BOOK 3659 FIELD NOTES

OF THE SURVEY OF THE

Third Standard Parallel North, thru. fractl. Range $1\frac{1}{2}$ East,

East, West and North boundaries, and

Subdivision lines of

FRACTIONAL TOWNSHIP 13 NORTH, RANGE $1\frac{1}{2}$ EAST,

Of the Gila and Salt River Base and Meridian,

In the State of Arizona.

EXECUTED BY

Benjamin J. Kinsey, U.S.T.

and

Ty White, U. S. T.

In the capacity of U. S. Surveyors, under Special Instructions dated May 26, 1922, issued by the United States Surveyor General to govern surveys included in Group No. 120, Arizona, which were approved by the Commissioner of the General Land Office, June 23, 1922, and Assignment Instructions dated May 26, 1926.

Survey commenced June 7, 1923.

Survey completed July 10, 1923.

BOOK 3659

2

The surveys hereinafter described were executed on dates shown on diagram on page 1 hereof, by Benjamin J. Kinsey and Ty White, U.S. Transitmen, using respectively Buff "Rocky Mountain Favorite" solar transit No. 9940, with U-shaped standards, 4 $\frac{1}{2}$ in horizontal circle, 4 in. vertical circle, and improved Smith solar attachments; and Young and Sons transit No. 8540 with full vertical circle and Smith solar attachment; unless otherwise specified all azimuth determinations are accomplished with the solar attachments.

June 4, 1923: We examine the adjustment of each transit, and correct all errors; then, to test the solar apparatus by comparing its indications during the a.m. and p.m. hours, with a meridian established by Polaris observation, proceed with each instrument as follows:

At camp, near the cor. of secs. 16, 17, 20 and 21, T.13 N., R. 2 E., Gila and Salt River Base and Meridian, Arizona, in latitude $34^{\circ}40'N.$; longitude, $112^{\circ}8\frac{1}{2}'W.$, at 2h.50m. a.m., l.m.t., observe Polaris at eastern elongation, making four observations, two each with the telescope in direct and reversed positions, and marking the mean point in the line thus determined by a tack in a stake driven firmly in the ground about 5 chs.N. of the instrument.

Azimuth of Polaris at eastern elongation = $1^{\circ}20'54''$.

June 5, 1923: Lay off the azimuth of Polaris $1^{\circ}21'$ to the west, and mark the meridian thus determined by a tallypin set in a stake driven firmly in the ground about 7 chs.N.

At 9h.00m. a.m., l.m.t., set off $34^{\circ}40'N.$ on the latitude arc, and $22^{\circ}29\frac{1}{2}'N.$ on the decl. arc, and determine a meridian with the solar which agrees with the true meridian.

At apparent noon, with the lat. arc unchanged, observe the sun on the meridian; the resultant reading of the decl. arc is $22^{\circ}30'N.$, which agrees with the computed decl. of the sun.

At 3h.00m. p.m., l.m.t., with the lat. arc unchanged, set off $22^{\circ}31'N.$ on the decl. arc, and determine a meridian with the solar, which agrees with the true meridian.

As all of the observations made with both instruments during the usual hours of solar work come within $1'30''$ of the true meridian, we conclude that the adjustment of the instruments is satisfactory.

All measurements are made with Lufkin steel tapes 5 chs. in length compared with a Chesterman standard steel tape and found correct. All measurements are made on the slope, vertical angles determined with clinometer, and the slope measurements properly reduced to true horizontal distances.

BOOK NO. 3659

Survey of the 3rd.Std.Parallel North.thru.Frac. Range 1½ East. 3
Chains.

The Resurvey of the 3rd Standard Parallel North.thru. part of Range 2 East, as described in Book "A" of this group resulted in a portion of the parallel 105.94 chs. in length, forming the south bdy. of a fractional township situated between Ts.13 N., Rs.1 and 2 E. This fractional township is now designated as frac.T.13 N., R.1½ E., and as no standard cor.s. having a reference to such township have ever been established on the Parallel, the line thru.fracl.Range 1½ East is technically unsurveyed.

The following notes describe a survey of the Parallel thru.fracl.Range 1½ E., on the bearings determined by retracement as described in Book "A" of this group.

