## FIELD NOTES

OF THE SURVEY OF THE

East Boundary,West Boundary,North Boundary,

and

Subdivision Lines of

TOWNSHIP 13 SOUTH, RANGE 7 EAST,

*Of the Gila and Salt River Base and Meridian,**In the State of Arizona*

EXECUTED BY

William H. Thorn, U. S. Cadastral Engineer,

*In the capacity of U. S. Surveyor, under Special Instructions dated March 19, 1920,  
issued by the United States Surveyor General to govern surveys included in Group  
No. 100, Arizona, which were approved by the Commissioner of the General Land  
Office, March 30, 1920, and Assignment Instructions dated December 1, 1924.*

*Survey commenced December 29th, 1924.**Survey completed January 19th, 1925.*

For dates of surveys of this line, see Book "F"

Indicates lines surveyed by William H.Thorn,U.S.C.E.  
on dates shown thereon

Surveys hereinafter described executed by William H. Thorn, U. S. Cadastral Engineer, on dates shown on diagram on page 1 hereof, using Young and Sons light mountain transit No. 8592, equipped with full vertical circle and Smith solar attachment. Unless otherwise specified all azimuth determinations are accomplished with the solar attachment.

January 4, 1925: Examine the adjustment of the instrument and correct all errors; then, to test the solar apparatus by comparing its indications from observations made during a. m. and p. m. hours with a meridian established by observation on Polaris, December 21, 1924, at camp near center of sec. 13, T. 14 S., R. 7 E., as described in Book "F" of this group, proceed as follows:

January 4, 1925: At 9 h. 0 m., a. m., l. m. t., set off  $32^{\circ} 12\frac{1}{2}'$  N. on the lat. arc., and  $22^{\circ} 14'$  S., on the decl. arc, and determine a meridian with the solar.

At app. noon with the lat. arc unchanged, observe the sun on the meridian, obtaining a reading of  $22^{\circ} 42' 3''$  on the decl. arc, which agrees with the computed declination of the sun.

At 3 h. 0 m., p. m., l. m. t., set off  $32^{\circ} 12\frac{1}{2}'$  N. on the lat. arc, and  $22^{\circ} 40'$  S., on the decl. arc, and determine a meridian with the solar.

As all of the solar observations made during the usual hours of solar work come within 1' in arc of the true meridian, conclude that the adjustments of the instrument are satisfactory.

Unless otherwise specified all measurements are made with a Lufkin steel tape 5.00 chs. in length, compared with a Lufkin standard steel tape and found correct. The measurements are made on the slope, the vertical angles determined with clinometer and the slope measurements properly reduced to true horizontal distances.

---

## Survey of the East Boundary of T. 13 S., R. 7 E.

Chains      The East boundary of T. 13 S., R. 7 E., forms part of the boundary of the Papago Indian Reservation, the land east of the line being within said reservation.  
 From the cor. of Ts. 13 and 14 S., Rs. 7 and 8 E., described in Book "F" of this group:  
 North, on a true line, bet. secs. 31 and 36.  
 Over level land, thru scattering timber and dense undergrowth.  
 18.40 Wash, 10 lks. wide, course N.  $10^{\circ}$  W.  
 40.00 Set an iron post, 3 ft. long, 1 in. in diam., 26 ins. in the ground for  $\frac{1}{4}$  sec. cor., with brass cap marked

$\frac{1}{4}$   
S 36 | S 31  
1924

From which  
 Mesquite, 5 ins. in diam., brs. S.  $35\frac{1}{2}^{\circ}$  E., 58 lks. dist., marked  $\frac{1}{4}$  S 31 B T.  
 Mesquite, 10 ins. in diam., brs. S.  $1\frac{3}{4}^{\circ}$  W., 181 lks. dist., marked  $\frac{1}{4}$  S 36 B T.  
 Continue over level land, thru scattering timber and dense undergrowth.  
 70.00 Drain, course W.  
 80.00 Set an iron post, 3 ft. long, 2 ins. in diam., 24 ins. in the ground for cor. of secs. 25, 30, 31 and 36, with brass cap marked

T 13 S  
R 7 E | R 8 E  
S 25 | S 30  
S 36 | S 31  
1924

No bearing trees available. Dig pits 18 x 18 x 12 ins. one each NE., SE., SW and NW., of post, 3 ft. dist.  
 Land; level.  
 Soil; sandy and gravelly, 2nd rate.  
 Timber; mesquite.  
 Undergrowth; greasewood and catclaw.

