# FIELD NOTES

OF THE SURVEY OF THE

## SUBDIVISION LINES

of

TOWNSHIP 10 NORTH, RANGE 11 WEST.

Of the Gila and Salt River Base and Meridian,

In the State of Arizona.

EXECUTED BY

L. E. Wilkes.

In the capacity of U. S. Surveyor, under instructions dated July 23, 1914, issued by the United States Surveyor General to govern surveys included in Group No. 36, which were approved by the Commissioner of the General Land Office, August 15, 1914.

Survey commenced December 10, 1914.

Survey completed January 18, 1915.

Executed under Assignment  
Instructions dated

## Subdivision of Township 10 North, Range 11 West. 1.B

Chains.

Surveys hereinafter described were executed by L.E.Wilkes, U.S.Surveyor, on dates shown on diagram on page 31 hereof, using a Young and Son's transit No.8541, described with record of tests and approval in Book "A." This instrument has been tested, almost every day of use in this assignment, by both a.m. and p.m. observations taken at various hours of the working day on lines which have been prolonged by reference to objects several miles distant, and the results having been found to be practically constant, and substantially agreeing with the Polaris observations; I conclude that the adjustments are satisfactory.

Jan.18, 1915, at apparent noon, by reference to a line whose bearing has been carefully established by solar observations more than 2 hours from noon, I note the sun's passage of the meridian, and set my watch to agree with local mean time, which is 10m.19 secs.faster than apparent time, at the cor.of secs.9,10,15 and 16.

Jan.18, 1915. At my camp, at the SE.  $\frac{1}{4}$  of sec.34, T.11 N., R.11 W., at lat. $34^{\circ} 15' N.$ , long. $113^{\circ} 23\frac{1}{2}' W.$  from Greenwich, at 4h.p.m., l.m.t., I set off  $20^{\circ} 33' S.$  on the decl.arc;  $34^{\circ} 15'$  on the lat.arc, and determine a meridian with the solar, and note its intersection with a conspicuous object in the horizon about 8 miles N. of my station.

At 5h. 40.7m. p.m., l.m.t., I observe Polaris at upper culmination, and note that the meridian thus determined agrees with the meridian established by solar observation.

Jan.19, 1915, at 8h. 30m., a.m., l.m.t., I set off  $20^{\circ} 25\frac{1}{2}' S.$  on the decl.arc;  $34^{\circ} 15'$  on the lat.arc; and determine a meridian with the solar, and note that it disagrees with the meridian established by Polaris observation by less than 1' of arc.

From the corner of secs.1,2,35 and 36 on S.bdy.of Tp., described in Book "A,"

$N.0^{\circ} 1' W.$ , betsecs. secs.35 and 36.

Over gently rolling land, through scattering brush.

0.20 Wash, 15 lks.wide, course N. $75^{\circ} W.$

## 30. Subdivision of Township 10 North, Range 11 West.

Chains.

Land, broken and rolling.  
Soil, in broken land, sandy and gravelly, 4th rate.  
In rolling land, sandy loam, 2nd rate.  
Undergrowth, scattering greasewood, palo verde and Joshua trees.  
No timber.

---

GENERAL DESCRIPTION.

This township is generally rolling land, nearly level, excepting the southern part, where Bullard wash flows in a bottom about 30 feet lower than the bench land, and the northern part where Date Creek wash occupies a channel about 200 ft. deep and 2 miles wide.

The soil is generally sandy loam, quality 2nd rate, and susceptible to irrigation if water can be obtained.

In the bottoms adjacent to Bullard wash and Date Creek, the soil is generally coarse and porous and of little apparent value.

Undergrowth consists of greasewood from 4 to 6 ft. high, with scattering palo verde and mesquite along the washes, and scattering Joshua trees, in the northern part. A coarse grass affording pasture to a few animals during the rainy season is found along the washes and on N. slopes.

The nearest living water is in Santa Maria river, about 4 miles NW. of the NW. cor. of the Tp.

No settlers or improvements of any kind.

**32 For CERTIFICATE OF UNITED STATES SURVEYOR.**  
**See Book "C"**

I, \_\_\_\_\_, U. S. Surveyor, hereby certify upon honor that, in pursuance of special instructions received from the U. S. Surveyor General for \_\_\_\_\_ bearing date of the \_\_\_\_\_ day of \_\_\_\_\_, 191\_\_\_\_\_, I have well, faithfully, and truly in my own proper person, and in strict conformity with said instructions, the Manual of Surveying Instructions, and the laws of the United States, surveyed all those parts or portions of \_\_\_\_\_

\_\_\_\_\_ of the \_\_\_\_\_

Meridian, in the State of \_\_\_\_\_, which are represented in the foregoing field notes as having been executed by me, and under my direction; and that all the corners of said survey have been established and perpetuated in strict accordance with the Manual of Surveying Instructions, and the special written instructions of the U. S. Surveyor General for \_\_\_\_\_ and in the specific manner described in the field notes, and that the foregoing are the original field notes of such survey.

*U. S. Surveyor*

**APPROVAL.**

OFFICE OF THE UNITED STATES SURVEYOR GENERAL,

Phoenix, Arizona, Jan. 20, 1919, #108

The foregoing field notes of the survey of the

Subdivision Lines of

TOWNSHIP 10 NORTH, RANGE 11 WEST.

of the Gila and Salt River Base and Meridian, in the State of Arizona,

executed by L. E. Wilkes, U. S. Surveyor,

under his special instructions dated July 23, 1914, for Group 36, Arizona, 191\_\_\_\_\_, having been critically examined, and the necessary corrections and explanations made, the said field notes, and the surveys they describe, are hereby approved.

*U. S. Surveyor General.*

I certify that the foregoing transcript of the field notes of the above described surveys in \_\_\_\_\_ has been correctly copied from the original notes on file in this office.
