.
and RETRACEMENT & RESURVEY OF
parts of East and South bdrs. of
Township 8 South, Range 19 West

of the Gila and Salt River Base and Meridian,
In the State of Arizona

EXECUTED BY

Sidney E. Blout

In the capacity of U. S. Surveyor, under instructions dated May 27, 1912,
issued by the United States Surveyor General to govern surveys included in
Group No. 19, which were approved by the Commissioner of the General Land
Office, June 20, 1912, pursuant to authority contained in the Act of
Congress dated August 23, 1912.

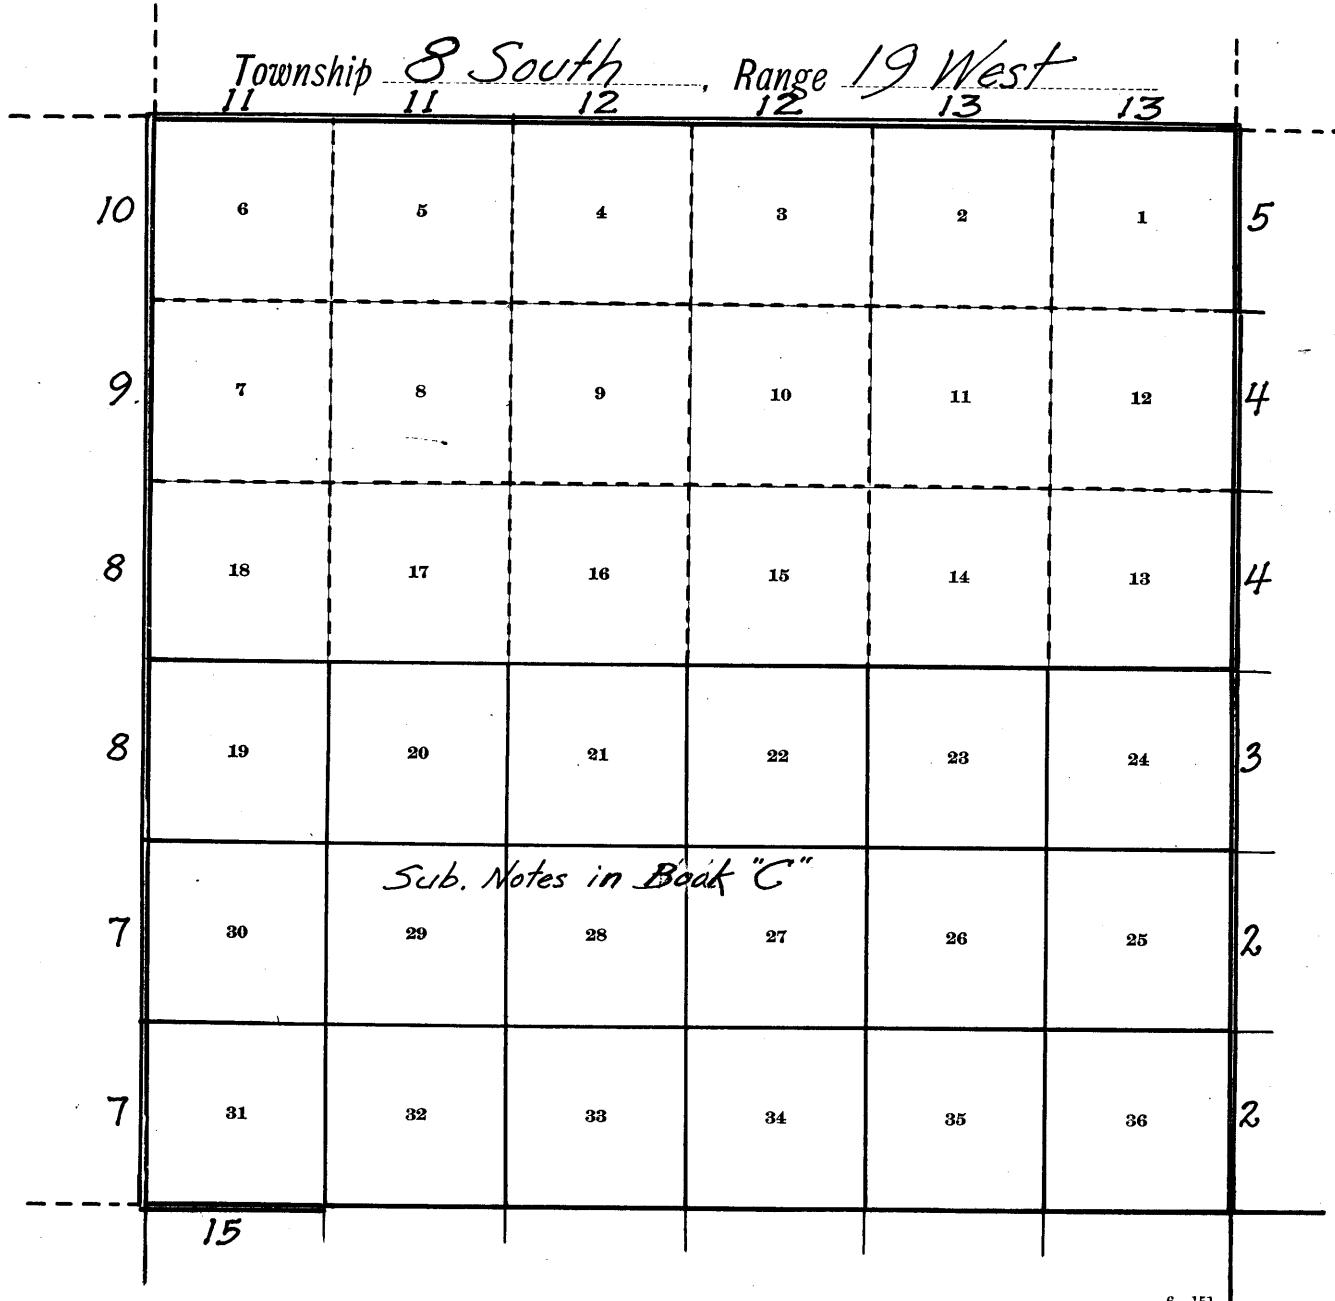

Survey, Retracement & Resurvey commenced November 16, 1912

Survey, Retracement & Resurvey completed December 9, 1912

- Previous accepted surveys.

Survey, Retracement and Resurvey of the E.bdry.of T.8 S., R.19 W.

Chains

Survey commenced November 16, 1912, and executed with a Young & Sons light mountain transit No. 10, with a Smith solar attachment. The horizontal limb is provided with two double verniers placed opposite to each other, reading to single minutes of arc, which is also the least count of the verniers of the latitude and declination arcs.

I examine the adjustments of the transit and correct the level and collimation errors; then to test the solar apparatus by comparing its indications resulting from solar observations, made during a.m., and p.m. hours with a meridian determined by observations on Polaris I proceed as follows;