North, on a true line, bet. secs. 25 and 30.  
 Over level land, thru scattering timber and dense undergrowth.  
 1.05 Road, brs. N.  $70^{\circ}$  W., and S.  $70^{\circ}$  E.  
 19.30 Wash, 30 lks. wide, course W.  
 25.60 Wash, 20 lks. wide, course W.  
 40.00 Set an iron post, 3 ft. long, 1 in. in diam., 26 ins. in the ground for  $\frac{1}{4}$  sec. cor. with brass cap marked

$\frac{1}{4}$   
S 25 | S 30

The continued satisfactory adjustment of the solar apparatus of the instrument used in the execution of the surveys described in the foregoing notes is indicated from field tests described in Book "I" of this group.

## Survey of the Subdivision Lines of T. 13 S., R. 7 E.

GENERAL DESCRIPTION.

The land, in general, is level; covered with a dense growth of mesquite, catclaw, and greasewood. Along the washes are dense thickets of mesquite. The soil is adobe and sandy loam, red clay, 2nd and 3rd rate. One settler in the south-east quarter of Sec. 27 has a well 1000 feet deep. Water is pumped for stock. Land is well adapted to grazing and drains to the NW. During wet seasons portions of Secs. 7, 18, 17, 20, 16, 21, 15, 22, 27, 26 and 36 are subject to overflow and furnish a fair growth of stock feed. There are small hills in Secs. 14, 23, 25 and 36. No indications of mineral.

## **FIELD ASSISTANTS.**

to

William H.Thorn, U.S.Cadastral Engineer.

**CERTIFICATE OF UNITED STATES CADASTRAL  
ENGINEER.**

I, William H. Thorn, U.S. Cadastral Engineer, hereby certify upon honor that, in pursuance of special instructions received from the U. S. Surveyor General, for Group 100, Arizona, bearing date of the 19th day of March, 1920, I have well, faithfully, and truly in my own proper person, and in strict conformity with said instructions, the Manual of Surveying Instructions, and the laws of the United States, surveyed all those parts or portions of the East, West and North boundaries, and Subdivision lines of

**TOWNSHIP 13 SOUTH, RANGE 7 EAST.**

of the Gila and Salt River Base and Meridian, in the State of Arizona, which are represented in and by diagram on page 1 hereof the foregoing field notes as having been executed by me, and under my direction; and that all the corners of said survey have been established and perpetuated in strict accordance with the Manual of Surveying Instructions, and the special written instructions of the U. S. Surveyor General, for Group 100, Arizona, and in the specific manner described in the field notes, and that the foregoing are the original field notes of such survey.

Place: Phoenix, Ariz  
Date: Oct 16 1925

*William H. Thorn*  
U. S. Cadastral Engineer.

**APPROVAL.**

OFFICE OF THE UNITED STATES SUPERVISOR OF SURVEYS,

Denver, Colorado, November 25, 1925.

The foregoing field notes of the survey of the East, West and North boundaries, and Subdivision lines of

**TOWNSHIP 13 SOUTH, RANGE 7 East,**

of the Gila and Salt River Base and Meridian, in the State of Arizona,

executed by William H. Thorn, U. S. Cadastral Engineer, under his special instructions dated March 19, 1920, for Group 100, Arizona, having been critically examined, and the necessary corrections and explanations made, the said field notes, and the surveys they describe, are hereby approved.

*Daniel D. Johnson*  
United States Supervisor of Surveys.

I certify that the foregoing transcript of the field notes of the above-described surveys in has been correctly copied from the original notes on file in this office.

U. S. Surveyor General
