FIELD NOTES

OF THE SURVEY OF THE

North boundary,

Part (completion) of the West boundary, and

Part (completion) of the Subdivision lines, of

TOWNSHIP 12 SOUTH, RANGE 20 EAST.

Of the Gila and Salt River Base and Meridian,

In the State of Arizona.

EXECUTED BY

Glenn F. Sawyer, U. S. Surveyor.

and

Theodore Vander Meer, U.S. Transitman.

In the capacity of U. S. Surveyors, under Special Instructions dated October 24, 1923,
issued by the United States Surveyor General to govern surveys included in Group
No. 125, Arizona, which were approved by the Commissioner of the General Land
Office, November 3, 1923, and Assignment Instructions dated November 16, 1923

Survey commenced December 13, 1923

Survey completed December 26, 1923.

Indicates lines surveyed by Theodore Vander Meer, U.S. Transitman, on dates shown thereon.

Indicates lines surveyed by Glenn F. Sawyer, U.S. Surveyor, on dates shown thereon.

Indicates accepted surveys.

Surveys herein described were executed on dates shown on diagram on page 1 hereof, by Glenn F. Sawyer, U.S. Surveyor, using Young and Sons light mountain transit No. 8478, and Theodore VanderMeer, U.S. Transitman, using Buff and Buff light mountain transit No. 9208, each equipped with full vertical circle and Smith solar attachment; unless otherwise specified, all azimuth determinations were accomplished with the solar attachments.

December 11, 1923: We examine the adjustments of the transits and correct all errors; then, to test the solar apparatus, by comparing their indications, resulting from observations, made during a.m. and p.m. hours with a meridian established by Polaris observation, proceed as follows:

December 12, 1923: Using Buff and Buff transit No. 9208, at camp near center of sec. 24 (unsurv.) T. 12 S., R. 19 E. Gila and Salt River Base and Meridian, Arizona, Latitude, $32^{\circ}22\frac{1}{2}'$ N., longitude, $110^{\circ}21\frac{1}{2}'$ W., at 2h.11.9m. a.m., l.m.t., observe Polaris at western elongation, making four observations, two each with the telescope in direct and reversed positions, and mark the mean point in the line thus determined on a peg driven firmly in the ground 5 chs. N.

Azimuth of Polaris at western elongation = $1^{\circ}18'5''$.

At 7h. 45m. a.m., l.m.t., we lay off the azimuth of Polaris, $1^{\circ}18'$ to the east, and mark the meridian thus determined by a tack driven firmly in a peg, in the ground, 5 chs. N.

At 9h. 0m. a.m., l.m.t., we set off $32^{\circ}22\frac{1}{2}'$ N. on the lat. arcs; $22^{\circ}00\frac{1}{2}'$ S. on the decl. arcs, and determine a meridian with the solars, which we find to agree with the true meridian.

At apparent noon, with the lat. arcs unchanged, observe the sun on the meridian, and obtain a reading of $23^{\circ}1\frac{1}{2}'$ S. on the decl. arc, which agrees with the computed decl. of the sun.

At 3h. 00m. p.m., l.m.t., with the lat. arcs unchanged, set off $23^{\circ}1\frac{1}{2}'$ S. on the decl. arcs, and determine a meridian with the solars, which we find to agree with the true meridian.

As all of the solar observations during the usual hours of solar work come within $1'30''$ of the true meridian, we conclude that the adjustments of the instruments are satisfactory.

Unless otherwise specified, all measurements are made with Lufkin steel tapes, 5 chs. in length, compared with a Lufkin 1 ch. standard steel tape and found correct. The measurements are made on the slope, the vertical angles determined and the slope measurements properly reduced to true horizontal distances.

Survey of part(completion)of Township 12 South, Range 20 East. 3

The south mile of the West bdy. of T.12 S., R.20 E., was surveyed by J.L.Harris, U.S.D.S. in 1879, establishing the township cor., $\frac{1}{4}$ sec.cor. and sec.cor. with a common reference to areas on both sides of the range line. In 1913, J.F.Hesse, U.S.S. in connection with his survey of the south two tiers of secs. of T.12 S., R.20 E., resurveyed the East bdy. of sec. 36, T.12 S., R.19 E., surveyed the East bdy. of sec. 25, established closing Tp. and sec.cors. on the Range line for reference to areas E. thereof, and changed the original Tp. cor., $\frac{1}{4}$ sec. and sec.cor. to refer to areas W. of line only.

No other resurvey or retracement of this township bdy. is of record.

The following notes describe the survey of the North four miles of the W. bdy. of T.12 S., R.20 E., establishing thereon one set of cors. referring to areas E. of line only.

The original closing cor. of secs. 19 and 30, T.12 S., R.20 E. is an iron post, 2 ins. in diam., projecting 12 ins. above ground, firmly set, properly marked on brass cap, and witnessed by two properly marked mesquite bearing trees, one N. $49\frac{1}{2}^{\circ}$ E., 52 lks. dist., and the other S. $34\frac{1}{2}^{\circ}$ E., 59 lks. dist.

