Survey of the Subdivision lines in this township commenced May 26, 1914, and executed by W. K. Kierulff, U.S. Transitman, using a Young and Sons' light mountain transit No. 8492, and W. H. Thorn, U.S. Surveyor, using a Young and Sons' light mountain transit No. 8592, both of which instruments are described in Book "A." of field notes of this Group of surveys.

The initials "W.K.K." and "W.H.T." are inserted in the following notes at the beginning and ending of those portions of the notes describing the surveys executed by W.K.Kierulff, U.S.Transitman, and W.H.Thorn, U.S. Surveyor, respectively. W.K.K.

The instrument was examined and tested on a meridian determined by observation on Polaris, May 22 and 23, as described in Book "A" in the notes of the survey of the survey of the West bdy. of T.6 N., R.13 W., and found to be correct.

At 8h. a.m., l.m.t., I set off $21^{\circ}04'$ N. on the decl.arc; $33^{\circ}48\frac{1}{2}'$ N. on lat.arc; and determine a meridian with the solar.

W.H.T.

I examine the adjustments of the transit, and correct the level and collimation errors; then, to test the solar apparatus by comparing its indications resulting from solar observations made during a.m. and p.m. hours, with a meridian determined by observations on Polaris, which was established by W.