-
- From the original std.SE.cor. of fracl.T.13 N. R.1½ E., and reestablished std.SW.cor. of T.13 N., R.2 E.; described in Book "A," N.89°57'W., on true line, on S.bdy. of sec.36. Over mountainous land, thru. very scattering timber and undergrowth.
- Ascend 62 ft., over E.slope, to
Intersect the original closing cor. of secs.5 and 6, T.12 N., R.2 E., which is a volcanic stone 10x12x8 ins. above ground, firmly set properly marked and witnessed by a mound of stone S.of cor. No bearing trees.
Continue line and measurement.
- Ascend slightly over E.slope, to
Intersect the std.cor. of secs.31 and 32, T.13 N., R.2 E., reconstructed in original position by J.F.Hesse, U.S. D.S. in 1910, which is a granite stone, 8x10x14 ins. above ground, firmly set, marked SC on N.face, 5 grooves on E.face, and 1 groove on W.face, and witnessed by a mound of stone, N.of cor. No bearing trees. Alter this sec.cor.monument to an angle point by chiseling "AP" on N.face of stone.
Continue line and measurement.
- Ascend 12 ft., over E.slope.
Ridge, brs.N. and S.
Descend 114 ft., over W.slope.
Rocky wash, 20 lks.wide, course S.
Ascend 266 ft., over E.slope.
Intersect E.side line (1-2) of Iowa patented lode mining claim, Mineral Survey No.2959, at a point 1.03 chs.N. 12°26'W., from cor.No.1 thereof. Thence across patented mining claims.
- Narrow jagged ridge, brs.N. and S.
Descend 43 ft., over W.slope, to
Set an iron post, 3 ft.long, 1 in. in diam., 12 ins. in the ground to bed rock, supported in a mound of stone for std.cor.of sec.36, fracl.T.13 N., R.1½ E., with brass cap, marked
- S.C
S 36
1923
- from which,
A cedar, 12 ins. in diam., brs.N.7½°E., 138 lks.dist., marked SC S 36 BT.
No other bearing tree available.
Raise a mound of stone 3 ft.base, 2 ft.high, N.of cor.
From this cor.,
U.S.L.M. No.1694, which is a cross (x), and 1694 USLM cut in quartzite ledge, brs.N.79°10'W., 20.02 chs.dist.
Continue across patented mining claims.
Descend 299 ft., over W.slope.
Rocky wash, 30 lks.wide, course S.
Ascend 6 ft., over E.slope, to
- 50.30

BOOK 3659

Survey of 3rd Std. Parallel N. thru. fract. Range 1½ East.

	Chains.	
50.92	Intersect the std. & sec.cor. of sec.31, T.13 N., R.2 E., re-established in 1917 by G.F.Rigby, U.S.S., which is an iron post, 1 in. in diam., projecting 10 ins. above ground, firmly set, properly marked on brass cap for reference to quarters of said sec., and witnessed by a mound of stone N.of cor. No bearing trees. Alter this cor. monument to an Angle Point by changing the markings on brass cap to read:	
	S C <u>A P</u>	
	1917-23	
58.00	Ascend 210 ft., over E.slope. Ridge, brs.N.and S. From this point, Ancient cliff dwellings in good state of preservation brs.N. about 2.50 chs.dist.	
65.00	Descend 137 ft., over W.slope. Wash, 100 lks.wide, coarse S.	
68.23	Ascend 77 ft., over steep E.slope. Intersect W.side line (4-5) of Tennessee patented lode mining claim, Mineral Survey No.3410, at a point 2.92 chs.S.4°13'E. from cor.No.5 thereof. Leave patented mining claims.	
75.80	Ridge, brs.N.and S. Descend 214 ft., over steep W.slope to sec.cor.point.	
79.25	Set an iron post 3 ft.long, 2 ins.in diam., 26 ins.in the ground for witness cor.to std.cor.of secs.35 and 36, fract.T.13 N., R.1½ E., with brass cap, marked	
	S C W C T13N R1½E. S35 S36	
	1923	
80.00	from which, An oak, 5 ins. in diam., brs.N.58°W., 31 lks. dist., marked SCWCT13NR1½E S35BT. No other bearing trees available. Raise a mound of stone 3 ft.base, 2 ft.high, N.of cor. True point for std. cor.of secs.35 and 36, fract.T.13 N., R.1½ E. falls in wash, 50 lks.wide, coarse S., where it would be impracticable to set monument; therefore establish W.C. at 0.75 chs.S.89°57'E., as described above. Land, mountainous. Soil, rocky, 4th rate. Timber, juniper, oak and mesquite. Undergrowth, scrub oak, catclaw, buckbrush and cactus.	
7.00	From true point for std.cor.of secs.35 and 36, N.89°57'W., on true line, on S. bdy.of fract.sec.35. Over mountainous land, thru. very scattering timber and dense undergrowth. Ascend 104 ft., over E.slope.	
8.56	Ridge, brs.N.and S. Descend 18 ft., over W.slope, to Intersect the closing cor.of T.12 N., Rs.1 and 2 E., established by J.F.Hesse, U.S.D.S. in 1910, which is a quartz stone 8x6x10 ins. above ground, firmly set, properly marked for reference to said townships, and witnessed by a mound of stone, S.of cor. No bearing trees.	
9.89	Continue line and measurement. Descend 25 ft., over W.slope, to Intersect the original std. & sec.cor. of sec.31, T.13 N., R.2 E. changed to Angle Point in 1917 by G.F.Rigby, U.S.S., which is a quartz stone 6x12x10 ins. above ground, firmly set, marked "AP" on top, and witnessed