At the corner of Tps. 8 and 9 S., Rs. 18 and 19 W., which is an iron post 3 ins. in diam. 12 ins. above ground, firmly set, marked ^{base cap} and witnessed as described by the Surveyor General. Latitude $32^{\circ}40'50''N.$, longitude $114^{\circ}09'28''W.$ At $5^{\text{h}}\ 42^{\text{m}}$ p.m. by my watch, which is correct local mean time I observe Polaris in accordance with the Manual of Instructions and mark a point in the line thus determined by a tack driven in a stake set firmly in the ground 5 chs. N. of the cor.

Time of U.C. of Polaris Nov. 16 for the meridian of Greenwich	
civil date and mean time	$9^{\text{h}}\ 46.3^{\text{m}}$ p.m.
Correction for $114^{\circ}W.$ long. subtract	<u>1.2</u>

U.C. Polaris Nov. 16 at place of obs.	$9^{\text{h}}\ 45.1^{\text{m}}$ p.m.
Polaris east of the meridian subtract	<u>5^h 42^m</u>
time of observation	<u>4^h 03.1</u>
Hour angle of Polaris at observation.	$1^{\circ}13'E.$

November 16, 1912.

November 17¹⁹¹² At $8^{\text{h}}\ 10^{\text{m}}$ l.m.t. I lay off the azimuth of Polaris $1^{\circ}13'$ to the west and mark the meridian thus determined by a tack driven in a stake set in the ground 5 chs. N. of the cor.

At $8^{\text{h}}\ 15^{\text{m}}$ a.m., l.m.t., I set off $32^{\circ}41'N.$ on the lat.arc, $18^{\circ}58'S.$ on the decl.arc and determine a meridian with the solar and mark a point thereof by a tack driven in the stake already set 5 chs. N. of the cor. This point falls 0.3 ins. east of the meridian determined by the Polaris observation.

