FIELD NOTES

of the

Survey of the South Boundary of T. 39 N., R. 15 W., and
the West boundary and a portion of the Subdivision of.
T. 38 N., R. 15 W.

Of the Gila and Salt River Meridian,

In the State of Arizona

EXECUTED BY

George M. Boofer Cartographer, Cadastral

Under special instructions dated September 22, 1954, which provided
for the surveys included under Group No. 295, approved September 27, 1954
and assignment instructions dated November 8, 1955.

Survey commenced December 7, 1955.

Survey completed February 3, 1956.

16-56770-1

T. 38 N., R. 15 W.

Chains

The east boundary of the township was surveyed by K. L. Siebecker in 1929 and 1930. The south boundary was concurrently surveyed in this group and is recorded in the field notes for T. 37 N., R. 15 W.

The following field notes are those of the north and west boundaries and a portion of the subdivision of T. 38 N., R. 15 W.

For the tests of the instruments and the methods employed, refer to the field notes for T. 35 N., R. 15 W.

The geographic position of the southeast corner of the township is latitude $36^{\circ}38'40.441''$ N., longitude $113^{\circ}50'57.873''$ W. as determined by calculations from township plat of T. 37 N., R. 15 W. The magnetic declination for the township is $16\frac{1}{2}^{\circ}$ E.

Survey of the South Boundary of T. 39 N., R. 15 W.

It is evident from the latitudinal position of the cor. of Ts. 38 and 39 N., Rs. 14 and 15 W., and the cor. of Ts. 38 and 39 N., Rs. 15 and 16 W., that the line between Ts. 38 and 39 N., R. 15 W., if surveyed by the random and true line method, would deviate more than 14' from a cardinal direction and not form a proper basis for subdivision. Therefore, I survey this line West from the cor. of Ts. 38 and 39 N., Rs. 14 and 15 W., to an intersection with the east boundary of T. 39 N., R. 16 W.

Beginning at the cor. of Ts. 38 and 39 N., Rs. 14 and 15 W., which is monumented by an iron post, 3 ins. diam., set, marked, and witnessed as described in the official record.

West, between secs. 1 and 36.

Over mountainous land, through dense growth of timber and medium undergrowth.

Asc. 185 ft. over steep, rocky E. slope.

8.45 Ridge point, bears N. and S.; thence over high mesa land.

17.90 Point of descent; desc. 220 ft. over moderate W. slope.

40.00 Point for the $\frac{1}{4}$ sec. cor. of secs. 1 and 36.

Set an iron post, 30 ins. long, $2\frac{1}{2}$ ins. diam., 10 ins. in the ground to bedrock, and in a mound of stone to top, with brass cap marked

$\frac{1}{4}$ S 36
S 1

General Description

The land within T. 38 N., R. 15 W., is principally rolling and broken, with flat-top mesas with a generally southerly exposure and drainage towards the Grand Gulch. This township lies in the Virgin Mountains, in which the west part of the township lies on the west of the mountains.

Cottonwood Canyon is the main canyon running through the township, entering the township on the north boundary between secs. 1 and 36, draining in a southwesterly direction, leaving the township on the south boundary, between secs. 4 and 33. Cottonwood Canyon attains a maximum depth of approximately 800 ft. and is rimmed with ledges and rock masses at many points.

The soil is principally light, shallow sand and loam, with numerous outcroppings and lava beds. The timber is a massive growth of cedars covering two-thirds of the township, with scattered pinon and scrub oak. The undergrowth consists of black brush, sagebrush, catclaw, creosote, sweet balsa, and good grass in the higher mesa.

CERTIFICATE OF CADASTRAL ENGINEER

I, George M. Boofer, HEREBY CERTIFY upon honor that, in pursuance of special instructions bearing date of the 22 day of September 1954, I have surveyed the south boundary of township 39 north., range 15 west; the west boundary and a portion of the subdivision of township 38 north, range 15 west.

of the G. & S.R. Meridian, in the State of Arizona, which are represented in the foregoing field notes as having been executed by me and under my direction; and that said survey has been made in strict conformity with said instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in the specific manner described in the foregoing field notes.

June 14, 1954

CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT,

Washington, D. C., NOV 26 1956, 19

The foregoing field notes of the survey of the south boundary of township 39 north, range 15 west, and the west boundary and a portion of the subdivision of township 38 north, range 15 west.

executed by George M. Boofer Cartographer, Cadastral

having been critically examined and found correct, are hereby approved.

Carly J. Harrington
Chief, Division of Cadastral Engineering
Cadastral Engineering Staff Officer

CERTIFICATE OF TRANSCRIPT

I CERTIFY that the foregoing transcript of the field notes of the above described surveys in _____, is a true copy of the original field notes.

Chief, Division of Cadastral Engineering.