No bearing trees available. Raise a mound of stone, 3 ft. base. 2 ft. high, S.of cor.

Land, gently rolling and nearly level.

Soil, rocky, 4th rate.

Timber, none.

Undergrowth, scrub oak, catclaw and cactus.

Survey of West bdy. of frac. Township 13 North, Range 1 $\frac{1}{2}$ East. 11
Chains.

The West bdy. of frac. T.13 N., R.1 $\frac{1}{2}$ E. is identical in position with the East bdy. of T.13 N., R.1 E., and part of the East bdy. of T.14 N., R.1 E., both of which are accepted surveys.

The East bdy. of Tp.14 N., R.1 E., and the N.4 $\frac{1}{2}$ miles of the East bdy. of T.13 N., R.1 E. were surveyed in 1871, by S.W. Foreman, U.S.D.S. establishing all cor. monuments thereon with a common reference to areas on both sides of the line.

In 1917, G.F. Rigby, U.S.S. surveyed the completion of the S.bdy. of T.14 N., R.2 E., establishing a closing cor. of Ts.13 and 14 N., R.2 E. on the E. bdy. of T.14 N., R.1 E. at 19.86 chs. N. of the remains of the original cor. of Ts.13 and 14 N., R.1 and 2 E., reconstructing said township corner, and changing its reference to Ts. 13 and 14 N., R.1 E. only. Surveyor Rigby then resurveyed the N.4 $\frac{1}{2}$ miles of the E. bdy. of T.13 N., R.1 E., found no trace of the original cors. thereon, reestablished the cors. at intervals of 40.00 chs. on true line S. from reestablished cor. of Ts.13 and 14 N., R.1 E. to the $\frac{1}{4}$ sec.cor. of sec.25, T.13 N., R.1 E., and changed all such reestablished cor. monuments to refer to areas W. of the line only. Surveyor Rigby then surveyed the completion of the E. bdy. of T.13 N., R.1 E., by random line south from $\frac{1}{4}$ sec.cor. of sec.25 to intersection with 3rd Std. Parallel N., where he reestablished the Std.Tp. cor.; thence N. on true line establishing cors. referring to areas W. of the line only at intervals of 40.00 chs., placing a deficiency of 11.71 chs. on the S. $\frac{1}{2}$ of E. bdy. of sec.25.

In said resurvey and survey of the range line no cors. referring to T.13 N., R.2 E. were reestablished or established.

No other resurvey and no retracement of the line is of record. The following notes describe the establishment of a new set of cors. on the line, referring to areas in frac. T.13 N., R.1 $\frac{1}{2}$ E. only, which, in view of the fact that no cor. monuments with such reference are of record, constitutes a survey of the W.bdy. of said fractional township.

This survey being dependent upon the alignment of the existing range line, make retracement of same E. of Ts. 13 and 14 N., R.1 E.

Retracement for Survey.

From the reestablished std.SE.cor. of T.13 N., R.1 E., and original std.SW.cor. of frac. T.13 N., R.1 $\frac{1}{2}$ E. on 3rd Std.Par.N., hereinbefore described,

North, on random line, on E. bdy. of sec.36 (S.1).

39.83 Fall 3 lks.E. of the original $\frac{1}{4}$ sec.cor. of sec.36, herein-after described.

True course and dist. of S. $\frac{1}{2}$ of E. bdy. of sec.36 are therefore N.0°3'W., 39.83 chs.

Thence,

North, on a random line, on E. bdy. of sec.36 (N.1).

40.41 Fall 3 lks.E. of the original cor. of secs.25 and 36, herein-after described.

True course and dist. of N. $\frac{1}{2}$ of E. bdy. of sec.36 are therefore N.0°3'W., 40.41 chs.