At $2^{\text{h}}\ 45^{\text{m}}$ p.m., l.m.t. I set off $32^{\circ}41'N.$ on the lat.arc, $19^{\circ}03\frac{1}{2}'S.$ on the decl.arc and determine a meridian with the solar, and mark a point thereof by a tack driven in the stake already set 5 chs. N. of the cor. This point falls 0.2 ins. west of the meridian established by the Polaris observation.

The solar apparatus by a.m., and p.m. observations defines positions for meridians respectively about $0'10''$ east, and $\pm 0'16''$ west of the meridian determined by the Polaris observation; therefore I conclude that the adjustments of the instrument are satisfactory.

The magnetic bearing of the true meridian at $8^{\text{h}}\ 30^{\text{m}}$ a.m.l.m.t. is N $13^{\circ}54'W.$; the angle thus determined gives the mag. decl. $13^{\circ}54'E.$

November 17, 1912.

November 18¹⁹¹² At $8^{\text{h}}\ 00^{\text{m}}$ a.m., l.m.t. I set off $32^{\circ}41'N.$ on the lat.arc, $19^{\circ}11\frac{1}{2}'S.$ on the decl.arc and determine a meridian with the solar at the above described cor.

Thence I run

North, on a random line, bet. secs. 31 and 36; at 40.00 chs. I make a diligent search for the ^{ap} sec.cor. which I fail to

Survey, Retracement and Resurvey of the E.bdry.of T.8 S., R.19 W.
Chains

find; therefore I continue my line north and at 79.98 chs. fall 68 lks.E. of the cor. of secs. 25, 30, 31, and 36, which is a post greatly decayed with marks nearly obliterated with no trace of pits and mound of earth described as cor.accessories.

True course & dist. of this mile is therefore N.0°29'W. 79.98 chs.

The cor. of secs. 25, 30, 31, and 36 being in a state of dilapidation and the $\frac{1}{4}$ sec.cor. completely obliterated I resurvey this line as follows;

I return to the cor. of Tps. 8 and 9 S., Rs. 18 and 19 W.

Thence I run

N 0°29'W. on a true line, bet. secs. 31 and 36.

Over level sandy bottom land in lane.

- 1.80 Frank Leidendecker's wind mill bears west 100 lks.dist.
1.90 " " " water tank " " 120 " "
2.10 " " " house bears west 190 lks.dist.
39.98 Set an iron post 3 ft.long, 1 in.in diam.26 ins.in the ground for $\frac{1}{4}$ sec.cor.marked on brass cap $\frac{1}{4}$ S 36 in W. half and S 31 in E.half. Dig pits 18x18x12 ins.N. and S. of post 3 ft.dist., and raise a mound of earth $3\frac{1}{2}$ ft. base $1\frac{1}{2}$ ft.high W.of cor.
From this cor. A frame house bears N $78\frac{1}{2}^{\circ}$ W. 7.00 chs.dist. A wind mill bears N 63° W. 5.00 chs.dist.
44.30 Enter scattering mesquite timber and dense arrow weed and water moat undergrowth from 6 to 8 ft.high bears E.and W.
79.98 Intersect the old cor.of secs. 25, 30, 31, and 36. This cor. being in a state of dilapidation I destroy all evidence of the original cor. and re-establish it in its original position as follows;
Set an iron post 3 ft.long, 3 ins.in diam.24 ins.in the ground for cor.of secs. 25, 30, 31, and 36.marked on brass cap $\frac{1}{4}$ T 8 S in N.half, R 19 W. S.25 in NW.,R 18 W.S.30 in NE.S 31 in SE.and S 36 in SW. quadrant. from which A mesquite 12 ins.in diam.bears S $84\frac{1}{2}^{\circ}$ E.150 lks.dist.mk'd T 8 S.,R 18 W. S 31 BT.
A mesquite 5 ins.in diam.bears S $50\frac{3}{4}^{\circ}$ W. 76 lks.dist.marked T 8 S.,R.19 W. S 36 BT.
A mesquite 6 ins.in diam.bears N $48\frac{1}{2}^{\circ}$ W. 112 lks.dist.marked T 8 S.,R.19 W.,S 25 BT. No other trees available.
Dig pits 18x18x12 ins.in each sec. $5\frac{1}{2}$ ft.dist.and raise a mound of earth 4 ft.base 2 ft.high W.of cor.
Land level.
Soil sandy loam 1 st.rate.
Timber mesquite.

