FIELD NOTES

OF THE RETRACEMENT OF

part of the Hualpai Indian Reservation boundary (71¹/₂M to 72M)

AND OF THE SURVEY OF

the West boundary.

the North boundary.

and part (completion) of the Subdivision lines of

Township 26 North, Range 9 West,

Of the Gila and Salt River Base and Meridian,

In the State of Arizona

EXECUTED BY

Quintin Campbell, U. S. Surveyor,

and

Kenneth W. Bond, U. S. Transitman,

In the capacity of U. S. Surveyor, under Special Instructions dated Feb. 25th, 1920, issued by the United States Surveyor General to govern surveys included in Group No. 107, Arizona, which were approved by the Commissioner of the General Land Office, March 8th, 1920, and Assignment Instructions dated March 19 & 29, 1920

Retracement and Survey commenced August 23, 1920

Retracement and Survey completed September 29, 1920

black lines indicate surveys, and dotted black line, retrace~~ment~~,
 executed by Quintin Campbell, U. S. Surveyor,
 and redlines indicate surveys executed by Kenneth W. Bond, U. S.
Transitman, all on dates shown thereon,
 and brown lines indicate accepted surveys.

Retracement and Surveys hereinafter described, executed on dates shown on diagram on page 1 hereof, by Quintin Campbell, U.S. Surveyor, and Kenneth W. Bond, U.S. Transitman, using respectively, Young and Sons light mountain transit Nos. 8491 and 8477. Each instrument is equipped with full vertical circle, and the Smith solar attachment.

Unless otherwise specified, all azimuth determinations are accomplished with the solar attachments.

Aug. 21, 1920. We examine the adjustment of each instrument, and correct all errors; then, to test the solar apparatus by comparing its indications from observations made during a.m. and p.m. hours, with a meridian established by Polaris observation, proceed with each instrument as follows:

In camp, at Blue Mountain Tank, near the $\frac{1}{4}$ sec.cor.of secs. 23 and 26, T. 26 N., R. 9 W., Gila and Salt River Base and Meridian, Arizona, in latitude $35^{\circ}37'18''$ N.; longitude, $113^{\circ}12'45''$ W. at 9h.35.4m., p.m., l.m.t., observe Polaris at eastern elongation, making four observations, two each with the telescope in direct and reversed positions, and mark the mean point in the line thus determined, on a peg driven firmly in the line 6 chs. N.

Azimuth of Polaris at eastern elongation = $1^{\circ}22'55''$.

August 22, 1920. Lay off the azimuth of Polaris $1^{\circ}23'$ to the west, and mark a point in the meridian thus determined by a tack in a peg driven firmly in the ground 6 chs. N.

At 7h.0m., a.m., l.m.t., set off $35^{\circ}37'N.$ on the latitude arc; $11^{\circ}47'N.$ on the decl.arc, and determine a meridian with the solar, which agrees with the true meridian.

At app. noon, with the latitude arc unchanged, observe the sun on the meridian; the resulting reading of the declination arc is $11^{\circ}42'N.$, which agrees with the computed declination of the sun.

At 5h.0m., p.m., l.m.t., with the latitude arc unchanged, set off $11^{\circ}39'N.$, on the decl.arc, and determine a meridian with the solar, which agrees with the true meridian.

As all of the solar observations made with both instruments during the usual hours of solar work come within $1'30''$ of the true meridian, we conclude that the adjustment of the instruments is satisfactory.

Unless otherwise specified, all measurements are made with Lallie steel tapes, 2 and 5 chs. in length, compared with a Lufkin standard steel tape, and found correct.

The measurements are made on the slope, the vertical angle determined, and the slope measurements properly reduced to true horizontal distances.

Retracement of

Part of the Boundary of the Hualpai Indian Res. in T.26 N., R.9 W.

3

Chains.

The boundary of the Hualpai Indian Reservation thru. T.26 N., R.9 W. was surveyed by Albert T. Colton, U.S. Deputy Surveyor in September, 1900, and no retracement or re-survey of such portion of the line is on record. The following notes describe a retracement between the 71½ mile and 72 mile monuments in secs. 25 and 36, T.26 N., R.9 W.