Thence,

North on random line, on E. bdy. of sec.25 (S.1).

Fall 2 lks.W. of the previously reestablished $\frac{1}{4}$ sec.cor. of sec.25, hereinafter described.

True course and dist. of S. $\frac{1}{2}$ of E. bdy. of sec.25 are therefore N.0°3'E., 27.72 chs.

Thence,

North, on random line, on E. bdy. of sec.25 (N. $\frac{1}{2}$).

40.07 Fall 4 lks.W. of the previously reestablished cor. of secs. 24 and 25, hereinafter described.

68.10	Descend 22 ft., over N.slope, to Intersect the cor.of Ts.13 and 14 N. R.1 E., reestablished in original position of cor.of Ts.13 and 14 S.,Rs.1 and 2 E., by G.F.Rigby,U.S.S. in 1917, which is an iron post, 3 ins.in diam., projecting 12 ins. above ground, firmly set, properly marked on brass cap for reference to said townships, and witnessed by a mound of stone, W.of cor. No bearing trees.
	Thence, N. $0^{\circ}47'E.$, on true line, continuing measurement of W.bdy. of frac.sec.2.
79.10	Descend 55 ft., over N.slope: Center of wash, 360 lks.wide, course W.
87.80	Ascend 72 ft., over SW.slope, to Intersect the N. bdy. of frac.T.13 N.,R.1 $\frac{1}{2}$ E., surveyed due west. The closing cor. of Ts.13 and 14 N.,R. 2 E., established in 1917 by G.F.Rigby,brs,N. $59^{\circ}W.$,31.lks.dist.Remove this cor.monument, and reset at this point of intersection for original closing cor. of frac.T.13 N.,R.1 $\frac{1}{2}$ Et. and reestablished closing cor. of T.14 N., R.2 E.,as hereinafter described. Land, mountainous and rolling. Soil, rocky, 4th rate. Timber, none. Undergrowth, scrub oak and cactus.

BOOK 3659

Survey of North bdy. of frac. Township 13 North Range 11 East. 10
Chains.

The North bdy. of frac. T.13 N., R.1 $\frac{1}{2}$ E. is identical in position with part of the S. bdy. of T.14 N., R.2 E. as surveyed by G.F.Rigby, U.S.S. in 1917; however, as no cor. monuments referring to areas in said frac. T.13 N., R.1 $\frac{1}{2}$ E. have ever been set on the line, the N. bdy. of said township is technically unsurveyed. The following notes describe the establishment of cor. monuments on the line referring to areas in said frac. Tp., which constitutes a survey of the N. bdy. thereof.

From the closing cor. of frac. T.13 N., R.1 $\frac{1}{2}$ E., and T.13 N., R.2 E., hereinbefore described, West, on true line on N. bdy. of sec. 1. Over nearly level land, thru. very scattering timber and dense undergrowth.

Ascend slightly over SE. slope.

0.42 Road, Dewey-Camp Verde, brs. NE. and SW.

23.68 Leave nearly level, and enter rolling land.

Ascend 24 ft., over SE. slope.

25.12 Point where cor. of secs. 31 and 32, T.14 N., R. 2 E. is re-established, as described in Book "C" of this group.

30.82 Low ridge, brs. NE. and SW.

Descend 95 ft., over W. slope, to

39.85 (Midpoint of N. bdy. of sec. 1) Set an iron post, 3 ft. long, 1 in. in diam. on surface rock, deposit a stone marked with a cross (x) at base of post, and raise a mound of stone around post, for sec. cor. of sec. 1 only, with brass cap, marked.

IS 1
1923

No bearing trees available.

Continue over rolling land, thru. very scattering timber and dense undergrowth.

Descend 29 ft., over W. slope, to

43.41 Wash, 10 lks. wide, course S.80°W. Enter mountainous land.

Descend 150 ft., over S. and SW. slopes, to

65.12 Point where $\frac{1}{4}$ sec. cor. of sec. 31, T.14 N., R.2 E. is re-established as described in Book "C" of this group.

68.81 Intersect E. side line (3-4) of "Minnehaha" patented lode mining claim, Mineral Survey No. 2541 at a point 8.14 chs. N.23°45'E. from cor. No. 4 thereof. Thence across patented mining claims of Mineral Survey No. 2541.

73.32 Wash, 10 lks. wide, course NW.

Ascend 20 ft., over NE. slope.