From the cor.of secs. 25, 30, 31, and 36, above described, I run, North, on a random line, bet.secs. 25 and 30. At 40.00 chs. make a diligent search for the $\frac{1}{4}$ sec.cor. which I fail to find; therefore I continue my line north. At 68.00 chs. a newly formed river channel has destroyed all evidence of the witness cor.to the cor.of secs. 19, 24, 25, and 30. which falls in the Gila River. At 120.27 chs. Fall 18 lks. E. of the point for $\frac{1}{4}$ sec.cor.bet.secs. 19 and 24 which I locate from the bearings and distances to the two old bearing trees described in the original field notes both of which I find. The corner monument could not be found after diligent search.

True course & dist. of line from cor.of secs. 25, 30, 31 and 36; therefore is N.0°5'W. 120.27 chs.

I. return to the cor.of secs. 25, 30, 31, and 36. and resurvey the line bet.this cor. and the point for the $\frac{1}{4}$ sec.cor. bet.secs. 19 and 24 as follows;

N 0°05'W. on a true line, bet.secs. 25 and 30.

Over level sandy river bottom land, through heavy mesquite timber and dense arrow weed undergrowth from 6 to 10 ft. high.

- 19.00 Leave mesquite timber bears E.and W., enter cottonwood timber bears E.and W.

- 40.09 Set an iron post 3 ft.long, 1 in.in diam.26 ins.in the ground

(3)

BOOK 2643

Survey, Retracement and Resurvey of the E.bdry.of T.8 S., R.19 W.

Chains

- for $\frac{1}{4}$ sec.cor. marked on brass cap $\frac{1912}{14}$ S.25 on W.half, and S.30 in E. half. from which A cottonwood 7 ins.in diam.bears S $48\frac{1}{2}^{\circ}$ W.231 lks.dist. marked $\frac{1}{4}$ S.25 BT. A willow 6 ins.in diam.bears S $75\frac{1}{4}^{\circ}$ E.115 lks.dist.marked $\frac{1}{4}$ S.30 BT.
- 67.75 Intersect left bank of the Gila River 4 ft.high bears N 60° E.and S 60° W.leave cottonwood timber and undergrowth bears NE.and SW.thence over river flood plane.
- 76.75 Leave flood plane over sandy river bed (dry).
- 80.18 The point for the cor of secs.19,24,25, and 30 falls in the dry bed of the Gila River where natural causes would insure the destruction of the cor.; therefore at.
- 67.25 Set an iron post 3 ft.long 3 ins.in diam.24 ins.in the ground for ^{reestab} Witness cor.to the cor.of secs.19,24,25, and 30.,marked on brass cap $\frac{1912}{14}$ WC.S of center T 8 S. in N.half R 19 W.S 24 in NW..R.18 W. S 19 in NE,S 30 in SE.and S 25 in SW.quadrant.from which A cottonwood 7 ins.in diam.bears N $30\frac{1}{4}^{\circ}$ E.142 lks.dist. marked WC T 8 S.,R 18 W.S 19 BT. A cottonwood 7 ins.in diam.bears S $2\frac{3}{4}^{\circ}$ E.248 lks.dist. marked WC T 8 S.,R 18 W.S 30 BT. A cottonwood 9 ins.in diam.bears S $20\frac{1}{4}^{\circ}$ W 185 lks.dist. marked WC T 8 S.,R 19 W.S 25 BT.and A cottonwood 10 ins.in diam.bears N $79\frac{1}{4}^{\circ}$ W 155 lks.dist. marked WC. T 8 S.,R 19 W.S 24 BT.
Land level.
Soil sandy 1 st.and 2 nd.rate.
Timber cottonwood and mesquite.

From ^{true} point for cor.of secs.19,24,25, and 30.

I run

N $0^{\circ}05'$ W.,on true line,betsecs.19 and 24.

Over dry sandy river bed.