The 71½ mile monument is a malpais stone 14x12x6 ins. above ground, firmly set, marked with a cross (x) on top, H I R 71½ M on NW. face, and PL on SE. face, and witnessed by a mound of stone NE. of mon. No bearing trees.

Thence,

N. 50° E., on a random line, on the NE. $\frac{1}{2}$ of the 72nd mile of the Reservation boundary.

Over gently rolling land, thru. dense timber and under-growth, along SE. slope, ascending gradually.

12.75 Fall 1' lk. S. 40° E. from the closing cor. of those parts of secs. 25 and 36, T.26 N., R.9 W., situated outside the Hualpai Indian Reservation, which is an iron post, 2 ins. in diam., projecting 12 ins. above ground, firmly set, properly marked on brass cap, and witnessed by two properly marked bearing trees, as follows:

A cedar, N. 61 $\frac{1}{2}$ ° E., 239 lms. dist., and

A cedar, S. 62 $\frac{1}{2}$ ° E., 67 lms. dist.

True course and length of the Reservation boundary from the 71½ mile mon. to this C.C. are therefore, N. 49° 57' E., 12.75 chs.

Continue line and measurement.

Over rolling land, thru. dense timber and undergrowth, ascending gradually over SE. slope.

39.97 Fall 3 lks. S. 40° E. from the 72 mile monument, which is a sandstone, 12x10x6 ins. above ground, firmly set, marked with a cross (x) on top, H I R 72 M on NW. face, and P L on SE. face, and witnessed by a mound of stone N. 50° E. of mon. No bearing trees.

True course and length of NE. $\frac{1}{2}$ of the 72nd mile of the Reservation boundary are therefore, N. 49° 57' E., 39.97 chs.

Land, gently rolling.

Soil, gravelly and rocky, 4th rate.

Timber, dense cedar, juniper and pine.

Undergrowth, dense sage brush and scrub oak.

No grass.

4 Survey of West bdy. of Township 26 North Range 9 West.

Chains.

- From the cor. of Ts. 25 and 26 N., Rs. 9 and 10 W., described in Book "E,"
 North, on true line, bet. secs. 31 and 36.
 Over nearly level land, thru. scattering undergrowth, and very scattering timber, along W. slope, with slight change in elevation.
 10.00 Wash, 20 lks. wide, course SW. Asc. very gradually, over S. slope, to
 40.00 Set an iron post, 3 ft. long, 1 in. in diam., 26 ins. in the ground, for $\frac{1}{4}$ sec.cor., marked on brass cap,

| | |
|------|-----|

14 Survey of part of Subdivision lines of T.26 N.R.9W. (completion

Chains.

The Subdivision lines of that portion of T.26 N., R.9 W., situated outside the Hualpai Indian Reservation (parts of secs. 25, 35 and 36) were surveyed in April, 1912, by William H. Elliott, U.S. Surveyor, who established closing corners at the points of intersection of the Subdivision lines with the Reservation boundary. The following notes describe the survey of the Subdivision lines in that portion of the township situated inside the Reservation, thus completing the survey of the Subdivision lines of the entire township. The closing cor. of those portions of secs. 35 and 36, T. 26 N., R.9 W., situated outside the Hualpai Indian Reservation is an iron post 2 ins. in diam., projecting 12 ins. above ground, firmly set, properly marked on brass cap, and witnessed by two properly marked bearing trees as follows:

- A cedar, S. $37\frac{1}{4}$ ^oE., 207 lks. dist., and
- A cedar, S. $10\frac{1}{2}$ ^oW., 445 lks. dist.