74.91 Point of spur, slopes NW.

Descend 40 ft., over W. slope, to

79.71 Intersect the Subdivision line, bet. sec. 1 and frac. sec. 2, surveyed N.0°1'W. Closing cor. of said secs. established at this point of intersection, as hereinafter described.

Land, nearly level, rolling and mountainous.

Soil, rocky, 3rd and 4th rate.

Timber, oak.

Undergrowth, catclaw, scrub oak and cactus.

West, on true line, on N. bdy. of frac. sec. 2.

Over rolling land, thru. very scattering timber and dense undergrowth.

Across patented mining claim of Mineral Survey No. 2541.

Descend 10 ft., over W. slope, to

Foot of slope, brs. NE. and SW. Enter nearly level land.

Road, brs. NE. and SW.

Leave nearly level, and enter mountainous land.

Ascend 113 ft., over E. slope.

BOOK 3659

20 Survey of North bdy. of frac. Township 13 North Range 1 $\frac{1}{2}$ East.
Chains.

- 12.40 Intersect NW. side line (4-5) of "Texas" patented lode mining claim, Mineral Survey No.2541 at a point 1.57 chs. N.24°31'E. from cor.No.5 thereof. Leave patented mining claims.
- 13.15 Intersect E. side line (1-2) of "Bonnybel" patented lode mining claim, Mineral Survey No.2541, at a point 1.43 chs. N.4°00'W. from cor.No.5 of "Texas" claim, which cor. is on said E. side line of "Bonnybel" claim. Thence across "Bonnybel" claim.
- 16.53 Spur, slopes S. From this point, U.S.L.M. No.2541, Agua Fria Mining District brs.S.0.38 chs. dist., which is a quartz stone 12x12x24 ins., marked "USLM 2541" on S.face, and firmly set in a mound of stone, 5 ft.base, 4 ft.high. Descend 83 ft., over steep SW.slope, to
- 22.11 Foot of steep slope, brs.NW. and SE. Enter rolling land. Descend gradually over SW.slope to Tp. closing cor.
- 22.26 Intersect W. side line (3-4) of "Bonnybel" patented lode mining claim, Mineral Survey No.2541 at a point 8.09 chs. N.4°00'W. from cor.No.4 thereof. Leave said claim.
- 24.00 Wire fence, brs.N. and S.
- 25.41 Intersect the E. bdy.of T.14 N., R1 $\frac{1}{2}$ E. at a point 19.70 chs. N.0°47'E. from the cor.of Ts.13 and 14 N.,R.1 E., hereinbefore described. From this point of intersection, the closing cor.of Ts. 13 and 14 N.,R.2 E., established by G.F.Rigby,U.S.S. in 1917, brs.N.59°W.,31 lks.dist. This closing cor.is an iron post, 3 ins.in diam., projecting 12 ins. above ground, properly marked on brass cap, for reference to said Tps., and witnessed by a mound of stone, E.of post. No bearing trees. Destroy the mound of stones, remove the iron post, and at point of intersection, reset same iron post, 26 ins.in the ground, for original closing cor.of frac.T.13 N., R.1 $\frac{1}{2}$ E., and reestablished closing cor. of T.14 N., R.2 E., changing the marking on the brass cap to read:

T14N		
R2E

3032 Survey of Subdivision lines of frac. T.13 N. R. 13 E.

Chains.

Land. mountainous and rolling.
Soil, rocky, 4th rate.
Timber, none.
Undergrowth, scrub oak, catclaw and cactus.

The continued satisfactory adjustment of the solar apparatus of the instruments used in the execution of the surveys described in the foregoing notes is indicated from field tests described in Book "C" of this group.

GENERAL DESCRIPTION.

This fractional township lies in the Black Hills, and on the East side of the Agua Fria river. The surface is mountainous, except in the E. $\frac{1}{2}$ of sec.1, and is about 4,000 ft. above sea level.

The drainage is to the SW., into the Agua Fria, and to the east into Yarba Wash. The only land of agricultural value lies in the NE corner of the Tp. The grazing value of the land is fair. The soil is rocky, 3rd and 4th rate. There is very little timber in the township, and the undergrowth is dense throughout. Throughout the township, there are indications of valuable mineral deposits, and a number of patented mining claims are located in sec.1, 2, and 36. Water is very scarce.

An old mine road enters the township on W. bdy. of sec.14, and leaves at the NE cor. of sec.25. The main road from Camp Verde to Dewey, Arizona, crosses the northern part of the Tp. A telephone line from a mine in sec. 13 extends westerly to Humboldt, Arizona. There are no settlers.