- 10.30 Intersect right bank of Gila River 7 ft.high bears E.and W. enter rolling gravelly land and greasewood and arrow weed undergrowth 6 ft.high.bears E.and W.
- 15.50 Road from Phoenix to Yuma Arizona,bears N 60° E.and S 60° W
- 30.00 Enter scattering ironwood and palo verde timber bears N 70° E and S 70° W.
- 32.80 Dry rocky sand wash 30 lks.wide course S 70° E.ascend gradually.
- 40.09 Intersect the point for $\frac{1}{4}$ sec.cor.here I again make a very careful search for the old corner monument and being unable to find it I re-establish the cor.as follows; Set an iron post 3 ft.long 1 in.in diam.26 ins.in the ground for $\frac{1}{4}$ sec.cor. marked on brass cap $\frac{1912}{14}$ S 24 in W. half and S 19 in E.half. from which An ironwood 10 ins.in diam.bears N $74\frac{1}{2}^{\circ}$ W.146 lks.dist. marked $\frac{1}{4}$ S 24 BT.
- An ironwood 8 ins.in diam.bears S $67\frac{3}{4}^{\circ}$ E.192 lks.dist. marked $\frac{1}{4}$ S.19 BT.

I ~~detroy~~soy the markings on each of the old bearing trees at this cor.both of which are dead.Note: At this cor I set off $19^{\circ}16'$ S on the decl.arc and at noon observe the sun on the meridian the resulting latitude being $32^{\circ}43'43''$ N.From the ^{reestab} $\frac{1}{4}$ sec.cor.above described

- North,betsecs.19 and 24, on random line,
- .75 Leave rolling sandy and gravelly land bears NW.and SE. ascend SW.slope over stony hilly land.
- 6.65 Top of steep asc.leave hilly land and timber enter rolling mesa land.
- 24.20 Dry ravine 200 lks.wide 30 ft.deep course SE.
- 29.00 Dry ravine 250 lks.wide 20 ft.deep course SE.ascend ridge.
- 36.85 Top of ridge bears NW.and SE. desc.
- 38.10 Dry ravine course SE.thence along E.side of ravine.
- 39.92 Fall 14 lks.E.of the cor.of secs.13,18,19, and 24 which is

Survey, Retracement and Resurvey of the E.bdry.of T.8 S., R 19 W.

Chains a granite stone 10x12x15 ins.above ground, loosely set, marked with 3 notches on N and S.edges.No cor accessories. This cor being in a state of dilapidation I destroy the old cor and re-establish it in the same place as follows Set the same stone 10 ins.in the ground for cor of secs. 13,18,19, and 24. and raise a mound of stone 2 ft.base 1 $\frac{1}{2}$ ft.high W.of cor. Pits impracticable.

~~True course & dist.of this $\frac{1}{2}$ mile is therefore N.0°12'W. 139.92 chs.~~

Land level rolling and hilly.

Soil sandy gravelly and stony 2 nd.and 3 rd.rate.
Timber mesquite and ironwood.

North,betsecs.13 and 18, on random line,
Ascend over SW.slope over stony hilly land.

12.00 Top of stony ridge bears NW.and SE. descend into rocky ravine.

18.70 Bottom of ravine 20 lks.wide course SE.asc.

22.25 Top of ridge bears NW.and SE. desc.

27.50 Dry ravine 10 lks.wide course SE.asc.

33.25 Top of ascent on point of spur, bears NW.and SE.desc.

37.50 Dry ravine course SE. asc.

40.01 Fall 18 lks.W.of the old $\frac{1}{4}$ sec.cor. which is a palo verde post marked and witnessed as described by the Surveyor General.

~~True course & dist.of this mile is therefore N.0°45'E. 40.01 chs., and 1 $\frac{1}{2}$ S.0°18'.~~

I begin at the $\frac{1}{4}$ sec.cor. and run North on random line

3.75 Top of ridge bears NW.and SE. desc.

5.75 Dry ravine 10 lks.wide course SE.asc.

8.25 Top of spur bears NW.and SE.desc.

10.60 Dry ravine course SE. asc.

13.25 Top of ridge bears NW.and SE.desc.

21.00 Dry ravine 20 lks.wide course SE.asc.

23.00 Top of ridge bears NW.and SE. desc.

25.00 Dry ravine 10 lks.wide course SE.asc

33.25 Top of ridge bears NW.and SE. desc.

39.53 Fall 18 lks.E.of the witness cor to cor of secs.7,12,13, and 18., which is a malapais stone 12x10x7 ins.above ground firmly set, marked and witnessed as described by the Surveyor General.