This closing cor. is of record as being established on the H.I.R. boundary at 62.36 chs. N. $0^{\circ}1'W.$ from the cor. of secs. 1, 2, 35 and 36 on the S. bdy. of the Tp. Change the marking on the brass cap to read:

A handwritten marking on a brass cap. It features a vertical line with 'S35' at the top and 'S36' at the bottom. A diagonal line extends from the top right towards the center. The letters 'H I R' are written vertically along this diagonal line. Below the main vertical line, another vertical line has 'S35' at the top and 'S36' at the bottom. To the left of this second vertical line is 'T26N'. To the right is 'R9W'. Below the first vertical line is '1912'. Below the second vertical line is '1920'.

This closing cor. now refers to areas on both sides of the Reservation boundary.

Thence,

N. $0^{\circ}1'W.$, bet. those parts of secs. 35 and 36, situated inside the H.I.R.

Over gently rolling land, thru. dense timber and scattering undergrowth.

Ascend 40 ft., over SE. slope, to

(80.00 chs. N. $0^{\circ}1'W.$ from the cor. of secs. 1, 2, 35 and 36). Set an iron post, 3 ft. long, 2 ins. in diam., 24 ins. in the ground, for cor. of secs. 25, 26, 35 and 36, marked on brass cap,

A handwritten marking on a brass cap. It features a vertical line with 'T26N' at the top and 'R9 W' at the bottom. A horizontal line extends from the top right to the bottom left, forming a T-shape. The letters 'S26' are written on the top segment of this line, and 'S25' is written on the bottom segment. Below this is another vertical line with 'S35' at the top and 'S36' at the bottom. To the left of this second vertical line is '1920'.

from which,

A pine, 14 ins. in diam., brs. N. $65^{\circ}E.$, 122 lks. dist., marked T26N R9W S25 BT.

A juniper, 16 ins. in diam., brs. S. $2^{\circ}E.$, 58 lks. dist., marked T26N R9W S36 BT.

A juniper, 14 ins. in diam., brs. S. $48\frac{1}{2}^{\circ}W.$, 164 lks. dist., marked T26N R9W S35 BT.

A juniper, 14 ins. in diam., brs. N. $36\frac{1}{2}^{\circ}W.$, 17 lks. dist., marked T26N R9W S26 BT.

Land, gently rolling.

Soil, gravelly, 3rd rate.

Timber, dense juniper and pine.

Undergrowth, scattering scrub oak, prickly ash, sagebrush and cacti.

Fair grass.

East, on a random line, bet. those parts of secs. 25 and 36, situated inside the Hualpai Indian Reservation.

Part of Subdivision lines of T.26 N., R. 9 W. (completion) 15

- Chains.
- 20.98 Intersect the Reservation Bdy. at a point S. $49^{\circ}57'W.$, 42 lks. from the closing cor. of those parts of secs. 25 and 36; situated outside the H.I.R., which is an iron post, 2 ins. in diam., projecting 12 ins. above ground, firmly set, properly marked on brass cap, and witnessed by two properly marked bearing trees as follows:
- A cedar, N. $61\frac{1}{2}'E.$, 239 lks. dist., and
A cedar, S. $62\frac{1}{4}'E.$, 67 lks. dist.
- This closing cor. is of record as being established on the H.I.R. bdy. at 58.77 chs. west from the cor. of secs. 25, 30, 31 and 36 on the E. bdy. of the Tp., and by the retracement of part of the H.I.R. boundary hereinbefore described is found to be N. $49^{\circ}57'W.$, 12.75 chs. from the $7\frac{1}{2}$ mile mon. The falling of the random line on this C.C. results in a return course to the sec.cor., which exceeds the allowable limits of alignment; therefore, at the point of intersection of the random sec. line with the Reservation boundary,
- Set an iron post 3 ft. long, 2 ins. in diam., 24 ins. in the ground, for closing cor. of those parts of secs. 25 and 36, situated outside the Reservation, marked on brass cap.
- T26N
 S25
 CC —————
 S36 X
 R9W
- 1920
- from which,
- A juniper, 10 ins. in diam., brs. S. $48^{\circ}W.$, 21 lks. dist., marked T26N R9W S36 CC BT.
- A juniper, 14 ins. in diam., brs. N. $39\frac{1}{2}'W.$, 168 lks. dist., marked T26N R9W S25 CC BT.
- This closing cor. is therefore 12.75 chs. - 0.42 chs. = 12.33 chs. N. $49^{\circ}57'W.$ from the $7\frac{1}{2}$ mile monument on the Reservation boundary hereinbefore described in the notes of retracement of such boundary.

