FIELD NOTES

OF THE SURVEY OF THE

Subdivisional Lines

of

Township 12 North

Range 14 East

Of the Gila and Salt River Meridian,

In the State of Arizona

EXECUTED BY

Horace M. Muscott, Public Land Surveyor and Claude F. Warner,

Transitman; General Land Office.

Under special instructions dated June 20, 1934, which provided for the surveys included under Group No. 190, bearing the approval of the Commissioner of the General Land Office under date of July 6, 1934 and assignment instructions dated May 15 and June 4, 1937.

Survey commenced August 17, 1937

Survey completed September 27, 1937

Chains.

The subdivisional survey of township 12 north, range 14 east, was executed with Buff light mountain transits Nos. 16723 and 9984. For description, date of approval and tests of instruments, and equipment and method of survey, refer to the field notes of the exterior lines surveyed and resurveyed under this group.

For preliminary test of Buff No. 16723, refer to the preliminary test as outlined in the field notes of the Third Stan. Par. North, through ranges 15, 14 and a portion of 13 east, resurveyed under this group.

For preliminary test of Buff No. 9984, refer to the final test as outlined in the field notes of the subdivisional lines of township 12 north, range 15 east, surveyed under this group.

 From the cor. of secs. 1, 2, 35 and 36, on the S. bdy. of the Tp., described in the field notes of the S. bdy. of the township, surveyed under this group.

N. 0° 01' W., bet. secs. 35 and 36.

Over nearly level land, through yellow pine, timber, and scattered undergrowth.

40.00 Set an iron post, 3 ft. long, 1 in. diam., 28 ins. in the ground, for $\frac{1}{4}$ sec. cor., with brass cap mkd.

A yellow pine, 6 ins. diam., bears S. 35° W.,
37 lks. dist., mkd. $\frac{1}{4}$ S 6 BT.

Final tests of instruments

For final test of Buff No. 16723, refer to the final
test as outlined in the field notes of the exterior lines,
surveyed and resurveyed under this group.

For final test of Buff No. 9984, refer to the final
test as outlined in the field notes of the subdivisional
lines of T. 12 N., R. 13 $\frac{1}{2}$ E., surveyed under this group.

General Description

The township is generally of rolling mountainous
land, with slopes largely gentle, except in the south-
west portion of the township, where the slopes become
nearly precipitous, and broken.

Drainage is to the northeast, through Chevalon
Canyon and its tributaries. The soil is a rocky clay
of poor quality, being third and fourth rate, except in
the meadows, where it is first rate.

There is a good stand of yellow pine timber, rang-
ing in size up to 18 ins. diameter, with oak, aspen,
juniper, fir and spruce intersperced in small and about
equal numbers. There is a fair growth of second growth
pine over the township in general, This undergrowth be-
comes very dense on the slopes occasionally, especially
when augmented or replaced by oak brush, which is found
in some quantity over the entire township.

The canyons carry quite an amount of water at the
time of year the survey was made, but the seasonal var-
iation of flow is considerable.

There are no mineral developments or evidence of
minerals in the township.

There are two homesteads in the township, one lying
in secs. 5 and 8, known as the Tillman Ranch. The other
is in secs. 7 and 8, and is known as the Duran Ranch.
Both of these homesteads are on the Circle Bar Draw.

There are no settlements in the township, and no
improvements other than the various forest protection
truck trails and telephone lines of the Forest Service.

CERTIFICATE OF SURVEYOR

We, Horace M. Muscott, Public Land Surveyor and Claude F. Warner, Transitman, General Land Office

HEREBY CERTIFY upon honor that, in pursuance of special instructions bearing date of the 20th day of June, 1934,

received from the district cadastral engineer for Arizona, with assignment instructions dated June 4, 1937

and May 15, we have surveyed the subdivisional lines of Township 12 North, Range 14 East,

River of the Gila and Salt Meridian, in the State of Arizona, which are represented in the foregoing field notes as having been executed by us and under our direction; and that said survey has been made in strict conformity with said instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in the specific manner described in the foregoing field notes.

Glendale, California, Jan. 6, 1938. Phoenix, Arizona, Jan. 12, 1938.

Horace M. Muscott Public Land Surveyor Claude F. Warner Transitman General Land Office

CERTIFICATE OF APPROVAL

OFFICE OF SUPERVISOR OF SURVEYS, Denver, Colorado, JAN 31, 1940

The foregoing field notes of the survey of the subdivisional lines of township 12 North, Range 14 East, of the Gila and Salt River Meridian, in the State of Arizona,

executed by Horace M. Muscott, Public Land Surveyor, and Claude F. Warner, Transitman, General Land Office, under special instructions dated June 20, 1934, and assignment instructions dated May 15 and June 4, 1937, having been critically examined, and the necessary corrections made prior to their certification by the engineer, the said field notes, and the survey therein described, are hereby approved.

Signature of Supervisor of Surveys

CERTIFICATE OF TRANSCRIPT

I certify that the foregoing transcript of the field notes of the above-described surveys is a true copy of the original field notes on file in the public survey office.

U.S. Supervisor of Surveys