40.03 True point for cor of secs. 7,12,13 and 18, in wash, course S.E., brs. E. 18 lks.dist. General.

~~True course & dist.of this $\frac{1}{2}$ mile is therefore N.0°15'W. 40.03 chs.~~

Land hilly.

Soil stony 2nd.and 3rd.rate.

No timber.

November 18, 1912.

November 19th, 7^h 45^m a.m.; 1.m.t. I set off 38°44' N.on the lat.arc 19°26'S.on the decl.arc and determine a meridian with the solar WG to cor.of secs.7,12,13, and 18,above described.

~~From true point for cor. of secs. 7,12,13 and 18, in wash, I run,~~

North,betsecs.7, and 12, on random line,

Ascend SW.slope over stony hilly land, through scattering paloverde and mesquite timber and greasewood brush under growth 4 ft.high.

15.00 Top of ridge bears NW.and SE. desc.

18.90 Dry ravine course SE.thence in ravine.

21.50 Leave ravine,ascend SW.slope.

27.55 Top of ridge bears NW.and SE. desc.

36.45 Dry ravine 15 lks.wide course SE.asc.

39.95 Top of ridge bears NW.and SE. desc.

~~40.48 Fall 21 lks.E.of the $\frac{1}{4}$ sec.cor., which is a malapais stone 12x9x8 ins.above ground,firmlly set,marked and witnessed as described by the Surveyor General.~~

~~True course & dist.of this $\frac{1}{2}$ miles therefore N.0°18'W. 40.48 chs.~~

I begin at the $\frac{1}{4}$ sec.cor.above described & run North on random line,

4.00 Dry ravine course SE.asc.

9.25 Top of ridge bears NW and SE. desc.

Survey Retracement and Resurvey of the E.bdry. of T.8 S., R.19 W.

Chains	
14.85	Dry ravine 6 lks.wide course SE.asc.
19.80	Top of ridge bears NW.and SE. desc.
28.50	Dry ravine course S 10° E.asc.in ravine.
31.45	Leave ravine ascend SW.slope of ridge.
38.20	Dry ravine 20 lks.wide course SE.asc.
40.00	Fall 21 lks.W.of the ^{old} cor.of secs.1,6,7, and 12. which is a granite stone 12x10x6 ins.loosely set,with marks nearly obliterated. No cor.accessories. This cor.being in a state of dilapidation,I destroy all evidence of the original cor.and re-establish it in the same place as follows; Set an iron post 3 ft.long 3 ins.in diam.24 ins.in the ground for cor.of secs.1,6,7, and 12.marked on brass cap, ¹⁹¹² T 8 S.in N.half,R 19 W.S 1 in NW.,R18 W.,S6 in NE.S 7 in SE.and S 12 in SW.quadrant. Raise a mound of stone 2 ft.base $1\frac{1}{2}$ ft.high W.of cor. Pits impracticable. No trees suitable for bearing trees within limits. True course & dist.of this $\frac{1}{2}$ mile is therefore N.O.18 E.40.00 chs. This cor.is situated at top of aseent from ravine at south edge of malapais flat. Land broken and hilly. Soil stony 3rd.rate. Timber scattering palo verde and mesquite.
40.00	From above described reestab.cor. of secs.1,6,7 and 12, I run North,betsecs.1 and 6, completing survey of E.bdry.of T.8.S.,R.19 W. Over rolling stony malapais flat through scattering palo verde and mesquite timber and greasewood brush undergrowth 3 ft. high. Set an iron post 3 ft.long,1 in.in diam.26 ins.in the ground for $\frac{1}{4}$ sec.cor.marked on brass cap ^{1912,11} S 1 in W.half and S 6 in E. half. from which An ironwood 10 ins.in diam.bears N 6° W 35 lks.dist.marked $\frac{1}{4}$ S 1 BT. An ironwood 6 ins.in diam.bears S $23\frac{3}{4}^{\circ}$ E.65 lks.dist. marked $\frac{1}{4}$ S 6 BT. Enter dry ravine course SE. Leave ravine,ascend stony bluff 25 ft.high. Top of bluff 25 ft.above ravine bears NW.and SE. desc. Dry ravine course SE. asc. Top of ridge bears NW.and SE. desc. Dry ravine 100 lks.wide ccourse SE.asc.gradually over SW. slope. Begin abrupt ascent. Set an iron post 3 ft.long ,3 ins.in diam.24 ins.in the ground for cor.of Tps.7 and 8 S.,Rs.18 and 19 W.,marked on brass cap ¹⁹¹² T 7 S. in N.,R 18W.in E.,T 8 S. in S.,and R 19 W.in W. half.S 36 in NW.,S 31 in NE.,S 6 in SE.,and S 1 in SW. quadrant. Raise a mound of stone 2 ft.base $1\frac{1}{2}$ ft.high S.of cor. Pits impracticable. No trees within limits. Land rolling and hilly. Soil gravelly and stony 3rd.rate. Timber scattering palo verde and mesquite.