Thence, North, on true line, on W. bdy. of sec. 19. Over mountainous land, thru. very scattering timber and dense undergrowth.

Ascend 20 ft., over SW. slope.

1.26 Descend 72 ft., over NW. slope.

7.53 Intersect the original witness cor. to cor. of secs. 24 and 25, T.12 S., R.19 E., which is an iron post, 3 ins. in diam., projecting 12 ins. above ground, firmly set, properly marked on brass cap, and witnessed by a mound of stone, W. of cor., and one properly marked cedar bearing tree, 28 ins. in diam., N. 82° W., 17 lks. dist.

8.21 True point for cor. of secs. 24 and 25, T.12 S., R.19 E. in wash, 80 lks. wide, course NW.

Ascend 38 ft., over SW. slope.

9.70 Descend 36 ft., over NW. slope, to
11.82 Enter same wash, course N. from SW.

Descend 33 ft., in wash to

14.58 Leave wash, course NE. from S.

Ascend 17 ft., over SE. slope.

16.20 Descend 25 ft., over E. slope, to

22.45 Same wash, 100 lks. wide, course NW.

Ascend 140 ft., over S. slope, to

40.00 Set an iron post, 3 ft. long, 1 in. in diam., 27 ins. in the ground, for $\frac{1}{4}$ sec.cor. of sec. 19 only, marked on brass cap.

|
4S19

1923

No bearing trees available.

Raise a mound of stone, 3 ft. base, 2 ft. high, E. of cor.

47.10 Ascend 135 ft., over S. slope.

Spur, slopes W.

Descend 134 ft., over NW. slope.

55.60 Ascend 18 ft., over SW. slope.

57.20 Spur, slopes W.

Descend 24 ft., over NW. slope, to

60.60 Point of spur, slopes NW.

Descend 82 ft., over NW. slope.

65.00 Wash, 30 lks. wide, course SW. Enter rolling land.

Ascend 37 ft., over SE. slope.

71.90 Point of spur, slopes SE.

Descend 30 ft., over NE. slope.

77.20 Ascend gradually over E. slope, to

80.00 Set an iron post, 3 ft. long, 2 ins. in diam., 27 ins. in

12 Survey of part(completion) of the Subdivision lines of T.12S.R.20 E.
Chains.

The Subdivision lines of the south two tiers of sections in this township were surveyed by J.F.Hesse, U.S.S. in 1913.

The following notes describe the survey of the Subdivision lines of the north four tiers of sections in T.12 S., R.20 E., which completes the subdivision of the township.

The cor.of secs.23,24, 25 and 26 is an iron post, 2 ins. in diam., projecting 12 ins. above ground, firmly set, properly marked on brass cap, and witnessed by four properly marked bearing trees, one each NE., SE., SW. and NW. of cor.

Thence,

N.0°1'W., bet. secs. 23 and 24.

Over mountainous land, thru.scattering timber and dense undergrowth.

Ascend 640 ft., over SW.slope.

39.95 Saddle in ridge, brs.NW. and SE.

Descend slightly to

40.00 Set an iron post, 3 ft.long, 1 in. in diam., 10 ins. in the ground to bed rock, supported in a mound of stone, for $\frac{1}{4}$ sec.cor., marked on Brass cap,

GENERAL DESCRIPTION.

SURFACE: This township lies on the SW. slope of the Galiuro mountains, graneral drainage to the West. Approximate elevation, 2,500 ft.

SOIL: The soil consists of gumbo and clay formation in western part of the township, and sandy and rocky in the eastern part, 2nd to 4th rate.

TIMBER: Mesquite, juniper, oak and manzanita.

UNDERGROWTH: Cactus, scrub mesquite, yucca, scrub palo verde, and catclaw.

EVIDENCE OF MINERAL: None.

WATERING PLACES: Cottonwood Spring in NW. $\frac{1}{4}$ of sec.12, and Cherry Creek canyon with water in places. Also, water in "Double R" Canyon.

SETTLEMENT: None.

IMPROVEMENTS: Corral in sec.2, corral in sec.4, and range fences in various parts.

INDUSTRY: Stock grazing.

CERTIFICATE OF UNITED STATES TRANSITMAN.

I, Theodore Vander Meer, U.S. Transitman, hereby certify upon honor that, in pursuance of special instructions received from the U. S. Surveyor General, for Group 125, Arizona, bearing date of the 24th day of October, 1923, I have well, faithfully, and truly in my own proper person, and in strict conformity with said instructions, the Manual of Surveying Instructions, and the laws of the United States, surveyed all those parts or portions of the West and North boundaries, and Subdivision lines of

Township 12 South, Range 20 East,

of the Gila and Salt

River Base and Meridian, in the State of Arizona, which are represented in the foregoing field notes as having been executed by me, and under my direction; and that all the corners of said survey have been established and perpetuated in strict accordance with the Manual of Surveying Instructions, and the special written instructions of the U. S. Surveyor General, for Group 125, Arizona, and in the specific manner described in the field notes, and that the foregoing are the original field notes of such survey,