GENERAL DESCRIPTION.

The portion of this township surveyed as described in the foregoing field notes lies entirely within the Hualpai Indian Reservation.

The surface in the N. half, and part of the southeastern portion is mountainous and roughly rolling, the remainder being rolling and gently rolling, with the exception of parts of secs. 30 and 31, which are nearly level.

A prominent mountain in NW. $\frac{1}{4}$ of sec. 35 is known as Blue Mountain. The soil is nearly all rocky, 4th rate, the exception being scattered areas with a gravelly 3rd rate soil; and some parts of secs. 11 and 14, with a sandy and gravelly, 2nd rate soil. The timber consists of juniper and pine in all secs., and cedar in scattered sections. The timber occurs mostly in dense growths, the scattering and very scattering growths being confined mostly to the southern part of the township.

The undergrowth, consisting of prickly ash, scrub oak, sagebrush, manzanita, quinine brush and cacti is prevalent in a scattering growth in all sections, being dense in some parts of the north half of the township.

There is good grass in secs. 11 and 14, and fair grass in parts of the south half of the township, but the most of the surface of the township is devoid of grass.

There is no permanent running water, but a tank for periodical storage of water is located in sec. 23, known as Blue Mountain Tank. There are no settlers, and there is no indication of valuable mineral deposits.

The only improvements, aside from the tank mentioned, consist of a fenced corral on line bet. secs. 23 and 26, and a range fence extending in a northerly and southerly direction, from mesa in sec. 2 to a point in sec. 25.

Several old Indian roads traverse the township in various parts but all are in poor condition.

CERTIFICATE OF UNITED STATES SURVEYOR.

I, Quintin Campbell, U. S. Surveyor, hereby certify upon honor that, in pursuance of special instructions received from the U. S. Surveyor General for Group 107, Arizona, bearing date of the 25th day of February, 1920, I have well, faithfully, and truly in my own proper person, and in strict conformity with said instructions, the Manual of Surveying Instructions, and the laws of the United States, ~~surveyed~~^{retraced} all those parts or portions of the Hualpai Indian Reservation boundary (71 $\frac{1}{2}$ M to 72M), and surveyed all those parts or portions of the North and West boundaries, and Subdivision lines of Township 26 North, Range 9 West,

of the Gila and Salt River

Base and Meridian, in the State of Arizona, which are represented in and by diagram on page 1 hereof the foregoing field notes as having been executed by me, and under my direction; and that all the corners of retracement and said survey have been established and perpetuated in strict accordance with the Manual of Surveying Instructions, and the special written instructions of the U. S. Surveyor General for Group 107, Arizona,

and in the specific manner described in the field notes, and that the foregoing are the original field notes of retracement and such survey.

Place - Phoenix Ariz.
Date - March 31 1922

Quintin Campbell
U. S. Surveyor.

APPROVAL.

OFFICE OF THE UNITED STATES SURVEYOR GENERAL,

Phoenix Arizona, February 13, 1923.

The foregoing field notes of the survey of part of the Hualpai Indian Reservation boundary (71 $\frac{1}{2}$ to 72M), and of the survey of the West and North boundaries and part (completion) of the Subdivision lines of

Township 26 North, Range 9 West,

of the Gila and Salt River Base and Meridian,

in the State of Arizona.

executed by Quintin Campbell, U. S. Surveyor, and Kenneth W. Bond, U. S. Transitman, under his special instructions dated Mar. 19 & 29, 1920, for Group 107, Ariz., having been retracement and critically examined, and the necessary corrections and explanations made, the said field notes, and the surveys they describe, are hereby approved.

Frank D. Faust

U. S. Surveyor General.

I certify that the foregoing transcript of the field notes of the above described surveys in _____, has been correctly copied from the original notes on file in this office.