-----November 19, 1912.
Note: At the above Tp.cor.I set off $19^{\circ}30' S.$ on the decl arc and at noon observe the sun on the meridian the resulting latitude being $32^{\circ}46' N.$

-----November 19-1912.

November 29, 1912.

part of
Retracement of the S.bdry. of T. & S.R. 19 W.

Chains. In the survey of the subdivision lines of this township I find the length of the line bet. secs. 30 and 31, closing on the west boundary, to be 76.32 chs. an excess of 50 lks. over its theoretical length, as compared with the length of the S.bdry. of sec. 31, given in the returns of the survey of the N.bdry. of T. 9 S., R. 19 W.

In order to locate this error and verify the mis-closure of sec. 31 I proceed as follows;

I retrace the E., N., and W. bdry's of sec. 31. recently surveyed by me and find the alinement and measurement to be correct. Thence I proceed to the ^{old} cor. of secs. 31 and 32 on S. ^{herebefore described} bdry. of the township and at 9° 23' a.m., l.m.t. December 9, 1912. I set off 32° 41' N. on the lat. arc, 22° 49' S. on the decl. arc and determine a meridian with the solar.

Thence I run

S 89° 59' W. on S. bdry. of sec. 31, on random line. Over level sandy bottom land, through dense arrow weed and watermoat brush undergrowth 6 to 8 ft. high.

12.00 Intersect left bank of the Gila River bears N 30° E. and S 30° W., thence over dry sandy river bed.

47.04 Fall 02 lks. S. of the witness cor. to the $\frac{1}{4}$ sec. cor., which is an iron post 3 ft. long, 1 in. in diam., marked and witnessed as described by the Surveyor General.

Note: This cor. is situated on the edge of right bank of the Gila River bears N 40° E. and S 40° W. Enter dense arrow weed and watermoat brush undergrowth bears NE. and SW.

76.54 Fall 05 lks. S. of the cor. of Tps. 8, and 9 S., R.s. 19 and 20 W. ^{herefore} described.

Land level.

Soil sandy 1st. and 2nd. rate.

No timber.

True course & dist. of this mile is therefore N. 89° 59' W., 76.54 chs. ^{and 00 ft.}

December 9, 1912.

General Description

This township is rough and mountainous in the northern and northwestern part, hilly in the interior, and level in the southern part along the Gila River.

The southern portion of the township is well watered for a portion of the year by the Gila river. while the northern portion has no water except in tanks which form after the rains. The only timber is found along the Gila River in the southern part and along the sand washes which cut through the interior in a southeasterly direction.

Sidney E. Block
U.S. Surveyor.

For FINAL OATH OF UNITED STATES SURVEYOR.
see Book "O" Group 20

I, _____, U. S. Surveyor, do solemnly swear that, in pursuance of special instructions received from the U. S. Surveyor General for _____ bearing date of the _____ day of _____, 191_____, I have well, faithfully, and truly, in my own proper person, and in strict conformity with said instructions, the Manual of Surveying Instructions, and the laws of the United States, surveyed all those parts or portions of _____ of the _____ Meridian, in the State of _____, which are represented in the foregoing field notes as having been executed by me, and under my direction; and I do further solemnly swear that all the corners of said survey have been established and perpetuated in strict accordance with the Manual of Surveying Instructions, and the special written instructions of the U. S. Surveyor General for _____ and in the specific manner described in the field notes, and that the foregoing are the original field notes of such survey.

U. S. Surveyor.

Subscribed by said _____, and sworn to before me }
this _____ day of _____, 191_____ }

APPROVAL.

OFFICE OF THE UNITED STATES SURVEYOR GENERAL,

Phoenix, Arizona, July 27, 1914

The foregoing field notes of the survey of the West and North boundaries

and part of the East boundary

and Retracement and Resurvey of
